God's Cops James Estrada, Willie Newkirk Jr., 2013-09-20 First lets look at the Hoyle comparison: a typical Boeing 747-400 has about 6 million parts. The typical human genome is an organisms complete set of DNA. Genomes vary widely in size: the smallest known genome for a free-living organism (a bacterium) contains about 600,000 DNA base pairs, while human and mouse genomes have some 3 billion. Except for mature red blood cells, all human cells contain a complete genome. DNA in the human genome is arranged into 23 distinct chromosomes--physically separate molecules that range in length from about 50 million to 250 million base pairs (Unknown, 2011). Lets say despite the fact that people have three billion base pairs that are aligned perfectly and a 747 is only 6 million parts, but for purposes of this discussion lets say that we are only as complex as the 747. OK, here is the problem: first, a 747 was designed, without designers and builders there would be no 747. Remember the analogy I gave of removing the distributor cap from a car and throwing it at the engine and then expecting it to run? You and I have consciousness and we can build a 747. A 747 does not have consciousness and cant build a human. In fact, we are far more sophisticated than a 747 and we cant build a human from the ground up yet. Now detractors would say of course you can build a 747 because you have many more parts that comprise you that make you and you are an intelligent being. All true making me more complex than a 747 and thus more likely to have been designed than the 747, and we all know the 747 was designed. Not just designed by someone in a garage to get us by, engineered to stringent standards taking into account all the forces, stresses and elements it was going to encounter on Earth. Now remember: you are expected to believe that this thing (the 747) that was engineered and is less sophisticated than you are came about by engineering, but you who is realistically at least eight times more complex came about by random chance and mutation. Has anybody ever seen a Cessna randomly mutate into a 747? If we go around randomly killing Cessnas, will they mutate into F-18s so they can get away or fight back? You can argue faster Cessnas might survive more often than slower Cessnas but they are all still Cessnas. However, the faster Cessnas will only survive if they are piloted by people. Further, if we squeeze more and more people into the Cessna that still wont make it a 747. The Earth is covered over by 75% water. Why not 30%? Why not 100%? Because of the oceans we have are perfect amount of salt to produce the right amount of rainfall, otherwise Earth would either be a desert or a water world. The Earth is covered by salt water over the majority of its surface, water that is undrinkable to humans. Were it not for the formation of vast amounts of freshwater, we would not be here. Why is there any freshwater? Why isnt it all freshwater? The Earths composition allows for human life to survive in every location upon it naturally with the exception of Antarctica. Remember one thing from the first time you boiled water: salt water freezes at a lower temperature and boils at a lower temperature. This means salt water evaporates at a lower temperature. If the oceans were all fresh water there would be a lot less water vapor in the air and less rain. In order to have more water vapor in a world with freshwater oceans you would need more of it to be exposed to the sun, which means more of the planet would need to be water. It seems we have just the right balance of salt water and salinity of that salt water to make rain, and just the right balance of freshwater to survive. The Earth might well roll around on its axis but for a single large moon to stabilize its orbit and provide tidal changes. If the oceans had been bigger the tidal effect would have been greater and much of the life that relies on tides would not exist. The Earth has an atmosphere that protects us from radiation and keeps

From Billy Fury to YouTube Michael Parkinson (The other one), 2018-05-02 These are the tales of Michael Parkinson, YouTuber extraordinaire. Michael has posted hundreds of videos to YouTube and has thousands of hits on them every day. In this book he tells the stories of how the videos came to be: behind the scenes when promoting Billy Fury dance shows with 300 amateur performers, and a show with professional dancers in London; Michael's biography of Billy Fury and an explanation of his graveside tribute to Britain's first rock 'n' roll star. Some highlights from Michael's YouTube adventures: A pretty Italian pianist and how she influenced his YouTube Channel X Factor finalist Saara Aalto singing for him in Leicester Square Walking the Thames Path, he did not video the copulating couple but did capture the giggly girls and the horses Thursford Christmas Spectacular - bandleaders and penguins Blackpool Tower ballroom and Scarborough Spa precede Brighton and boobette Joanna Forest with an emotional farewell appearance from Judith Durham and the Seekers at Nottingham Disneyland Paris, the Royal Academy of Music, a biography of Eric Coates, a story of Notts and England cricket. Read Michael's hints on where to attend free or inexpensive London concerts; find out how he captured Scottish Football fans invading Trafalgar Square, and fell in love with the Chamber Choir from Drake University, Iowa USA. It can get personal: exam nerves, childhood memories and his National Service. And emotional: The Gardener and Alzheimers Lady and the Tuneless Choir.

Expeditions Unpacked Ed Stafford, 2019-09-17 "A fascinating and unique look at these celebrated expeditions. Ed Stafford knows all too well how important an explorer's kit can be and this brilliant book gives great insight into the role it plays." —Sir Ranulph Fiennes In this unique and enthralling book, explorer and survivalist Ed Stafford curates 25 great expeditions through the lens of the kit these remarkable explorers took with them. In an environment where lack of preparation could mean certain death, the equipment carried, ridden and sailed into uncharted territories could mean the success or failure of an expedition. Was it simply a case of better provisions and preparation that helped Amundsen beat Scott to the South Pole? And how has the equipment taken to Everest changed since Hillary's first ascent? Through carefully curated photographs and specially commissioned illustrations we can see at a glance the scale, style and complexity of the items taken into the unknown by the greatest explorers of all time, and the impact each item had on their journey. How it potentially saved a life, or was purely for comfort or entertainment, and how these objects of survival have evolved and adapted as science advances, and we plunge further into the extremes. Conquering fears and mountains, adversity and wild jungles, each item these explorers flew, pulled or hauled played a crucial role in their ambitious and dangerous missions to find out a little more about our world. Through each of these objects, we can gain a better understanding ourselves. Get an intimate view of these and more amazing expeditions: Roald Amundsen, race to the Pole: Norwegian expedition (snowshoes, Primus stove, piano, violin, gramophone...) Amelia Earhart, first woman to fly solo across the Atlantic Ocean (Bendix radio direction finder, parachutes, emergency life raft, rouge...) Tim Slessor, first overland from London to Singapore (machetes, crowbar, typewriter, Remington dry shaver, tea...) Nellie Bly, around the world in 72 days (Mumm champagne, accordion, silk waterproof wrap, dark gloves...)

Slices of a Starchild's Life SR Brown, 2018-10-21 The inspiration for the urban fantasy series, Starchild's Fire, we can find many of the characters featured in these works exploring this town and universe in the novels. Volume two in the slice of life series, we again go on adventures with the starchild, Val, as they once more explore the absolutely typical town they call home. Nothing strange going on in a hometown in the middle of nowhere. A place with less direct sunlight than a rainy day, and with a forest that contains creatures of myths. Plus the ocean remains a great location to dip your toes in the water. As long as you stay behind the net so knowledge-hungry mermaids don't drag you beyond the drop-off. Still a land of ordinary magic and monsters, the shapeshifter will meet a werehyena whose life they save and fight to not repay for such a friendly deed; befriend a kind immortal with an affection for jewels and living in an isolated cabin in the woods; and relax with intergalactic friends on a bench in

the park on a quiet afternoon. But with a love of the tranquil life and making new acquaintances wherever they go, these are just another day for Val. A gentle smile always on their face as they've had for the last few decades no matter the situation. After all, aren't all towns like this?

Fresh Slices New York Tri-State Chapter of Sisters in Crime,Terrie Farley Moran,Clare Toohey,Catherine Maiorisi,Cynthia Benjamin,Susan Chalfin,Fran Cox,Laura K. Curtis,Eileen Dunbaugh,Lois Karlin,Lynne Lederman,Leigh Neely,Anita Page,Triss Stein,Cathi Stoler,Anne-Marie Sutton,Joan Tuohy,Deirdre Verne,Stephanie Wilson-Flaherty,Lina Zeldovich,Elizabeth Zelvin,K.J.A. Wishnia,2014-08-14 Slices of life beyond the tourist's view. By turns funny, tough, and somber, the twenty-one helpings of New York attitude in *Fresh Slices* reveal neighborhoods both rich and poor, where old-timers desperately protect their secrets and brand-new arrivals indulge dangerous appetites. There is as much variety in the tones, settings, and approaches as in Gotham itself, and yet each of these crime stories also reflects the city's most infectious and unifying principle, that special combination of adaptability and assertiveness dished out more often than any pizza or street meat. In this, *Fresh Slices'* second edition, urban short stories offer action-packed mystery that moves from cozy to noir. The sleuths, police officers and investigators who grapple with crime in these pages are richly drawn and engagingly authentic. Written by local members of the New York / Tri-State chapter of Sisters in Crime the anthology and edited by Agatha nominee Terrie Farley Moran, *Fresh Slices* is second in the Murder New York series and features tales from the most ethnically diverse and densely populated city in America.

Feelings of Structure Karen Engle,Yoke-Sum Wong,2018-11-30 Sweatsuits and the apocalypse, the demands of a sofa, a life recalled through window frames, whale watching through cancer, the serendipity of geographical names ... in *Feelings of Structure*, these are just some of the spaces and places, memories, and experiences addressed by the authors in writings that are multilevel explorations of the tangled-up nature of feeling and structure. Inspired by Raymond Williams's classic essay *Structures of Feeling* and influenced by the current discussion of affect studies, this collection inverts Williams's influential concept to explore the ephemerality of feeling as working in concert with the grounding forces of materiality and history. *Feelings of Structure* is a collection of twelve original texts that explores the weight of diverse encounters with a variety of configurations, be they institutional, spatial, historical, or fantastical. Featuring writers from a range of disciplines, this book aims for textual evocation in subject matter and approach, with essays that encompass multiple methodologies, writing styles, and tones. Experimental in nature, *Feelings of Structure* balances the need for concrete and specific observation with the ephemerality of experience.

U2 David Kootnikoff,2009-12-30 This is the story of the phenomenally popular, critically acclaimed Irish band from its Dublin beginnings to the present. *U2: A Musical Biography* tells the story of the phenomenally popular Irish rock band whose passionate songs and performances have taken them from their Dublin upbringing to the Rock and Roll Hall of Fame—all with the band's original foursome of Bono, The Edge, Larry Mullen, and Adam Clayton intact. *U2* follows the band from the early talent show victory that got them their first recording contract to their 1987 worldwide

breakout with The Joshua Tree and the string of critically acclaimed albums and sold-out stadium and arena tours that followed. As the story of U2 unfolds, readers will get a sense of the strong interpersonal bonds and deep-rooted Christian faith that have kept the band together for over three decades. The book also highlights the group's ongoing commitment to supporting a variety of human rights causes worldwide.
