The World's 1st Totally Unbeatable, Unbreakable Baccarat & Roulette System Anonymous
Author,2020-07-20 This is the worlds first totally unbeatable unbreakable Baccarat and roulette system. This is an expert level system that you can ask her and only about five minutes. It winds within three every single time with a rare exception. I have not ever seen it lose more than four in a row. It is also the easiest system. I've cracked the code. I came up with a secret trick that everyone has overlooked in 600 years. It wins two out of three and one out of three in one out of two and three out of three every single time. It also has long runs of 10+ very regularly. It is the only system that works consistently long-term. Every system has its kryptonite except this one. How much would a system be worth to you if it one within three every single time with a rare exception? I also discovered an event that comes up very regularly that improves the game about 900% it allows you to win about 3 to 5 units per everyone that you're already winning. This is the

best system in the world. Yes, you could flatbed on it but all it takes is just a three-step limited martingale with a bankroll that will handle a potential five step limited martingale... That's all, because it wins within three every single time with a rare exception. Don't waste your time or money with other systems the days of losing and leaving the casino down, all depressed or over. This changes the whole game of Baccarat and Roulette. It's actually almost one full hand stronger on Roulette. Many systems are very expensive and take years to master and they don't produce very much or work very well. The system has been tested on over 50,000 hands/spins and has been totally consistent and works long-term for over a year now and hasn't changed or wavered at all. It has not lost one single time it's also the easiest system in the world and the strongest system in the world. It's so strong that you can even martingale if you wanted to. A beginner or novice completed expert level and only about five minutes. It's a scientific, mathematical yet easy basic mechanical system. You only need a small bank roll of maybe \$100-\$200 to start. It's possible to become a millionaire or be well on your way with the system! This is a system that shouldn't be for sale. This is a \$10,000 system.

Pawlicki shows you visible wheel tracking techniques that can give you the edge by visually predicting where the ball is going to land. In addition, this book will show you how to sector slice to increase the speed and accuracy of your predictions.
