Strimko Book 1 Tanya Grabarchuk,Peter Grabarchuk,Helen Grabarchuk,Serhiy Grabarchuk,2017-10-27 Strimko is a logic number puzzle invented by The Grabarchuk Family in 2008. It is based on the idea of Latin squares described by a Swiss mathematician and physicist Leonhard Euler (1707-1783) in the 18th century. All Strimko puzzles are solvable with a pure logic, no special knowledge is required. Strimko uses only three basic elements: rows, columns, and streams. All elements have equal numbers of cells, and the goal is to make each row, column, and stream containing the whole set of specified numbers. Cells in the grid are organized into several streams of equal length, which often run diagonally and even branching. Such mechanics creates entangled patterns resulting in interesting challenges and unusual logic. This book contains a specially designed collection of 150 easy-to-master puzzles with 4 x 4 through 7 x 7 grid sizes. Puzzles are arranged from the easiest to the hardest ones so that you'll progress in solving skills with each next puzzle. Strimko challenges were handcrafted by Helen, Tanya, Serhiy, and Peter Grabarchuk, and up to date hundreds of original Strimko puzzles were published in various forms and platforms. Literature Review and Research Design Dave Harris,2019-11-26 Designing a research project is possibly the most difficult task a dissertation writer faces. It is fraught with uncertainty: what is the best subject? What is the best method? For every answer found, there are often multiple subsequent questions, so it's easy to get lost in theoretical debates and buried under a mountain of literature. This book looks at literature review in the process of research design, and how to develop a research practice that will build skills in reading and writing about research literature—skills that remain valuable in both academic and professional careers. Literature review is approached as a process of engaging with the discourse of scholarly communities that will help graduate researchers refine, define, and express their own scholarly vision and voice. This orientation on research as an exploratory practice, rather than merely a series of predetermined steps in a systematic method, allows the researcher to deal with the uncertainties and changes that come with learning new ideas and new perspectives. The focus on the practical elements of research design makes this book an invaluable resource for graduate students writing dissertations. Practicing research allows room for experiment, error, and learning, ultimately helping graduate researchers use the literature effectively to build a solid scholarly foundation for their dissertation research project.

Evenings with Led Zeppelin Dave & Tremaglio Lewis,Mike Tremaglio,2018-10 Evenings With Led Zeppelin chronicles the 500-plus appearances Led Zeppelin made throughout their career. From their earliest gig in a Denmark school gymnasium on September 7, 1968, through to the last gig that Jimmy Page, Robert Plant and John Paul Jones ever performed with John Bonham, in Berlin on July 7, 1980, this is the Led Zeppelin story told from where their legend was forged live on stage. Deploying impeccable research spread over many years, Dave Lewis and Mike Tremaglio brings clarity, authority and perspective to a show-by-show narrative of every known Led Zeppelin performance. With pinpoint accuracy they trace the group's rapid ascent from playing to a few hundred at London's Marquee Club to selling out the 20,000 capacity Madison Square Garden in New York--all in a mere 18 months. Supplemented by historical reviews, facts and figures and expert commentary that capture the spirit of the times, Evenings with Led Zeppelin is illustrated throughout with rarely seen concert adverts, posters, venue images, ticket stubs and photos, all of which offer matchless insight into their concert appearances.--Back cover

I Am Error Nathan Altice, 2015-05-01 The complex material histories of the Nintendo Entertainment System platform, from code to silicon, focusing on its technical constraints and its expressive affordances. In the 1987 Nintendo Entertainment System videogame *Zelda II: The Adventure of Link*, a character famously declared: I AM ERROR. Puzzled players assumed that this cryptic message was a programming flaw, but it was actually a clumsy Japanese-English translation of "My Name is Error," a benign programmer's joke. In *I AM ERROR* Nathan Altice explores the complex material histories of the Nintendo Entertainment System (and its Japanese predecessor, the Family Computer), offering a detailed analysis of its programming and engineering, its expressive affordances, and its cultural significance. Nintendo games were rife with mistranslated texts, but, as Altice explains, Nintendo's translation challenges were not just linguistic but also material, with consequences beyond simple misinterpretation. Emphasizing the technical and material evolution of Nintendo's first cartridge-based platform, Altice describes the development of the Family Computer (or Famicom) and its computational architecture; the "translation" problems faced while adapting the Famicom for the U.S. videogame market as the redesigned Entertainment System; Nintendo's breakthrough console title *Super Mario Bros.* and its remarkable software innovations; the introduction of Nintendo's short-lived proprietary disk format and the design repercussions on *The Legend of Zelda*; Nintendo's efforts to extend their console's lifespan through cartridge augmentations; the Famicom's Audio Processing Unit (APU) and its importance for the chiptunes genre; and the emergence of software emulators and the new kinds of play they enabled.

The Legendary Toad's Place Brian Phelps, Randall Beach, 2021-10-08 Anyone who has lived near New Haven, Connecticut, in the past 40-plus years has surely heard of Toad's Place. With a capacity of 750, Toad's has served as the perfect spot for musicians who prefer smaller venues. U2 played one of their first US concerts there, on their Boy tour. In 1978, Bruce Springsteen was in New Haven and arrived at Toad's unannounced, and got up and played. The surprises kept coming and the club was attracting big names, as well as up-and-comers. In 1989, the Rolling Stones played a surprise show on a Saturday night, giving 700 fans the night of their dreams. Nothing could have been better—the Rolling Stones in downtown New Haven was unimaginable! That is only a taste of the stories that are uncovered in this book. Randall Beach and Toad's owner Brian Phelps recall the legendary shows and behind-the-scenes stories.

Post Memes Daniel Bristow, Alfie Bown, 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. POST MEMES: SEIZING THE MEMES OF PRODUCTION takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. ABOUT THE EDITORS ALFIE BOWN is the author of several books including *The Playstation Dreamworld* (Polity, 2017) and *In the Event of Laughter: Psychoanalysis, Literature and Comedy* (Bloomsbury, 2018).
