The Relative Clause in Biblical Hebrew Robert D. Holmstedt, 2016 This book is the result of 15 years of research on the ancient Hebrew relative clause as well as the effective application of modern linguistic approaches to an ancient language corpus. Though the ostensible topic is the relative clause, including a full discussion of the various relative words used to introduce Hebrew relative clauses and a detailed presentation of the relevant comparative Semitic data, this work also carefully navigates the challenges of analyzing a dead language and offers a methodological road map for the analysis of any feature of Biblical Hebrew grammar. With the appendixes of relative clause data, including the author's English translations, the work aims at comprehensiveness, exhaustiveness, and full transparency in data, method, and theory.

The Sacred Bridge Eric Werner, 1959 This is the first full-length comparative study of the music of the Christian and Jewish liturgies. It is designed to show the liturgical and musical interdependence of Church and Synagogue during the first millennium of the Christian era and to highlight the series of cultural exchanges between East and West that occurred during those centuries. With a wealth of scholarly evidence, the author tells the story of the development of the Christian forms of worship, both Eastern and Roman. At the same time he explains the modifications made in Jewish ceremonies and rituals, in areas where Jews and Christians lived side by

side, with resulting exchange in both directions, from Church to Synagogue as well as from Synagogue to Church. Professor Werner first examines Jewish practices of worship at the time of the beginnings of Christianity and then traces the spread and modifications of these ancient Jewish, and even pre-Jewish, conceptions of sacred music and ritual as they were adapted by various Christian groups. Historical, philological, and musicological scholarship is used to discover the complex interrelationship between Christian and Hebraic elements in prayer books, poetry and psalmody, hymns, devotional music, and all the other aspects of sacred liturgy. Professor Werner has used many sources previously neglected and has reexamined those already available. Scholars of theology, liturgy, and music, and historians as well, will find much that will stimulate further research, and all interested in the formation of the religions of the West will stand to profit from this scholarly work on the interplay of two great religious movements. - Jacket.

The Prophecies Nostradamus, 2013-12-31 The first major literary presentation of Nostradamus's Prophecies, newly translated and edited by prizewinning scholars The mysterious quatrains of the sixteenth-century French astrologer Nostradamus have long proved captivating for their predictions. Nostradamus has been credited with anticipating the Great Fire of London, the rise of Adolf Hitler, and the September 11 terrorist attacks. Today, as the world grapples with financial meltdowns, global terrorism, and environmental

disasters—as well as the Mayan prediction of the apocalypse on December 21, 2012—his prophecies of doom have assumed heightened relevance. How has The Prophecies outlasted most books from the Renaissance? This edition considers its legacy in terms of the poetics of the quatrains, published here in a brilliant new translation and with introductory material and notes mapping the cultural, political, and historical forces that resonate throughout Nostradamus's epic, giving it its visionary power. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Rabbi Moses Nahmanides (Ramban) Isadore Twersky, 1983-01-01 This rich little volume, which substantively enhances our knowledge and appreciation of R. Moses Nahmanides, contains an introduction by Isadore Twersky and five original and learned articles by well-known scholars: David Berger, Brooklyn College (Miracles and the Natural Order in Nahmanides); Ezra Fleischer, The Hebrew University (The 'Gerona School' of Hebrew Poetry); Moshe Idel, The Hebrew University ('We Have No Kabbalistic Tradition on This'); Bezalel Safran, Harvard University (Rabbi Azriel and Nahmanides: Two Views of the

Fall of Man); and Bernard Septimus, Harvard University ('Open Rebuke and Concealed Love': Nahmanides and the Andalusian Tradition). Ramban's attitude to aggadah, poetry, exegesis and rationalism, his coupling of genuine conservatism and powerful originality, his views on the nature of man, law of nature, miracles, history of kabbalah, dialectics of halakah, his relation to the Spanish intellectual-spiritual background, Proencal culture, and French Talmudism--these are some of the topics explored in these pages. In connection with these specific topics of Nahmanides research, some broader historical issues are also touched upon: continuities and differences between Islamic and Christian Spain; varieties of thirteenth-century kabbalah; preoccupations of medieval halakists; root problems of Scriptural exegesis; the re-orientation of Hebrew poetry in Christian Spain; the relation of philosophy and mysticism. Anyone interested in the luminous achievement and enduring influence of Ramban, probably the greatest figure in 13th century Jewish history, will turn to this volume.

The Image of the Non-Jew in Judaism David Novak,1983 Designed as a historical study of the Noahide Laws, this monograph aims to trace the development of the concept of gentile normativeness in the history of Jewish law and theology. In addition, it seeks to show how this concept had internal influence on the development of that law and theology.

The Book of Theodicy Ben Joseph Al-Fayyumi Saadiah, 1988-01-01 Born in Egypt in 882, Saadiah Gaon was the first systematic philosopher of Judaism, the father of both scientific biblical exegesis and Jewish philosophic philosophy. In this book, L.E. Goodman presents the first English translation of Saadiah's important Book of Theodicy, a commentary on the Book of Job. Goodman's translation preserves Saadiah's penetrating naturalism, tenacity of theme and argument, and sensitivity to the nuances of poetic language.

Jewish-Christian Dialogue David Novak, 1992-04-02 Many studies written about the Jewish-Christian relationship are primarily historical overviews that focus on the Jewish background of Christianity, the separation of Christianity from Judaism, or the medieval disputations between the two faiths. This book is one of the first studies to examine the relationship from a philosophical and theological viewpoint. Carefully drawing on Jewish classical sources, Novak argues that there is actual justification for the new relationship between Judaism and Christianity from within Jewish religious tradition. He demonstrates that this new relationship is possible between religiously committed Jews and Christians without the two major impediments to dialogue: triumphalism and relativism. One of the very few

books on this topic written by a Jewish theologian who speaks specifically to modern Christian concerns, it will provide the groundwork for a more serious development of Jewish-Christian dialogue in our day.

Origins of the Kabbalah Gershom Scholem, 2019-02-26 With the publication of *The Origins of the Kabbalah* in 1950, one of the most important scholars of our century brought the obscure world of Jewish mysticism to a wider audience for the first time. A crucial work in the oeuvre of Gershom Scholem, this book details the beginnings of the Kabbalah in twelfth- and thirteenth-century southern France and Spain, showing its rich tradition of repeated attempts to achieve and portray direct experiences of God. *The Origins of the Kabbalah* is a contribution not only to the history of Jewish medieval mysticism, but also to the study of medieval mysticism in general. Now with a new foreword by David Biale, this book remains essential reading for students of the history of religion.

A Marriage Made in Heaven Naomi Seidman, 2023-04-28 With remarkably original formulations, Naomi Seidman examines the ways that Hebrew, the Holy Tongue, and Yiddish, the vernacular language of Ashkenazic Jews, came to represent the masculine and feminine faces, respectively, of Ashkenazic Jewish culture.

Her sophisticated history is the first book-length exploration of the sexual politics underlying the marriage of Hebrew and Yiddish, and it has profound implications for understanding the centrality of language choices and ideologies in the construction of modern Jewish identity. Seidman particularly examines this sexual-linguistic system as it shaped the work of two bilingual authors, S.Y. Abramovitsh, the grand-father of modern Hebrew and Yiddish literature; and Dvora Baron, the first modern woman writer in Hebrew (and a writer in Yiddish as well). She also provides an analysis of the roles that Hebrew masculinity and Yiddish femininity played in the Hebrew-Yiddish language wars, the divorce that ultimately ended the marriage between the languages. Theorists have long debated the role of mother and father in the child's relationship to language. Seidman presents the Ashkenazic case as an illuminating example of a society in which mother tongue and father tongue are clearly differentiated. Her work speaks to important issues in contemporary scholarship, including the psychoanalysis of language acquisition, the feminist critique of Zionism, and the nexus of women's studies and Yiddish literary history. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in

1997.

Studies on Steinschneider Reimund Leicht,Gad Freudenthal,2011-11-11 The present volume is devoted to the study of the life and work of Moritz (Moshe) Steinschneider (1816-1907). It shows that far from being a “mere bibliographer,” Steinschneider pursued a precise scientific agenda. This is a noteworthy contribution to our understanding of the project of the Wissenschaft des Judentums.

On the Margins of Modernism Chana Kronfeld, 1996-11-22 A remarkable study. . . . The first book of its kind and essential for any future discussion of modernism and its embattled boundaries.—Françoise Meltzer, author of *Hot Property* One of the very best books of literary criticism, literary scholarship, or literary theory I have ever read. . . . It illuminates interrelationships between historical studies and theory in any humanist discipline.—Menachim Brinker, The Hebrew University of Jerusalem A milestone in the study of modern Jewish literature. It seriously engages and recontextualizes all the scholarship that came before, and by so doing sets it on a new course: applying a rigorous definition of modernism yet insistent upon methodological diversity; deeply grounded in Hebrew culture yet unabashedly diaspora-centered. This is not a book that readers will take lightly.—David G. Roskies, author of *Against the Apocalypse*

Neoplatonism and Jewish Thought Lenn E. Goodman, 2012-02-01 This book deals primarily with the problem of the one and the many. The problems of creation, of evil, of revelation, and of ethics are all treated as special cases of the general problem of relating the finite to the infinite, the many to the one. The authors focus on the unifying theme of mediation, the means by which the Absolute relates to the here and now. The principal figures studied include Philo, Plotinus, Iamblichus, Isaac Israeli, Avicenna, Ibn Gabirol, Al-Ghazâlî, Abraham Ibn Daud, Maimonides, Averroes, Albertus Magnus, Aquinas, Gersonides, Nahmanides, Ibn Falaquera, Narboni, Albalag, Leone Ebreo (Judah

Abarbanel), and Spinoza, as well as such Kabbalistic thinkers as Bahir, Cordovero, Luria, Moses de Leon, Ya'akov ben Sheshet, Isaac the Blind, Menahem Renanti, Shem Tov ben Shem Tov, Azriel of Gerona, Alemanno, Luzzato, Cordovero, and Abraham Herrera. The authors include David Winston, John Dillon, Carl Mathis, Bernard McGinn, Arthur Hyman, Alfred Ivry, Lenn E. Goodman, Menachem Kellner, David Burrell, Idit Dobbs-Weinstein, David Bleich, Seymour Feldman, Steven Katz, Moshe Idel, David Novak, Hubert Dethier, Richard Popkin, and Robert McLaren. Taken together, these essays offer an impressive historical survey of the ideas, achievements, and philosophic struggles of a group of men who worked to form a unique and durable tradition that bridged the gap between rival confessions and sects—mystics, rationalists, and empiricists; Jews, Christians, and Muslims. This is a philosophic source whose vitality is not yet exhausted.
