

Writing CGI Applications with Perl Kevin Meltzer,Brent Michalski,2001 Are women insane? Are they really gluttons for punishment? Often left picking up their panties rather than the person they hoped to build a lifetime with, women continuously miss the obvious problem in dating ... and according to Shaun Upshaw, it's NOT men (at least not men alone).Driven by a guilty conscience, tormented by broken hearts left in his path and a concern for his daughter's future, Upshaw seeks to balance the dating game by injecting a dose of common sense. He feels it's the least he can do to repair the damage of the deadly dating schemes practiced by most men.In a very candid, clear fashion, Shaun brilliantly explains the pitfalls and problems of dating while offering some rules of engagement. This book will cause you to experience a varied array of emotions. You will feel angry, appalled, astonished, broken, used, and down right dumb. So why read this book? Great question...You will be enlightened and informed. Forced to the crossroad of decisions, you will have to look yourself in the mirror and answer some self-evaluating questions. To date or not to date... If your answer is 'to date'... you NEED this book.

This is an interesting and exciting new feature, with many potentially useful applications. Beginning Spatial with SQL Server 2008 covers everything you need to know to begin using these new spatial datatypes, and explains how to apply them in practical situations involving the spatial relationships of people, places, and things on the earth. All of the spatial concepts introduced are explained from the ground up, so you need not have any previous knowledge of working with spatial data. Every section is illustrated with code examples that you can use directly in SQL Server. All of the topics covered in this book apply to all versions of SQL Server 2008, including the freely available SQL Server 2008 Express. What you'll learn Understand the fundamental concepts involved in working with spatial data, including spatial references and coordinate systems. The Social Media Reader Michael Mandiberg,2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers, The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It

covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

The Queen of the Tambourine Jane Gardam,2007-09-01 Winner of the Whitbread Prize for Best Novel of the Year: "Gardam's portrait of an insanely imaginative woman in an elusive midlife crisis is impeccably drawn" (The Seattle Times). With prose that is vibrant and witty, The Queen of the Tambourine traces the emotional breakdown—and eventual restoration—of Eliza Peabody, a smart and wildly imaginative woman who has become unbearably isolated in her prosperous London neighborhood. The letters Eliza writes to her neighbor, a woman whom she hardly knows, reveal her self-propelled descent into madness. Eliza must reach the depths of her downward spiral before she can once again find health and serenity. This story of a woman's confrontation with the realities of sanity will delight readers who enjoy the works of Anita Brookner, Sybille Bedford, Muriel Spark, and Sylvia Plath. "Excellentlly done . . . Manic delusions have never been so persuasive . . . Very moving when it is not being exceedingly funny." —Anita Brookner, award-winning author of The Debut "British author Gardam, who won the Whitbread Award for this jigsaw puzzle of a novel, keeps up the suspense to the end, writing like a sorceress in the meantime." —The Seattle Times "Brilliant." —The Sunday Times "An ingenious, funny, satirical, sad story . . . Vivid and poignant." —The Independent on Sunday "Wickedly comic . . . masterly and hugely enjoyable." —Daily Mail "Marvelously subtle and moving." —The Times (London)

Treasure of the Fire Kingdom Cassandra Gannon,2017-10-05 Elementals: Water, Earth, Fire and Air are only the beginning. Elementals support everything from Darkness to Time, secretly maintaining the processes of nature. Only now the Elementals are nearly extinct. Two years ago, the Air House released a plague that killed ninety percent of them. With their society in chaos and so many of their kind dead, they can't find their Phase-Matches; the other halves of themselves. Without Matches they can't have any more children and without the Elementals, the world will end. Again.Kingu: The son of the primordial Khaos, Kingu knows that he's a soulless monster. He's spent his entire existence enslaved and hated. Now that he's finally free, though, the only thing he wants is to somehow find a woman of his own. Against his better judgment, Kingu enlists the help of the Elementals, the universe's most annoying species, to track down his mate. All he wants is one quiet, uncomplicated woman, who won't run when she sees his monstrous face. Instead, he gets a chatty little blonde lunatic who thinks she's a warrior.Hope: Adopted by the Fire House as a child, Hope's spent her entire life idolizing her bombastic family and learning their unconventional views on romance. Fire Phases see kidnapping as foreplay, gladiator fights as a great opportunity to impress your Match, and monsters as the pinnacle of masculine hotness. When Hope winds up as a prisoner in Kingu's invitingly morbid fortress, she can't believe her luck. She's always believed she was jinxed, because so many weird things happen around her, but now she knows she's found her soul mate. All she has to do is defeat a few enemies, keep up with all the lies she's telling to hide her identity, and somehow convince a gigantic monster that he actually has a soul.Book Four of the Elemental Phases.

New Research Opportunities in the Earth Sciences National Research Council,Division on Earth and Life Studies,Board on Earth Sciences and Resources,Committee on New Research Opportunities in the Earth Sciences at the National Science Foundation,2012-04-26 The 2001 National Research Council (NRC) report Basic Research Opportunities in Earth Science (BROES) described how basic research in the Earth sciences serves five national imperatives: (1) discovery, use, and conservation of natural resources; (2) characterization and mitigation of natural hazards; (3) geotechnical support of commercial and infrastructure development; (4) stewardship of the environment; and (5) terrestrial surveillance for global security and national defense. This perspective is even more pressing today, and will persist into the future, with ever-growing emphasis. Today's world-with headlines dominated by issues involving fossil fuel and water resources, earthquake and tsunami disasters claiming hundreds of thousands of lives and causing hundreds of billions of dollars in damages, profound environmental changes associated with the evolving climate system, and nuclear weapons proliferation and testing-has many urgent societal issues that need to be informed by sound understanding of the Earth sciences. A national strategy to sustain basic research and training of expertise across the full spectrum of the Earth sciences is motivated by these national imperatives. *New Research Opportunities in the Earth Sciences* identifies new and emerging research opportunities in the Earth sciences over the next decade, including surface and deep Earth processes and interdisciplinary research with fields such as ocean and atmospheric sciences, biology, engineering, computer science, and social and behavioral sciences. The report also identifies key instrumentation and facilities needed to support these new and emerging research opportunities. The report describes opportunities for increased cooperation in these new and emerging areas between EAR and other government agency programs, industry, and international programs, and suggests new ways that EAR can help train the next generation of Earth scientists, support young investigators, and increase the participation of underrepresented groups in the field.

The Blonde Geisha Jina Bacarr,2014-08-01 The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood. A girl like me. In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha. During the years of her training in the art of pleasuring men, Kathlene's desires are awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he is the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....

Collaborative Futures Mike Linksvayer,Michael Mandiberg,Mushon Zer-Aviv,2010 The true nature of collaborative culture as a form of creative expression in the context of digital and network technologies has remained elusive, a buzzword often falling prey to corporate and ideological interests. This book was collaboratively written by six authors, as an experimental five day Book Sprint in January 2010. Developed under the aegis of transmediale.10, this third publication in the festival's parcours series resulted in the initiation of a new vocabulary on the forms, media and goals of collaborative practice. In June 2010, the book was rewritten as a part of the Re: Group exhibition at Eyebeam, NY. This second edition invited three new authors to challenge the free culture sentiment underlying the original writing. The result is a deliberately multi-voiced tone pondering the merits and shortcomings of this new emerging ideology
