The Kremlin's Candidate Jason Matthews,2022-02-22 Russian counterintelligence chief Colonel Dominika Egorova has been an asset of the CIA for over seven years. She has also been in a forbidden and tumultuous love affair with her handler Nate Nash, mortally dangerous for them both, but irresistible. In Washington, a newly installed administration is selecting its cabinet members. Dominika hears whispers of a Russian operation to place a mole in a high intelligence position. If the candidate is confirmed, the Kremlin will have access to the identities of CIA assets in Moscow, including Dominika. Dominika recklessly immerses herself in the palace intrigues of the Kremlin, searching for the mole's identity and stealing secrets before her time runs out.

Spy ,1992-11 Smart. Funny. Fearless.It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

The Sloop of War Ian McLaughlan,2014-02-28 This is the first study in depth of the Royal Navy's vital, but largely ignored small craft. In the age of sail they were built in huge numbers and in far greater variety than the more regulated major warships, so they present a particular challenge to any historian attempting a coherent design history. However, for the first time this book charts the development of the ancillary types, variously described in the 17th century as sloops, ketches, brigantines, advice boats and even yachts, as they coalesce into the single 18th-century category of Sloop of War. In this era they were generally two-masted, although they set a bewildering variety of sail plans from them. The author traces their origins to open boats, like those carried by Basque whalers, shows how developments in Europe influenced English craft, and homes in on the relationship between rigs, hull-form and the duties they were designed to undertake. ??Visual documentation is scanty, but this book draws together a unique collection of rare and unseen images, coupled with the author's own reconstructions in line drawings and watercolour sketches to provide the most convincing depictions of the appearance of these vessels. By tackling some of the most obscure questions about the early history of small-boat rigs, the book adds a dimension that will be of interest to historians of coastal sail and practical yachtsman, as well as warship enthusiasts.

Spy School at Sea Stuart Gibbs,2022-09-06 In the ninth addition to the New York Times bestselling Spy School series, Ben Ripley faces his nemesis, Murray Hill, on the high seas. Thanks to the evidence Ben uncovered in his investigation of the Croatoan, the CIA has tracked his nemesis, Murray Hill, to Central America, where they believe he is boarding the world's biggest cruise ship, The Emperor of the Seas, on its maiden voyage around the world. His mission: Pose as part of a family, with Alexander and Catherine Hale as his parents, Erica as his sister, and his best friend Mike as his brother, to find out what Murray is plotting. At first, it sounds exciting to have a mission on the most glamorous ocean liner on earth, but as usual, nothing goes according to plan. There is action, danger, and plenty of surprises as Ben and his team quickly find themselves in hot water.

History of the Persian Empire A. T. Olmstead,2022-08-29 Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. The fullest and most reliable presentation of the history of the Persian Empire in existence.—M. Rostovtzeff

The Unending Game Vikram Sood,2018-08-16 In God we trust, the rest we monitor . . . A former chief of India's external intelligence agency, the Research and Analysis Wing, deconstructs the shadowy world of spies, from the Cold War era to the age of global jihad, from surveillance states to psy-war and cyberwarfare, from gathering information to turning it into credible intelligence. Vikram Sood provides a panoramic view of the rarely understood profession of spying to serve a country's strategic and security interests. As a country's stature and reach grow, so do its intelligence needs. This is especially true for one like India that has ambitions of being a global player even as it remains

embattled in its own neighbourhood. The Unending Game tackles these questions while providing a national and international perspective on gathering external intelligence, its relevance in securing and advancing national interests, and why intelligence is the first playground in the game of nations.

The FunJungle Collection (Boxed Set) Stuart Gibbs, 2015-11-03 Join FunJungle's resident zoo sleuth, Teddy Fitzroy, as he solves mysteries and strives to protect the animals at the zoo with the first three funny and suspenseful novels of the bestselling FunJungle series from New York Times bestselling author Stuart Gibbs, now available together in one collectible boxed set! It all starts when the hippo goes belly up—and it's a wild ride from there. When Teddy Fitzroy moved into FunJungle, the nation's largest zoo, with his scientist parents, he expected things to be kind of quiet. There'd be the occasional elephant stampede and water balloon fight with the chimpanzees, of course, but when Henry the Hippo dies from not-so-natural causes, Teddy suspects foul play. And that was just the beginning. He begins to realize that the zoo is far more exciting than he thought it was, and soon the mysteries at FunJungle are piling up... This collectible boxed set includes hardcover editions of *Belly Up*, *Poached*, and *Big Game*.

Belly Up Stuart Gibbs, 2011-07-05 12 year old Theodore Teddy Roosevelt Fitzroy has got a murder on his hands and trouble on his tail. Henry, the hippopotamus at the brand-new nationally known FunJungle, has gone belly up. Even though it's claimed he died of natural causes, Teddy smells something fishy and it sure ain't the polar bear's lunch. Dealing with the zoo's top brass proves to be nothing but a waste of time. They want to see any trace of Henry's death disappear like yesterday's paper. So Teddy sets out to find the truth. With the help of Summer McCracken, a fiery girl with secrets of her own, the two narrow down their prime suspects. Is it Martin Del Gato, FunJungle's head of operations who hates kids and hates animals even more? Or J.J. McCracken, the owner of FunJungle and hates animals even more? Or J.J. McCracken, the owner of FunJungle and Summer's father, who has more concern for the dough he's raking in than the animals in the zoo? As their investigation goes on, Teddy gets squeezed on all sides to quit asking questions or Henry won't be the only animal in the zoo to turn up dead. The deeper Teddy and Summer get, they had better make sure they want to know what they want to know because when it comes to hippo homicide, the truth can't be kept in a cage!

Red Sparrow Jason Matthews, 2013-06-04 THE MAJOR MOTION PICTURE starring Jennifer Lawrence, Joel Edgerton and Jeremy Irons. Dominika Egorov, former prima ballerina, is sucked into the heart of Putin's Russia, the country she loved, as the twists and turns of a betrayal and counter-betrayal unravel. American Nate Nash, idealistic and ambitious, handles the double agent, codenamed MARBLE, considered one of CIA's biggest assets. He needs to keep his identity secret for as long as the mole can keep supplying golden information. Will Dominika be able to unmask MARBLE, or will the mission see her faith destroyed in the country she has always passionately defended? 'A great and dangerous spy-game is being played today between Russian intelligence and the CIA. Very few people know about it, including many of our politicians in Washington. But Jason Matthews does, and his

thrilling Red Sparrow takes us deep inside this treacherous world. He's an insider's insider. He knows the secrets. And he is also a masterful story-teller. I loved this book and could not put it down. Neither will you' Vince Flynn 'Not since the good old days of the Cold War has a classic spy thriller like Red Sparrow come along. Jason Matthews is not making it up; he has lived this life and this story, and it shows on every page. High-level espionage, pulse-pounding danger, sex, double agents and double crosses. What more can any reader want?' Nelson DeMille

Rockets and People Volume I (NASA History Series. NASA Sp-2005-4110) Boris Chertok,2005-01-01 Much has been written in the West on the history of the Soviet space program, but few Westerners have read direct first-hand accounts of the men and women who were behind the many Russian accomplishments in exploring space. The memoir of academician Boris Chertok, translated from the original Russian, fills that gap. Chertok began his career as an electrician in 1930 at an aviation factory near Moscow. Thirty years later, he was deputy to the founding figure of the Soviet space program, the mysterious Chief Designer Sergey Korolev. Chertok's 60-year-long career and the many successes and failures of the Soviet space program constitute the core of his memoirs, *Rockets and People*. In these writings, spread over four volumes (volumes two through four are forthcoming), academician Chertok not only describes and remembers, but also elicits and extracts profound insights from an epic story about a society's quest to explore the cosmos. This book was edited by Asif Siddiqi, a historian of Russian space exploration, and General Tom Stafford contributed a foreword touching upon his significant work with the Russians on the Apollo-Soyuz Test Project. Overall, this book is an engaging read while also contributing much new material to the literature about the Soviet space program.

Poached Stuart Gibbs,2014-04-08 Teddy Fitzroy's back for another zoo mystery—this time it's a koala caper—in this action-packed follow-up to *Belly Up* that School Library Journal called a “whopper of a whodunit that delivers plenty of suspects, action, slapstick, gross bodily functions, red herrings, and animal trivia.” School troublemaker Vance Jessup thinks Teddy Fitzroy's home at FunJungle, a state-of-the-art zoo and theme park, is the perfect place for a cruel prank. Vance bullies Teddy into his scheme, but the plan goes terribly awry. Teddy sneaks into the koala exhibit to hide out until the chaos dies down. But when the koala goes missing, Teddy is the only person caught on camera entering and exiting the exhibit. Teddy didn't commit the crime—but if he can't find the real culprit, he'll be sent to juvie as a convicted koala-napper.

The Renaissance of Islam Adam Mez,2024-01-11 The tenth century was a formative period for Islamic culture and Adam Mez's *Renaissance of Islam* offers a detailed survey of the Muslim world during that period. No other single work covers the subject as comprehensively. Mez drew upon a vast range of sources to produce a detailed account of all aspects of Islamic culture and society - finance, religion, geography, industry and trade, law, morals, navigation, etc. The result is a lucid and engaging work that even today remains a key resource for researchers and students alike. The original edition is now very rare. This new edition, introduced by Julia Bray, one of the leading scholars of the period, makes the work available once again and includes a bibliography and index specially prepared for this edition.
