One Season in Rocket City Dale Tafoya,2023-04 It's 1984. Minor League Baseball mogul Larry Schmittou needs a new home for his Southern League Nashville Sounds franchise. Walt Jocketty, an Oakland A's executive, searches for a new town for his Double-A club. Fate brings them together in Huntsville, Alabama, a city in need of an outlet to unite its residents. Thus the Huntsville Stars are born. *One Season in Rocket City* brings to life the baseball renaissance that shook up Huntsville, a city many doubted would support professional baseball. Named after Huntsville's celebrated space industry, the Stars electrified the town with baseball fever to become one of the biggest attractions in Minor League Baseball that first season. Composed of Oakland's top prospects, who later fueled the A's championship run in the late 1980s, the Stars were the hottest ticket in town. Visiting teams called Huntsville the "Minor League show," and the Stars were the toast of the Southern League. Wearing patriotic red, white, and blue team colors, the team won the Southern League championship in their first year, led by future Major Leaguers Darrel Akerfelds, Tim Belcher, Greg Cadaret, José Canseco, Brian Dorsett, Stan Javier, Eric Plunk, Luis Polonia, and Terry Steinbach. But besides the lineup of touted prospects on the club, it was the gutsy role players who never reached the Major Leagues that willed them to a championship. Through interviews with former players, managers, executives, coaches, and beat writers who witnessed the Stars take the Southern League by storm, Dale Tafoya depicts the city's romance with the club, success on the field, and push for a championship. Beginning with a glimpse into Huntsville's rich history, *One Season in Rocket City* takes readers on a journey through the team's dramatic founding, Huntsville politics, tape-measure home runs, and the club's resilience to win the championship despite losing top players to promotions in midseason. The Stars were just what Huntsville needed.

Think Like a Rocket Scientist Ozan Varol,2020-04-14 * One of Inc.com's 6 Books You Need to Read in 2020 (According to Bill Gates, Satya Nadella, and Adam Grant)* Adam Grant's # 1 pick of his

top 20 books of 2020* One of 6 Groundbreaking Books of Spring 2020 (according to Malcolm Gladwell, Susan Cain, Dan Pink, and Adam Grant). A former rocket scientist reveals the habits, ideas, and strategies that will empower you to turn the seemingly impossible into the possible. Rocket science is often celebrated as the ultimate triumph of technology. But it's not. Rather, it's the apex of a certain thought process -- a way to imagine the unimaginable and solve the unsolvable. It's the same thought process that enabled Neil Armstrong to take his giant leap for mankind, that allows spacecraft to travel millions of miles through outer space and land on a precise spot, and that brings us closer to colonizing other planets. Fortunately, you don't have to be a rocket scientist to think like one. In this accessible and practical book, Ozan Varol reveals nine simple strategies from rocket science that you can use to make your own giant leaps in work and life -- whether it's landing your dream job, accelerating your business, learning a new skill, or creating the next breakthrough product. Today, thinking like a rocket scientist is a necessity. We all encounter complex and unfamiliar problems in our lives. Those who can tackle these problems -- without clear guidelines and with the clock ticking -- enjoy an extraordinary advantage. *Think Like a Rocket Scientist* will inspire you to take your own moonshot and enable you to achieve liftoff.

Joe Pidge, not just a pigeon but also the stylish king of the neighborhood, is bobbing his way down the street one day when, all of a sudden, Pluto Rocket enters the scene. It turns out, Pluto is from another planet, and is disguising herself for her secret mission -- to find out what life in the neighborhood is really like. Lucky for Pluto, Joe Pidge has seen it all before, eaten it all before, and pooped on it all before, so he takes her under his wing and the two become fast friends. But Joe is the one who actually learns a thing or two and whose mind is blown by the out-of-this-world Pluto in this hilarious graphic novel series from Paul Gilligan, creator of the syndicated comic strip Pooch Cafe!
