Timothy Swaim

Cairo Cosmopolitan Diane Singerman, Paul Amar, 2009-08-01

Bringing together a distinguished interdisciplinary group of scholars, this volume explores what happens when new forms of privatization meet collectivist pasts, public space is sold off to satisfy investor needs and tourist gazes, and the state plans for Egypt's future in desert cities while stigmatizing and neglecting Cairo's popular neighborhoods. These dynamics produce surprising contradictions and juxtapositions that are coming to define today's Middle East. The original publication of this volume launched the Cairo School of Urban Studies, committed to fusing political-economy and ethnographic methods and sensitive to ambivalence and contingency, to reveal the new contours and patterns of modern power emerging in the urban frame. Contributors: Mona Abaza, Nezar AlSayyad, Paul Amar, Walter Armbrust, Vincent Battesti, Fanny Colonna, Eric Denis, Dalila ElKerdany, Yasser Elsheshtawy, Farha Ghannam, Galila El Kadi, Anouk de Koning, Petra Kuppinger, Anna Madoeuf, Catherine Miller, Nicolas Puig, Said Sadek, Omnia El Shakry, Diane Singerman, Elizabeth A. Smith, Leïla Vignal, Caroline Williams.

*Icons of American Cooking* Elizabeth S. Demers Ph.D., Victor W. Geraci, 2011-03-08 Discover how these contemporary food icons

changed the way Americans eat through the fascinating biographical profiles in this book. Before 1946 and the advent of the first television cooking show, James Beard's *I Love to Eat*, not many Americans were familiar with the finer aspects of French cuisine. Today, food in the United States has experienced multiple revolutions, having received—and embraced—influences from not only Europe, but cultures ranging from the Far East to Latin America. This expansion of America's appreciation for food is largely the result of a number of well-known food enthusiasts who forever changed how we eat. Icons of American Cooking examines the giants of American food, cooking, and cuisine through 24 biographical profiles of contemporary figures, covering all regions, cooking styles, and ethnic origins. This book fills a gap by providing behind-the-scenes insights into the biggest names in American food, past and present.

Flashpoints in the War on Terrorism Derek S. Reveron, Jeffrey Stevenson Murer, 2013-05-13 This volume offers a comprehensive overview of international political violence by bringing together foreign policy experts on several regions who examine conflicts in the Fertile Crescent, the Balkans, the Post-Soviet Region, the Himalayas, Southeast Asia, and sub-Saharan Africa. With cogent assessments of civil conflicts that threaten to be part of a 'global jihad', each chapter both dissects the historical roots and socio-economic causes that catalyze terrorism in those areas, as well as posits ways for the United States to meet the myriad of foreign policy challenges posed by the growing threat of contemporary international terrorism.

These narratives provide applicants with detailed and balanced perspectives and insider information on admissions and employment prospects, which is lacking in other business school guides.

*Overkill* Bill Mesce, Jr., 2014-08-21 The work examines the evolution of the thriller from the heyday of the Hollywood mogul era in the 1930s when it was primarily bottom-of-the-bill fodder, through its maturity in the World War II years and noir-breeding 1950s, its commercial and critical ascendancy in the 1960s and 1970s, and finally its subsequent box office dominance in the age of the blockbuster.

*Contemporary Ergonomics 2005* Philip D. Bust, Paul T. McCabe, 2005-05-12 The broad and developing scope of ergonomics - the application of scientific knowledge to improve peoples' interaction with products, systems and environments - has been illustrated for over twenty years by the books that make up the Contemporary Ergonomics series. Presenting the proceedings of the Ergonomics Society's annual conference, the series embraces the wide range of topics. Individual papers provide insight into current practice, present new research findings and form an invaluable reference source. The volumes provide a fast track for the publication of suitable papers from international contributors. These are chosen on the basis of abstracts submitted to a selection panel in the autumn prior to the Ergonomics Society's annual conference held in the spring. A wide range of topics are covered in these proceedings, including: applications of ergonomics, air traffic control, cognitive ergonomics, defence, design, environmental ergonomics, ergonomics4schools, hospital ergonomics, inclusive design, methods and tools, occupational health and safety, slips, trips & falls and transport. As well as being of interest to mainstream ergonomists and human factors specialists, Contemporary Ergonomics will appeal to all those who are concerned with people's
