Down to the Hour: Short Time in the Ancient Mediterranean and Near East ,2019-12-02

Clock time, with all its benefits and anxieties, is often viewed as a modern phenomenon, but ancient Mediterranean and Near Eastern cultures also had tools for marking and measuring time within the day and wrestled with challenges of daily time management. This book brings together for the first time perspectives on the interplay between short-term timekeeping technologies and their social contexts in ancient Egypt, Babylon, Greece, and Rome. Its contributions denaturalize modern-day concepts of clocks, hours, and temporal frameworks; describe some of the timekeeping solutions used

in antiquity; and illuminate the diverse factors that affected how individuals and communities structured their time.

The History of Julius Caesar Napoleon III Emperor of the French,2022-01-04 The History of Julius Caesar was written by Napoleon III, the nephew of Napoleon Buonaparte at the time of his reign. The book starts from the description of the Roman history before Caesar, the establishment of the republic, and Punic wars and gradually flows into the main points of Caesar's life up to his death. Besides historical context, a book was a political pamphlet to support the author's political line. In the book, Napoleon III compares himself and his uncle with Julius Caesar, proving that the political and strategic talent of the great emperor of Rome found continuation in the style of the ruling of the Buonaparte family.
