**Web Search: Public Searching of the Web** Amanda Spink,Bernard J. Jansen,2006-02-21 This book brings together results from the Web search studies we conducted from 1997 through 2004. The aim of our studies has been twofold: to examine how the public at large searches the Web and to highlight trends in public Web searching. The eight-year period from 1997 to 2004 saw the beginnings and maturity of public Web searching. Commercial Web search engines have come and gone, or endured, through the fall of the dot.com companies. We saw the rise and, in some cases, the demise of several high profile, publicly available Web search engines. The study of the Web search is an exciting and important area of interdisciplinary research. Our book provides a valuable insight into the growth and development of human interaction with Web search engines. In this book, our focus is on the human aspect of the interaction between user and Web search engine. We do not investigate the Web search engines themselves or their constantly changing interfaces, algorithms and features. We focus on exploring the cognitive and user aspects of public Web searching in the aggregate. We use a variety of quantitative and qualitative methods within the overall methodology known as transaction log analysis.

*The Information Society* Robert Hassan,2013-04-25 What are we to make of the information society? Many prominent theorists have argued it to be the most profound and comprehensive transformation of economy, culture and politics since the rise of the industrial way of life in the 18th century. Some saw its arrival in a positive light, where the dreams of democracy, of 'connectivity' and 'efficiency' constituted a break with the old ways. But other thinkers viewed it more in terms of the recurrent nightmare of capitalism, where the processes of exploitation, commodification and alienation are given much freer rein than ever before. In this book Robert Hassan, a prominent theorist in new media and its effects, analyses and critically appraises these positions and forms them into a coherent narrative to illuminate the phenomenon. Surveying the works of major information society theorists from Daniel Bell to Nicholas Negroponte, and from Vincent Mosco to Manuel Castells, *The Information Society* is an invaluable resource for understanding the nature of the information society—as well as the meta-processes of neoliberal globalisation and the revolution in information technologies that made it possible.

Geek Love Katherine Dunn,2011-05-25 National Book Award Finalist • Here is the unforgettable story of the Binewskis, a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities—with the help of amphetamines, arsenic, and radioisotopes. Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan . . . Iphy and Elly, the lissome Siamese twins . . . albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious—and dangerous—asset. As the Binewskis take their act across the backwaters of the U.S., inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, *Geek Love* throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same.

Dietary Reference Intakes for Vitamin C, Vitamin E, Selenium, and Carotenoids Institute of Medicine,Food and Nutrition Board,Standing Committee on the Scientific Evaluation of Dietary Reference Intakes,Subcommittee on Interpretation and Uses of Dietary Reference Intakes,Subcommittee on Upper Reference Levels of Nutrients,Panel on Dietary Antioxidants and Related Compounds,2000-08-27 This volume is the newest release in the authoritative series of quantitative estimates of nutrient intakes to be used for planning and assessing diets for healthy people. Dietary Reference Intakes (DRIs) is the newest framework for an expanded approach developed by U.S. and Canadian scientists. This book discusses in detail the role of vitamin C, vitamin E, selenium, and the carotenoids in human physiology and health. For each nutrient the committee presents what is known about how it functions in the human body, which factors may affect how it works, and how the nutrient may be related to chronic disease. Dietary Reference Intakes provides reference intakes, such as Recommended Dietary Allowances (RDAs), for use in planning nutritionally adequate diets for different groups based on age and gender, along with a new reference intake, the Tolerable Upper Intake Level (UL), designed to assist an individual in knowing how much is too much of a nutrient.

**The Anarchist in the Library** Siva Vaidhyanathan,2004-05-04 Arguing that the peer-to-peer relationship is the most important dynamic in the modern era, the author takes the fight over the freedom to share information into the halls of the library—an institution that is profoundly challenged by the recent explosion of new information technology. 35,000 first printing.

**Harrod's Librarians' Glossary and Reference Book** Ray Prytherch,2016-04-15 Listing over 10,000 entries, *Harrod's Librarians' Glossary and Reference Book* spans everything from traditional printing terms to search engines and from book formats to URLs. Revisions for this tenth edition have centred in particular on the Information Society and its ramifications, on the general shift towards electronic resources, and on e-commerce, e-learning and e-government, whilst at the same time maintaining key areas predating the IT revolution. Web terminology, URLs and IT terms have been checked and updated, and coverage of terms relating to digitization and digital resources, portals, multimedia and electronic products has been revised or expanded as necessary. *Harrod's Glossary* now

includes Knowledge Management terms, and this edition has also focused on developments in the field of intellectual property, copyright, patents, privacy and piracy. It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills. Even with the Web at your fingertips Harrod's Librarians' Glossary and Reference Book remains a quicker reference for explaining specialist terms, jargon and acronyms, and for finding the URLs you need, whether you are working in a print-based or digital library, in archiving, records management, conservation, bookselling or publishing.

**Rolling Warrior** Judith Heumann, Kristen Joiner, 2021-06-15 As featured in the Oscar-nominated documentary Crip Camp, and for readers of I Am Malala, one of the most influential disability rights activists in US history tells her story of fighting to belong. "If I didn't fight, who would?" Judy Heumann was only 5 years old when she was first denied her right to attend school. Paralyzed from polio and raised by her Holocaust-surviving parents in New York City, Judy had a drive for equality that was instilled early in life. In this young readers' edition of her acclaimed memoir, Being Heumann, Judy shares her journey of battling for equal access in an unequal world—from fighting to attend grade school after being described as a "fire hazard" because of her wheelchair, to suing the New York City school system for denying her a teacher's license because of her disability. Judy went on to lead 150 disabled people in the longest sit-in protest in US history at the San Francisco Federal Building. Cut off from the outside world, the group slept on office floors, faced down bomb threats, and risked their lives to win the world's attention and the first civil rights legislation for disabled people. Judy's bravery, persistence, and signature rebellious streak will speak to every person fighting to belong and fighting for social justice.

**Hacking the Academy** Daniel J. Cohen, Joseph Thomas Scheinfeldt, 2013-05-13 On May 21, 2010, Daniel J. Cohen and Tom Scheinfeldt posted the following provocative questions online: "Can an algorithm edit a journal? Can a library exist without books? Can students build and manage their own learning management platforms? Can a conference be held without a program? Can Twitter replace a scholarly society?" As recently as the mid-2000s, questions like these would have been unthinkable. But today serious scholars are asking whether the institutions of the academy as they have existed for decades, even centuries, aren't becoming obsolete. Every aspect of scholarly infrastructure is being questioned, and even more importantly, being hacked. Sympathetic scholars of traditionally disparate disciplines are canceling their association memberships and building their own networks on Facebook and Twitter. Journals are being compiled automatically from self-published blog posts. Newly minted PhDs are forgoing the tenure track for alternative academic careers that blur the lines between research, teaching, and service. Graduate students are looking beyond the categories of the traditional CV and building expansive professional identities and popular followings through social media. Educational technologists are "punking" established technology vendors by rolling out their own open source infrastructure. Here, in Hacking the Academy, Daniel J. Cohen and Tom Scheinfeldt have gathered a sampling of the answers to their initial questions from scores of engaged academics who care deeply about higher education. These are the responses from a wide array of scholars, presenting their thoughts and approaches with a vibrant intensity, as they explore and contribute to ongoing efforts to rebuild scholarly infrastructure for a new millennium.

**Millennials Rising** Neil Howe, William Strauss, 2009-01-16 By the authors of the bestselling 13th Gen, an incisive, in-depth examination of the Millennials--the generation born after 1982. In this remarkable account, certain to stir the interest of educators, counselors, parents, and people in all types of business as well as young people themselves, Neil Howe and William Strauss provide the definitive analysis of a powerful generation: the Millennials. Having looked at oceans of data, taken their own polls, talked to hundreds of kids, parents, and teachers, and reflected on the rhythms of history, Howe and Strauss explain how Millennials have turned out to be so dramatically different from Xers and boomers. Millennials Rising provides a fascinating narrative of America's next great generation.

**The Servile State** Hilaire Belloc, 2023-11-14 This book lays out, in very broad outline, Belloc's version of European economic history, starting with ancient pagan states, in which slavery was critical to the economy, through the medieval Christendom process which transformed an economy based on serf labour in a state in which the property was well distributed, to 19th and 20th century capitalism. Belloc argues that the development of capitalism was not a natural consequence of the Industrial Revolution, but a consequence of the earlier dissolution of the monasteries in England, which then shaped the course of English industrialisation. English capitalism then spread across the world.

**The Politically Incorrect Guide to American History** Thomas E.
