**Georgetown University Round Table on Languages and Linguistics (GURT) 1989: Language Teaching, Testing, and Technology** James E. Alatis, 1989-10-01 The 2000 Georgetown University Round Table on Languages and Linguistics brought together distinguished linguists from around the globe to discuss applications of linguistics to important and intriguing real-world issues within the professions. With topics as wide-ranging as coherence in operating room communication, involvement strategies in news analysis roundtable discussions, and jury understanding of witness deception, this resulting volume of selected papers provides both experts and novices with myriad insights into the excitement of cross-disciplinary language analysis. Readers will find--in the words of one contributor--that in such cross-pollination of ideas, there's tremendous hope, there's tremendous power and the power to transform.

**Why Are We Still Doing That?** Pérsida Himmele, William Himmele, 2021-09-29 The best-selling authors of Total Participation Techniques address 16 common educational practices that undermine student learning and offer better ways to achieve the intended aims.

**Close Reading in Elementary School** Diana Sisson, Betsy Sisson, 2014-04-16 The Common Core State Standards encourage teachers to use close reading as a means to help students access complex text. This book is your must-have guide to getting started! It provides step-by-step strategies and scaffolds for teaching close reading and improving students' comprehension of complex texts. You will learn how to teach close reading based on text type, how to transition students through increasingly challenging texts, and how to use close reading as a springboard for close writes and close talks.

Special Features: • An easy-to-use framework for creating a close reading lesson • Close reading strategies for a variety of literary and informational subgenres • Ideas for teaching close reading to meet specific comprehension objectives based on the Common Core, including analyzing text structure and evaluating argument • Suggestions for helping students read with increased levels of rigor • A clear explanation of what text complexity really means and how it varies by student • Scaffolds to help students at all ability levels do a close reading • Guidelines and procedures for close talks—purposeful, focused discussions about text • Procedures for close writes that vary based on genre and student ability level In addition, each chapter includes study guide questions to help you apply the ideas in the book to your own classroom. With this practical book, you will have all the tools you need to make close reading a reality!

*Bringing Reading Research to Life* Margaret G. McKeown, Linda Kucan, 2009-11-30 This book brings together some of the world's foremost literacy scholars to discuss how research influences what teachers actually do in the classroom. Chapters describe the current state of knowledge about such key topics as decoding, vocabulary, comprehension, digital literacies, reading disabilities, and reading reform. At the same time, the authors offer a unique "inside view" of their own research careers: key personal and professional influences, how their research agendas took shape, and what they see as the most important questions currently facing the field. The book honors the contributions of Isabel Beck, who has achieved tremendous success in translating research into widely used instructional practices.

Shake Up Shared Reading Maria Walther, 2022-01-25 The joyful path from rich read-aloud experiences toward supporting young readers' independence. When young readers join their voices together in shared reading, their literacy skills and confidence soar. Shared reading surrounds

students with the language of stories and the delight of learning in community. In *Shake Up Shared Reading*, veteran teacher Maria Walther offers teachers a simple but robust scaffolding for moving from teacher-led demonstration of read aloud to student-led discovery of literacy skills—across the bridge of shared reading. This easily adaptable structure features short, targeted bursts of shared reading that are connected to and planned as a follow-up to a read-aloud experience. The resource includes: Read-aloud experiences drawn from 50 recently published works of children’s literature from varied voices, that provide the foundation for the short, intensive shared reading interactions that follow. 100 short, laser-focused bursts of shared reading, two for each title, that invite students to dig deeper, with a precise aim in mind—perfect for a variety of learning contexts including virtual settings. Key vocabulary, kid-friendly definitions, along with a Nudge Toward Independence section for each shared reading interaction help teachers connect shared reading to guided reading lessons and students’ independent literacy learning. A companion website offering reproducibles and a Learning Target Chart that gives an at-a-glance view of every read aloud learning target and shared reading focus, along related titles and additional links. Let the power of a read aloud and shared reading lead your students to read, talk, ponder, and react on the way to becoming joyful, independent readers.

**Margaret Atwood: Crime Fiction Writer** Jackie Shead, 2016-05-13 Exploring how Margaret Atwood’s fiction reimagines the figure of the detective and the nature of crime, Jackie Shead shows how the author radically reworks the crime fiction genre. Shead focuses on *Surfacing*, *Bodily Harm*, *Alias Grace*, *The Blind Assassin*, *Oryx and Crake* and selected short fiction, showing the ways in which Atwood’s protagonists are confronted by their own collusion in hegemonic assumptions and thus are motivated to investigate and expose crimes of gender, class and colonialism. Shead begins

with a discussion of how Atwood's treatment of crime fiction's generic elements, particularly those of the whodunit, clue puzzle and spy thriller, departs from convention. Through discussion of Atwood's metafictional strategies, Shead also examines Atwood's techniques for activating her readers as investigators who are offered an educative process parallel to that experienced by some of the author's protagonists. This book also marks a significant intervention in an ongoing debate among Atwood critics that pits the author's postmodernism against her ethical and humanistic concerns.

**Authors and Art Movements of the Twentieth Century** Declan Lloyd, 2022-12-30 This book explores the great influence of twentieth-century artists and art movements on many major writers of the twentieth century. It focuses in particular on four seminal writers who were strongly influenced by very different movements: they are Gertrude Stein and Cubism, William S. Burroughs and Dada, J. G. Ballard and Surrealism, and Douglas Coupland and Pop Art. For these authors the presence and influence of these art movements is not limited to a small cluster of texts, but can be felt much more expansively across their work, infiltrating all manner of multifarious and complex dimensions. These authors are all keen to explore new methods of shifting the signature styles and forms of visual art into the literary world. Alongside these more overt methods of artistic transposition, the authors also often demonstrate a deep philosophical affinity with their chosen movements. This book uproots and examines these kinds of artistic engagements, and also explores the authors' own personal connections with the world of art. For these are all authors not only interested in visual art, but also intimately connected to the art world. Indeed, some went on to become renowned artists in their own right, while others were closely associated with major historical art figures. Above all however, they are unified by a kindred interest in exploring how the methods and philosophies of art can be transposed into, and even challenge the constraints of

traditional forms of literature.

**The Reading Turn-Around** Stephanie Jones, Lane W. Clarke, Grace Enriquez, 2019-09-06 This book demonstrates a five-part framework for teachers, reading specialists, and literacy coaches who want to help their least engaged students become powerful readers. Book Features: Effective methods for differentiating reading instruction in Grades 2-5. Real-life classroom vignettes and examples of student work. Helpful teacher self-evaluation exercises. Strategies to use with English Language Learners. And much more! “This is a masterwork that is simultaneously practical and groundbreaking. . . . The model these authors use to familiarize teachers with the essential elements of reading practice is clear and beautifully illustrated with stories of children you’ll swear you know.” —From the Foreword by Ellin Oliver Keene, national staff developer “This deeply intelligent and compassionate book provides teachers with detailed classroom scenarios and dozens of teaching tools for engaging all readers. The authors demonstrate how to help all students become motivated and powerful meaning-makers of a wide variety of texts.” —Katherine Bomer, Literacy Consultant, K-12

**Inscriptions of the Iron Age** John David Hawkins, 2012-05-10 This is an edition of the

Hieroglyphic inscriptions of the Late Hittite states of Turkey and Syria. These inscriptions, surviving largely on stone, include monuments of kings to their reigns and works as well as the humbler memorials of subordinates. A few precious survivals of documents in the form of lead strips give us a different type of document: letters and economic texts. Recent discoveries have improved the decipherment and understanding of these inscriptions to a point where new and comprehensive translations can be offered, and the presentation of this in English will make them available for the first time to the wide audience of the English-speaking world. At the same time we are in a position to present more reliable texts than those which have appeared in editions hitherto regarded as standard.
