Big6, Large and in Charge Annette C.H. Nelson,Danielle N. DuPuis,2013-03-21 This book helps teachers and teacher librarians effectively collaborate to teach students the concept of the Big6 and complete research projects in meaningful and memorable ways. Utilizing the popular and familiar illustrated graphic novel format that appeals to young learners, Big6, Large and in Charge: Project-Based Information Literacy Lessons for Grades 3–6 is a book of collaborative unit plans for teacher librarians and teachers that includes all the reproducible materials needed to implement the units. The units are based around the Common Core State Standards, AASL Standards for the 21st Century Learner, and other national content standards. Developed by two library media specialists with extensive experience in creating educational and entertaining lesson plans for teachers, the book takes the concept of Big6 a step further by transforming the process into an engaging character who drops in to help students solve the problems. The exercises presented are based on interesting, realistic situations and are specifically designed to encourage critical thinking.

Beyond the Saga of Rocket Science Walter Sierra,2019-10-03 In Space to Stay, the third book in the spell-binding The Saga of Rocket Science series, gives a thorough exposé of the U.S. Apollo and Space Shuttle programs. You will be there as Gus Grissom, Ed White, and Roger Chaffee perish and get incinerated inside their locked Apollo 1 capsule; when Jim Lovell, Jack Swigert, and Fred Haise didn't know if they would make it back alive aboard a freezing lunar module on Apollo 13; as Neil and Buzz experienced the euphoria of being the first humans to land on the Moon, while Mike Collins in lunar orbit and an anxious world looked on. You'll see the same panoramic vistas of the lunar landscape and the beautiful blue marble we call Earth as the astronauts saw. You are taken inside the Challenger Space Shuttle as it caught fire and disintegrated in flight. What seven brave astronauts felt like as they plunged to their deaths in a basically intact crew cockpit. You'll understand exactly what failed and how it failed on both the Challenger and the ill-fated Columbia space shuttles, and why another seven astronauts aboard the Columbia felt no pain despite their grisly annihilation during reentry.

Dancing in Damascus miriam cooke,2016-10-04 On March 17, 2011, many Syrians rose up against the authoritarian Asad regime that had ruled them with an iron fist for forty years. Initial successes were quickly quashed, and the revolution seemed to devolve into a civil war pitting the government against its citizens and extremist mercenaries. As of late 2015, almost 300,000 Syrians have been killed and over half of a total population of 23 million forced out of their homes. Nine million are internally displaced and over four million are wandering the world, many on foot or in leaky boats. Countless numbers have been disappeared. These shocking statistics and the unstoppable violence notwithstanding, the revolution goes on. The story of the attempted crushing of the revolution is known. Less well covered has been the role of artists and intellectuals in representing to the world and to their people the resilience of revolutionary resistance and defiance. How is it possible that artists, filmmakers and writers have not been cowed into numbed silence but are becoming more and more creative? How can we make sense of their insistence that despite the apocalypse engulfing the country their revolution is ongoing and that their works participate in its persistence? With smartphones, pens, voices and brushes, these artists registered their determination to keep the idea of the revolution alive. Dancing in Damascus traces the first four years of the Syrian revolution and the activists' creative responses to physical and emotional violence.

Independent Thinking on Transition Dave Harris,2020-03-09 Written by Dave Harris, Independent Thinking on Transition: Fostering better collaboration between primary and secondary schools is an inspirational compendium of practical strategies to empower primary and secondary school leaders to work together to get transition right. Foreword by Ian Gilbert. When it comes to looking at the quality of our current schooling system, the biggest elephant in the room is transition. We do it the way we've always done it and, in so many ways and despite our best intentions, we often end up doing it badly. But, as ever, there is another way. Which is where Independent Thinking Associate Dave Harris comes in. With an impressive track record in leadership that includes establishing one of England's all-too-rare all-through 318 state schools, Dave knows first-hand how much can be achieved when all phases work together and keep the children, not the system, at the heart of all they do. In this book he tackles school transition head-on, sharing a wealth of practical approaches and vividly illustrating how primary and secondary schools can better collaborate to ensure their pupils enjoy a smooth and effective move between the two phases. Dave's passion for joined-up thinking between different phases shines through in his writing, as does his ingenuity when it comes to the design and delivery of programmes that work. He provides a clear explanation of the differences between transition and induction programmes, and also shares a comprehensive set of appendices in which he presents a range of materials to support the ideas put forward in the book. Suitable for all school leaders from heads of department and heads of year to head teachers and transition leads in primary and secondary schools. Independent Thinking on Transition is one of a number of books in the Independent Thinking On series from the award-winning Independent Thinking Press.

Rocket and Groot Tom Angleberger,2017-04 Rocket (that's me) and Groot (that's him) have been shipwrecked on a mysterious planet filled with dry cleaners, nail salons, ninety-nine cent stores, ninety-eight cent stores, chain restaurants, killer robots bent on customer service, and way too many raccoon-eating toilets! We are badly injured from a piranha fight and have no ship, no guns, no money, no food, and no water . . . I AM GROOT! Right, pal, all we have is each other . . .

Stephen Biesty's Incredible Cross-Sections Stephen Biesty,2019-05-14 This children's book explores the innermost workings of some extraordinary buildings and machines. From helicopters to submarines, skyscrapers to coal mines, open up a fascinating world packed with unique and detailed cutaway drawings. Whether it's a Spanish galleon or a medieval castle, each cross-section slice or exploded view reveals what's going on inside. See the people swarming inside the Empire State Building, the workers busy backstage at the opera house, and where the crew sleeps on a jumbo jet. Included also are two impressive foldouts showing an ocean liner and a steam train. There are lots of fun facts to be discovered, and curious details are highlighted and explained. Did you know one of the funnels of the Queen Mary liner was fake and used for storing deckchairs? And in almost every scene, there's the challenge to find a man on the toilet! With more than a million copies sold, Stephen Biesty's award-winning illustrated book is as fascinating today as it was when first published in 1992. Incredible Cross-Sections is the ultimate way to see how things work.
