Big6, Large and in Charge Annette C.H. Nelson,Danielle N. DuPuis,2013-03-21 This book helps teachers and teacher librarians effectively collaborate to teach students the concept of the Big6 and complete research projects in meaningful and memorable ways. Utilizing the popular and familiar illustrated graphic novel format that appeals to young learners, Big6, Large and in Charge: Project-Based Information Literacy Lessons for Grades 3–6 is a book of collaborative unit plans for teacher librarians and teachers that includes all the reproducible materials needed to implement the units. The units are based around the Common Core State Standards, AASL Standards for the 21st Century Learner, and other national content standards. Developed by two library media specialists with extensive experience in creating educational and entertaining lesson plans for teachers, the book takes the concept of Big6 a step further by transforming the process into an engaging character who drops in to help students solve the problems. The exercises presented are based on interesting, realistic situations and are specifically designed to encourage critical thinking.

Beyond the Saga of Rocket Science Walter Sierra,2019-10-03 In Space to Stay, the third book in the spell-binding The Saga of Rocket Science series, gives a thorough exposé of the U.S. Apollo and Space Shuttle programs. You will be there as Gus Grissom, Ed White, and Roger Chaffee perish and get incinerated inside their locked Apollo 1 capsule; when Jim Lovell, Jack Swigert, and Fred Haise didn't know if they would make it back alive aboard a freezing lunar module on Apollo 13; as Neil and Buzz experienced the euphoria of being the first humans to land on the Moon, while Mike Collins in lunar orbit and an anxious world looked on. You'll see the same panoramic vistas of the lunar landscape and the beautiful blue marble we call Earth as the astronauts saw. You are taken inside the Challenger Space Shuttle as it caught fire and disintegrated in flight. What seven brave astronauts felt like as they plunged to their deaths in a basically intact crew cockpit. You'll understand exactly what failed and how it failed on both the Challenger and the ill-fated Columbia space shuttles, and why another seven astronauts aboard the Columbia felt no pain despite their grisly annihilation during reentry.

But pretty soon, a mysterious figure begins following Eric and Jesse, and they discover they can't leave the game. If they don't figure out what's going on fast, they'll be trapped for good!

Cats vs Dogs and Dogs vs Cats Ian Black,Leslie Black,2004-10-04 It is an eternal war. FOR THE CATS Cats are cool. There even used to be a TV programme called Cool for Cats, run by some human pretending to be cool. He wasn't because only cats are cool. FOR THE DOGS Dogs aren't cool. Dogs are warm. Dogs are dogged. When a dog loves you, he loves you through to the marrow of your bones and for ever. If they don't have dogs in heaven, then I want to go where they do. The one absolutely unselfish friend that man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous, is his dog. A man's dog stands by him in prosperity and poverty, in health and sickness. He will lick the hand that has no food to offer. He will guard the sleep of his pauper master as if he were a prince. Consider: 'Cats are intelligent but only show it when they want to.' 'Dogs are stupid and don't care if they show it or not.' 'Cats give food to whoever they are loyal to.' 'Dogs are loyal to whoever gives them food. Even people who hit them.' Doh! AND PICK A SIDE!
