The Apocalypse Factory: Plutonium and the Making of the Atomic Age Steve

Olson, 2020-07-28 A thrilling narrative of scientific triumph, decades of secrecy, and the unimaginable destruction wrought by the creation of the atomic bomb. It began with plutonium, the first element ever manufactured in quantity by humans. Fearing that the Germans would be the first to weaponize the atom, the United States marshaled brilliant minds and seemingly inexhaustible bodies to find a way to create a nuclear chain reaction of inconceivable explosive power. In a matter of months, the Hanford nuclear facility was built to produce and weaponize the enigmatic and deadly new material that would fuel atomic bombs. In the desert of eastern Washington State, far from prying eyes, scientists Glenn Seaborg, Enrico Fermi, and many thousands of others—the physicists, engineers, laborers, and support staff at the facility—manufactured plutonium for the bomb dropped on Nagasaki, and for the bombs in the current American nuclear arsenal, enabling the construction of weapons with the potential to end human civilization. With his characteristic blend of scientific clarity and storytelling, Steve Olson asks why Hanford has been largely overlooked in histories of the Manhattan Project and the Cold War. Olson, who grew up just twenty miles from Hanford's B Reactor, recounts how a small Washington town played host to some of the most influential scientists and engineers in American history as they sought to create the substance at the core of the most destructive weapons ever created. The Apocalypse Factory offers a new generation this dramatic story of human achievement and, ultimately, of lethal hubris.

Beyond the Call Eileen Rivers, 2018-11-06 A riveting account of three women who fought shoulder-to-shoulder with men and worked with local women to restore their lives and push back the Taliban. They marched under the heat with 40-pound rucksacks on their backs. They fired weapons out of the

windows of military vehicles, defending their units in deadly battles. And they did things that their male counterparts could never do--gather intelligence on the Taliban from the women of Afghanistan. As females they could circumvent Muslim traditions and cultivate relationships with Afghan women who were bound by tradition not to speak with American military men. And their work in local villages helped empower Afghan women, providing them with the education and financial tools necessary to rebuild their nation--and the courage to push back against the insurgency that wanted to destroy it. For the women warriors of the military's Female Engagement Teams (FET) it was dangerous, courageous, and sometimes heartbreaking work. Beyond the Call follows the groundbreaking journeys of three women as they first fight military brass and culture and then enemy fire and tradition. And like the men with whom they served, their battles were not over when they returned home.

Doing Justice Preet Bharara,2019-03-19 *A New York Times Bestseller* An important overview of the way our justice system works, and why the rule of law is essential to our survival as a society—from the one-time federal prosecutor for the Southern District of New York, and host of the Doing Justice podcast. Preet Bharara has spent much of his life examining our legal system, pushing to make it better, and prosecuting those looking to subvert it. Bharara believes in our system and knows it must be protected, but to do so, he argues, we must also acknowledge and allow for flaws both in our justice system and in human nature. Bharara uses the many illustrative anecdotes and case histories from his storied, formidable career—the successes as well as the failures—to shed light

on the realities of the legal system and the consequences of taking action. Inspiring and inspiringly written, *Doing Justice* gives us hope that rational and objective fact-based thinking, combined with compassion, can help us achieve truth and justice in our daily lives. Sometimes poignant and sometimes controversial, Bharara's expose is a thought-provoking, entertaining book about the need to find the humanity in our legal system as well as in our society.

Dignity Chris Arnade, 2019-06-04 NATIONAL BESTSELLER A profound book.... It will break your heart but also leave you with hope. —J.D. Vance, author of *Hillbilly Elegy* [A] deeply empathetic book. —The Economist With stark photo essays and unforgettable true stories, Chris Arnade cuts through expert pontification on inequality, addiction, and poverty to allow those who have been left behind to define themselves on their own terms. After abandoning his Wall Street career, Chris Arnade decided to document poverty and addiction in the Bronx. He began interviewing, photographing, and becoming close friends with homeless addicts, and spent hours in drug dens and McDonald's. Then he started driving across America to see how the rest of the country compared. He found the same types of stories everywhere, across lines of race, ethnicity, religion, and geography. The people he got to know, from Alabama and California to Maine and Nevada, gave Arnade a new respect for the dignity and resilience of what he calls America's Back Row--those who lack the credentials and advantages of the so-called meritocratic upper class. The strivers in the Front Row, with their advanced degrees and upward mobility, see the Back Row's values as worthless. They scorn anyone who stays in a dying town or city as foolish, and mock anyone who clings to religion or tradition as naïve. As Takeesha, a woman in the Bronx, told Arnade, she wants to be seen she sees herself: a prostitute, a mother of six, and a child of God. This book is his attempt to help the rest of us truly see, hear, and respect millions of people who've been left behind.

The End of Night Paul Bogard,2013-07-09 A deeply panoramic tour of the night, from its brightest spots to the darkest skies we have left. A starry night is one of nature's most magical wonders. Yet in our artificially lit world, three-quarters of Americans' eyes never switch to night vision and most of us no longer experience true darkness. In *The End of Night*, Paul Bogard restores our awareness of the spectacularly primal, wildly dark night sky and how it has influenced the human experience across everything from science to art. From Las Vegas' Luxor Beam -- the brightest single spot on this planet -- to nights so starlit the sky looks like snow, Bogard blends personal narrative, natural history, science, and history to shed light on the importance of darkness -- what we've lost, what we still have, and what we might regain -- and the simple ways we can reduce the brightness of our nights tonight.

Forcing the Spring Jo Becker,2015-05-19 A New York Times Notable Book of the Year | A Washington Post Best Book of the Year “[A] riveting legal drama, a snapshot in time, when the gay rights movement altered course and public opinion shifted with the speed of a bullet train... Becker’s most remarkable accomplishment is to weave a spellbinder of a tale that, despite a finale reported around the world, manages to keep readers gripped until the very end.” - The Washington Post A groundbreaking work of reportage by Pulitzer Prize-winning journalist Jo Becker, *Forcing the Spring* is the definitive account of five remarkable years in American civil rights history, when the United States

experienced a tectonic shift on the issue of marriage equality. Focusing on the historic legal challenge of California's ban on same-sex marriage, Becker offers a gripping, behind-the-scenes narrative told with the lightning pace of a great legal thriller. Taking the reader from the Oval Office to the Supreme Court ruling, from state-by-state campaigns to an astounding shift in national public opinion, *Forcing the Spring* is political and legal journalism at its finest.

Border Patrol Nation Todd Miller, 2014-03-24 In his scathing and deeply reported examination of the U.S. Border Patrol, Todd Miller argues that the agency has gone rogue since the Sept. 11 terrorist attacks, trampling on the dignity and rights of the undocumented with military-style tactics. . . . Miller's book arrives at a moment when it appears that part of the Homeland Security apparatus is backpedaling by promising to tone down its tactics, maybe prodded by investigative journalism, maybe by the revelations of NSA leaker Edward Snowden. . . . Border Patrol is quite possibly the right book at the right time . . . --Tony Perry, Los Angeles Times "At the start of his unsettling and important new book, *Border Patrol Nation*, Miller observes that these days 'it is common to see the Border Patrol in places--such as Erie, Pennsylvania; Rochester, New York; or Forks, Washington--where only fifteen years ago it would have seemed far-fetched, if not unfathomable.'" --Barbara Spindel,

Christian Science Monitor Miller's approach in *Border Patrol Nation* is to offer a glimpse into the secretive operations of the Border Patrol, reporting with a journalist's objectivity and nose for a good story. Miller's book is full of facts, and it's clear he's outraged, but he gives voices to people on every side of the issue. . . . Miller's book is a fascinating read. . . . and bring the work of Susan Orlean to mind.--Amanda Eyre Ward Kirkus Reviews Todd Miller's invaluable and gripping book, *Border Patrol Nation: Dispatches from the Front Lines of Homeland Security* is the story of how this country's borders are being transformed into up-armored, heavily militarized zones run by a border-industrial complex. It's an achievement and an eye opener.--Tom Engelhardt, TomDispatch What Jeremy Scahill was to Blackwater, Todd Miller is to the U.S. Border Patrol!--Tom Miller, author, *On the Border: Portraits of America's Southwestern Frontier* Todd Miller has entered a secret world, and he has gone deep. . . . Powerful.--Luis Alberto Urrea, author of *The Devil's Highway: A True Story* Journalist Miller tells an alarming story of U.S. Border Patrol and Homeland Security's ever-widening reach into the lives of American citizens and legal immigrants as well as the undocumented. In addition to readers interested in immigration issues, those concerned about the NSA's privacy violations will likely be even more shocked by the actions of Homeland Security.--Publishers Weekly, Starred Review Armed authorities watch from a military-grade surveillance tower as lines of people stream toward the security checkpoint, tickets in hand, anxious and excited to get through the gate. Few seem to notice or care that the US Border Patrol is monitoring the Super Bowl, as they have for years, one of the many ways that forces created to police the borders are now being used, in an increasingly militarized fashion, to survey and monitor the whole of American society. In fast-paced prose, Todd Miller sounds an alarm as he chronicles the changing landscape. Traveling the country—and beyond—to speak with the people most involved with and impacted by the Border Patrol, he combines these first-hand

encounters with careful research to expose a vast and booming industry for high-end technology, weapons, surveillance, and prisons. While politicians and corporations reap substantial profits, the experiences of millions of men, women, and children point to staggering humanitarian consequences. Border Patrol Nation shows us in stark relief how the entire country has become a militarized border zone, with consequences that affect us all. Todd Miller has worked on and written about US border issues for over fifteen years.
