Eruption: The Untold Story of Mount St. Helens Steve Olson, 2016-03-07 A riveting history of the Mount St. Helens eruption that will long stand as a classic of descriptive narrative (Simon Winchester). For months in early 1980, scientists, journalists, and nearby residents listened anxiously to rumblings from Mount St. Helens in southwestern Washington State. Still, no one was prepared when a cataclysmic eruption blew the top off of the mountain, laying waste to hundreds of square miles of land and killing fifty-seven people. Steve Olson interweaves vivid personal stories with the history, science, and economic forces that influenced the fates and futures of those around the volcano. *Eruption* delivers a spellbinding narrative of an event that changed the course of volcanic science, and an epic tale of our fraught relationship with the natural world.

The Big Truck That Went By Jonathan M. Katz, 2013-01-08 On January 12, 2010, the deadliest earthquake in the history of the Western Hemisphere struck the nation least prepared to handle it. Jonathan M. Katz, the only full-time American news correspondent in Haiti, was inside his house when it buckled along with hundreds of thousands of others. In this visceral, authoritative first-hand account, Katz chronicles the terror of that day, the devastation visited on ordinary Haitians, and how the world reacted to a nation in need. More than half of American adults gave money for Haiti, part of a monumental response totaling \$16.3 billion in pledges. But three years later the relief effort has foundered. Its most basic promises—to build safer housing for the homeless, alleviate severe poverty, and strengthen Haiti to face future disasters—remain unfulfilled. *The Big Truck That Went By* presents a sharp critique of international aid that defies today's conventional wisdom; that the way wealthy countries give aid makes poor countries seem irredeemably hopeless, while trapping millions in cycles of privation and catastrophe. Katz follows the money to uncover startling truths

about how good intentions go wrong, and what can be done to make aid smarter. With coverage of Bill Clinton, who came to help lead the reconstruction; movie-star aid worker Sean Penn; Wyclef Jean; Haiti's leaders and people alike, Katz weaves a complex, darkly funny, and unexpected portrait of one of the world's most fascinating countries. *The Big Truck That Went By* is not only a definitive account of Haiti's earthquake, but of the world we live in today.

Arms Wide Open Patricia Harman, 2012-03-20 The author of *The Blue Cotton Gown* recounts living free and naturally against all odds—and discovering her true calling as a midwife—in this deeply moving memoir. In her first, highly praised memoir, Patricia Harman told us the stories patients brought into her exam room, and her own story of struggling to help women as a nurse-midwife in medical practice with her husband—an OB/GYN—in Appalachia. Now, Patsy reaches back to the 1960s and 1970s, recounting how she learned to deliver babies and her youthful experiments with living a fully sustainable, natural life. Drawing heavily on her journals, *Arms Wide Open* goes back to a time of counter-culture idealism that the boomer generation remembers well. Patsy opens with stories of living in the wilds of Minnesota in a log cabin she and her lover build with their own hands, the only running water being the nearby streams. They set up beehives and give chase to a bear competing for the honey. Patsy gives birth and learns to help her friends deliver as naturally as possible. Weary of the cold and isolation, Patsy moves to a commune in West Virginia, where she becomes a self-taught midwife delivering babies in cabins and homes. Her stories sparkle with drama and intensity, but she wants to help more women than healthy hippie homesteaders. After a ten-year sojourn for professional training, Patsy and her husband return to Appalachia, where they set up a women's health practice. They deliver babies together—this time in hospitals—and care for a wide variety of gyn patients. They live in a lakeside contemporary home, though their hearts are

still firmly implanted in nature. The obstetrical climate is changing. The Harmans' family is changing. The earth is changing—but Patsy's arms remain wide open to life and all it offers. Her memoir of living free and sustainably against all odds will be especially embraced by anyone who lived through the Vietnam War and commune era, and all those involved in the back-to-nature and natural-childbirth movements.

Interior Design Student's Comprehensive Exam Lisa Godsey,2015-03-05 The Interior Design Student's Comprehensive Exam is designed to take the mystery out of the National Council for Interior Design Qualification (NCIDQ) exam. Practice tests introduce students to the NCIDQ exam's multiple-choice format and wording, and design scenarios allow practice in a variety of residential, commercial, and mixed-use spaces. Factory Man Beth Macy,2014-07-15 The instant New York Times bestseller about one man's

battle to save hundreds of jobs by demonstrating the greatness of American business. The Bassett Furniture Company was once the world's biggest wood furniture manufacturer. Run by the same powerful Virginia family for generations, it was also the center of life in Bassett, Virginia. But beginning in the 1980s, the first waves of Asian competition hit, and ultimately Bassett was forced to send its production overseas. One man fought back: John Bassett III, a shrewd and determined third-generation factory man, now chairman of Vaughan-Bassett Furniture Co, which employs more than 700 Virginians and has sales of more than \$90 million. In *Factory Man*, Beth Macy brings to life Bassett's deeply personal furniture and family story, along with a host of characters from an industry that was as cutthroat as it was colorful. As she shows how he uses legal maneuvers, factory efficiencies, and sheer grit and cunning to save hundreds of jobs, she also reveals the truth about modern industry in America.

Sweating Bullets Robert Gaskins, 2012-04-20 PowerPoint was the first presentation software designed for Macintosh and Windows, received the first venture capital investment ever made by Apple, then became the first significant acquisition ever made by Microsoft, who set up a new Graphics Business Unit in Silicon Valley to develop it further. Now, twenty-five years later, PowerPoint is installed on more than one billion computers, worldwide. In this book, Robert Gaskins (who invented the idea, managed its design and development, and then headed the new Microsoft group) tells the story of its first years, recounting the perils and disasters narrowly evaded as a startup, dissecting the complexities of being the first distant development group in Microsoft, and explaining decisions and insights that enabled PowerPoint to become a lasting success well beyond its original business uses.

Blockchain Chicken Farm Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing* From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, *Blockchain Chicken Farm* is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that

reorganize and redefine life today.

around the world who are not afraid to think (and live) outside the box. But at the age of twenty, Nastasia embarked on a solo trip to South Africa to volunteer at an orphanage in Cape Town, which sparked a love of world travel. Recognizing a void in the travel industry, she founded Dame Traveler, the first female travel community on Instagram, now more than half a million strong.
