**The Final Rollercoaster** Desmond Ford,2010-12-03 We are all interested in the future, because that's where we are hoping to live. In the Bible, the special book about the future is the last one—the book of Revelation. It is often thought to be a mysterious book, but in fact it's a mosaic of over 500 Old Testament references. These references are the keys with which we may unlock the Apocalypse. Prominent in its forecasts are allusions to Jezebel and Elijah. Most have heard of the world's last conflict called Armageddon. But few realize that Armageddon cannot be understood without studying its Old Testament source—the histories of Ahab, Jezebel, Elijah at Mount Carmel, and the destruction of idolaters in the Kishon Valley (at Megiddo, which is the Hebrew root name for the Greek word Armageddon). Desmond Ford has two doctorates, and two of his postgraduate degrees are in eschatology. He has written 10 books on Daniel and Revelation and lectured in many countries on these themes. Here, Ford focuses in on future events typified by the Old Testament stories of Elijah versus Jezebel. Central to this study are investigation into Antichrist and his attacks on the latter day church. Revelation's messages for an imperiled world are central in this book.

*Is Present Reality* Vipin Gupta,2021-02-19 Is Present Realty: The Super-science of the transcendental value investigates our reality as an entity who has the power to shape the present and be the light that affirms our presence in the eternal future. The transcendental value of the past is immanent within the present. The present becomes the subject of scientific investigation. The entity who conceived the scientifically investigable present is the super-scientific factor, whose reality transcends beyond the limits of

science. An observer behaves as a mirror image of the present and uses the light of self-consciousness for illuminating the reality of the universe. Without the observer's light, the present of the universe is the dark matter. Once the observer services the sentient light force, the future of the observer is the black hole. As a manager of our reality, we have an option not to transform our sentient energy into a light force, behaving as if we are the white star source of light, for illuminating the reality of the universe. Instead, we may invest our energy for conceiving a different reality at any moment that thereafter constitutes the past. Such unique reality is scientifically observable in the present as the illuminated matter. The illuminated matter is a proportion of the present, which is the dark matter. Thus, if an observer observes the illuminated matter as the rope, it might as well be a body of atoms that eventually transforms into a body of cells. That body of cells may be the reality of a snake. What we observe and experience in the present is not necessarily the reality. This work reveals the blockages that limit our vision's dimensionality and the solutions to be the reality that shapes the eternal present. Dr. Vipin Gupta has a Ph.D. in managerial science and applied economics from the Wharton School of the University of Pennsylvania. He is a gold medalist from the Post-graduate Program of the Indian Institute of Management, Ahmedabad, India. He is a Professor of sensible management and appropriate science at the Jack H. Brown College of Business and Public Administration, California State University San Bernardino, USA.

It's 1931 in Shanghai, and the stage is set for a new decade of intrigue. Four years ago, Rosalind Lang was brought back from the brink of death, but the strange experiment that saved her also stopped her from sleeping and aging—and allows her to heal from any wound. In short,

Rosalind cannot die. Now, desperate for redemption for her traitorous past, she uses her abilities as an assassin for her country. Code name: Fortune. But when the Japanese Imperial Army begins its invasion march, Rosalind's mission pivots. A series of murders is causing unrest in Shanghai, and the Japanese are under suspicion. Rosalind's new orders are to infiltrate foreign society and identify the culprits behind the terror plot before more of her people are killed. To reduce suspicion, however, she must pose as the wife of another Nationalist spy, Orion Hong, and though Rosalind finds Orion's cavalier attitude and playboy demeanor infuriating, she is willing to work with him for the greater good. But Orion has an agenda of his own, and Rosalind has secrets that she wants to keep buried. As they both attempt to unravel the conspiracy, the two spies soon find that there are deeper and more horrifying layers to this mystery than they ever imagined.
