Research on e-Learning and ICT in Education

Tassos Anastasios Mikropoulos, 2018-10-04 This book is an essential text for researchers and academics seeking the most comprehensive and up-to-date coverage of all aspects of e-learning and ICT in education, providing expanded peer-reviewed content from research presented at the 10th Panhellenic Conference on ICT in Education. The volume includes papers covering technical, pedagogical, organizational, instructional, as well as policy aspects of ICT in Education and e-Learning, and emphasizes applied research relevant to the educational realities in schools, colleges, universities and informal learning organizations. Research on e-Learning and ICT in Education is a valuable resource for education professionals interested in keeping up with current trends, perspectives, and approaches determining e-Learning and ICT integration in practice, including learning and teaching, curriculum and instructional design, learning media and environments, teacher education and professional development.

Using Peer Assessment to Inspire Reflection and Learning Keith Topping, 2018-07-17 There is increasingly strong evidence that K-12 learners who assess each other's work and then engage in related reflections, discussions, and negotiations benefit mutually from the process. In this practical volume, Keith J. Topping provides suggestions for implementing effective peer assessment across many classroom contexts and subjects. Using Peer Assessment to Inspire Reflection and Learning offers pre- and in-service teachers a variety of teaching strategies to best fit their particular students and school environments along with straightforward tools to evaluate peer assessment's impact on their classrooms.

New Developments in Science and Technology Education Martin Riopel, Zacharoula

Smyrnaïou, 2016-02-11 This book explores the beneficial impact of pedagogically updated practices and approaches in the teaching of science concepts as well as elaborates on future challenges and emerging issues that address Science and Technology Education. By pointing out new research directions it informs educational practices and bridges the gap between research and practice providing information, ideas and new perspectives. The book also promotes discussions and networking among scientists and stakeholders such as researchers, professors, students and companies developing educational software and ICT tools. The volume presents papers from the First International Conference on "New Developments in Science and Technology Education" (1st NDSTE) that was structured around four main thematic axes Modern Pedagogies in Science and Technology Education, New Technologies in Science and Technology Education, Teaching and Learning in the light of Inquiry learning Methods and Interest, Attitude and Motivation in Science.
