Have His Carcase Dorothy L. Sayers,2012-07-31 Lord Peter Wimsey and Harriet Vane investigate a dead body on the beach in this “nearly perfect detective story” by the author of *Busman’s Honeymoon* (Saturday Review). Harriet Vane has gone on vacation to forget her recent murder trial and, more importantly, to forget the man who cleared her name—the dapper, handsome, and maddening Lord Peter Wimsey. She is alone on a beach when she spies a man lying on a rock, surf lapping at his ankles. She tries to wake him, but he doesn’t budge. His throat has been cut, and his blood has drained out onto the sand. As the tide inches forward, Harriet makes what observations she can and photographs the scene. Finally, she goes for the police, but by the time they return the body has gone. Only one person can help her discover how the poor man died at the beach: Lord Peter, the amateur sleuth who won her freedom and her heart in one fell swoop. *Have His Carcase* is the 8th book in the Lord Peter Wimsey Mysteries, but you may enjoy the series by reading the books in any

order. This ebook features an illustrated biography of Dorothy L. Sayers including rare images from the Marion E. Wade Center at Wheaton College.

On Diary Philippe Lejeune, 2009-04-30 *On Diary* is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, *The Autobiographical Pact*, has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable. Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

Reflections of an American Composer Arthur Berger, 2002-11-28 In this engrossing collection of essays, distinguished composer, theorist, journalist, and educator Arthur Berger invites us into the vibrant and ever-changing American music scene that has been his home for most of the twentieth century. Witty, urbane, and always entertaining, Berger describes the music scene in New York and Boston since the 1930s, discussing the heady days when he was a member of a tight-knit circle of avant-garde young composers mentored by Aaron Copland as well as his participation in a group at Harvard University dedicated to Stravinsky. As Virgil Thomson's associate on the *New York Herald Tribune* and founding editor of the prestigious *Perspectives of New Music*, Berger became one of the preeminent observers and critics of American music. His reflections on the role of music in contemporary life, his journalism career, and how changes in academia influence the composition and teaching of music offer a unique perspective informed by Berger's abundant intelligence and experience.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose:

The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.
