*Symbiotic Multi-Robot Organisms* Paul Levi, Serge Kernbach, 2010-05-18 This book examines the evolution of self-organised multicellular structures, and the remarkable transition from unicellular to multicellular life. It shows the way forward in developing new robotic entities that are versatile, cooperative and self-configuring.

*Black Transparency* Metahaven, 2015 A Google executive once said: If you want to liberate a society just give them the Internet. But how does one liberate a society that already has the Internet? Publicly, modern government adheres to the twin ideals of institutional transparency and personal privacy. In reality, while citizens are subjected to mass surveillance, government practice goes unchecked. A new generation has taken to the Internet to defend the right to governance without secrets. From Bradley Manning and WikiLeaks to LulzSec and Anonymous, from the Icelandic Modern Media Initiative to the revelations of Edward Snowden, a coalition is breaking through the secrecy that lies at the core of the modern state. The story gets more complex when open government is contrasted with black transparency, and when a geopolitical rift between the West and Russia becomes the dividing line for whistleblowers and transparency activists seeking refuge. What is transparency for one may be propaganda for the other.

Only Truth Julie Cameron, 2020-10-13 In this “tense . . . intriguing game of cat and mouse,” a woman moves to the country to flee a violent past only to encounter familiar danger in her new home. (Publishers Weekly) A successful artist with a doting husband, Isabel Dryland knows she should be grateful for her happy life. After a violent assault she cannot remember left her shattered and scarred, the lingering effects of her injuries keep her questioning her sanity at times. Tom, her husband, thinks a move will be the fresh start they need, and has even found the perfect house: a country estate that reminds him of one he admired in his youth. But all Isabel feels inside the house is an overwhelming sense of dread. Then she learns that beneath the pretty façade of their new home lurk dark secrets powerful enough to bring her own trauma back to the fore. Struggling to determine whether her fear is caused by memory alone, or by present danger, Isabel knows the only way to free herself from her fears is to find closure for the violence in her past. But how do you heal from a past you cannot recall, when only the truth about your past can set you free? “A deep plunge into a haunted psyche slowly stretched to the breaking point. More, please.” — Kirkus Reviews “A strong page-turner with a compelling main character. [For] readers who enjoyed Riley Sager’s *Home* before *Dark* and Lisa

**Pakistan's Counterterrorism Challenge** Moeed Yusuf, 2014-02-18 Pakistan, which since 9/11 has come to be seen as one of the world's most dangerous places and has been referred to as "the epicenter of international terrorism," faces an acute counterterrorism (CT) challenge. The book focuses on violence being perpetrated against the Pakistani state by Islamist groups and how Pakistan can address these challenges, concentrating not only on military aspects but on the often-ignored political, legal, law enforcement, financial, and technological facets of the challenge. Edited by Moeed Yusuf of the US Institute of Peace, and featuring the contributions and insights of Pakistani policy practitioners and scholars as well as international specialists with deep expertise in the region, the volume explores the current debate surrounding Pakistan's ability—and incentives—to crack down

on Islamist terrorism and provides an in-depth examination of the multiple facets of this existential threat confronting the Pakistani state and people. The book pays special attention to the non-traditional functions of force that are central to Pakistan's ability to subdue militancy but which have not received the deserved attention from the Pakistani state nor from western experts. In particular, this path-breaking volume, the first to explore these various facets holistically, focuses on the weakness of political institutions, the role of policing, criminal justice systems, choking financing for militancy, and regulating the use of media and technology by militants. Military force alone, also examined in this volume, will not solve Pakistan's Islamist challenge. With original insights and attention to detail, the authors provide a roadmap for Western and Pakistani policymakers alike to address the weaknesses in Pakistan's CT strategy.
