Tell Me the Truth, Doctor Richard Besser, 2013-04-23 Hey, Doc--Got a Minute? No matter where Dr. Richard Besser goes, a day doesn't go by without someone stopping him to ask that question. Often, that person is one of the millions who have come to rely on the vital information he shares on Good Morning America, World News with Diane Sawyer, and Nightline. Now, in response to thousands of inquiries from viewers, Dr. Besser has written his first book -- a comprehensive health guide that will both inform and surprise as he deciphers fact from fiction for nearly seventy confusing medical questions, including: Should I take a daily aspirin to prevent a heart attack, stroke, or cancer? If my doctors order a lot of tests, does that mean they're more thorough? Do I need thirty minutes of exercise a day to stay healthy? Recognizing the astonishing amount of misinformation that many important health decisions are based upon, Dr. Besser's commitment to delivering the truth is critical. He isn't afraid to challenge the status quo -- or the interests within the health care industry -- to provide the knowledge you need to take control of your health. Eager to help you make the choices that are right for YOU, he organizes his easy-to-understand answers into six lifestyle categories, including diet and nutrition; exercise and fitness; vitamins, supplements, and medicines; beating illness and injury; and navigating the perplexing world of health care, as well as a chapter dedicated to the questions you wished you asked before your doctor walks out the door. Throughout the book, Dr. Besser smashes myths while translating invaluable information into problem-solving advice you can use, including a Dr. B's Bottom Line at the end of each topic. As accessible as it is empowering, Dr. Besser's *Tell Me the Truth, Doctor* is a necessary addition to every home, office, and dorm room. Besser . . . ably analyzes popular myths (the Freshman Fifteen), considers pros and cons (HRT and statins), and mostly takes unequivocal stands on the issues. . . . Quite often, his comments and suggestions surprise . . . Particularly helpful are his guidelines for avoiding the harmful effects of health care and hospitalization. -- Publishers Weekly Richard Besser, MD, ABC News' Chief Health and Medical Editor, provides medical analysis and commentary for all ABC News

broadcasts and platforms, including World News with Diane Sawyer, Good Morning America, and Nightline, as well as many other news/entertainment programs. Since joining ABC News in 2009, Dr. Besser has been at the forefront of news coverage for every major medical story, including the earthquake in Haiti and the Japanese radiation release. He was the leading correspondent on ABC's global health series, Be the Change, Save a Life, and received a 2011 Emmy nomination for Outstanding Investigative Journalism for his World News story on cord blood banking. Besser came to ABC News from the Centers for Disease Control and Prevention (CDC), where he worked for thirteen years, including as acting director from January to June 2009, during which time he led the CDC's response to the H1N1 influenza outbreak. He has taught and trained doctors at the University of California, San Diego and is a visiting fellow at the Harvard School of Public Health. Most important, for more than twenty-five years he has practiced medicine, giving his patients and their families straightforward, commonsense advice.

Icons of African American Comedy Eddie M. Tafoya, 2011-06-02 This in-depth compilation of the lives, works, and contributions of 12 icons of African-American comedy explores their impact on American entertainment and the way America thinks about race. Despite the popularity of comedic superstars like Bill Cosby and Whoopi Goldberg, few books have looked at the work of African-American comedians, especially those who, like Godfrey Cambridge and Moms Mabley, dramatically impacted American humor. *Icons of African American Comedy* remedies that oversight. Beginning with an introduction that explores the history and impact of black comedians, the book offers in-depth discussions of 12 of the most important African-American comedians of the past 100-plus years: Bert Williams, Moms Mabley, Redd Foxx, Dick Gregory, Flip Wilson, Godfrey Cambridge, Bill Cosby, Richard Pryor, Whoopi Goldberg, Damon Wayans, Chris Rock, and Dave Chappelle. Each essay discusses the comedian's early life and offers an analysis of his or her contributions to American entertainment. Providing a variety of viewpoints on African-American comedy, the book shows how these comedians changed American comedy and American society.

The Palgrave Handbook of Adult Mental Health Michelle O'Reilly,Jessica Nina Lester,2016-04-08 This Handbook gathers together empirical and theoretical chapters from leading scholars and clinicians to examine the broad issue of adult mental health. The contributors draw upon data from a variety of contexts to illustrate the multiple ways in which language as action can assist us in better understanding the discursive practices that surround adult mental health. Conversation and discourse analysis are useful, related approaches for the study of mental health conditions, particularly when underpinned by a social constructionist framework. In the field of mental health, the use of these two approaches is growing, with emergent implications for adults with mental health conditions, their practitioners, and/or their families. Divided into four parts; Reconceptualising Mental Health and Illness; Naming, Labelling and Diagnosing; The Discursive Practice of Psychiatry; and Therapy and Interventions; this Handbook provides a comprehensive overview of current debates regarding adult mental health.

The Invasion of Marcia Lake Victor Valla,2013-02-11 The Invasion of Marcia Lake purports to be a fable that is told to a Naturalist from the United Kingdom who, nearly at the same time, chances upon two life-altering discoveries. The first is finding the whereabouts of the definitive ancient Volume on Taxonomy, The Taxonomic Compendium of Eighteen Thirty-five, a huge tome, illustrated with hundreds of line engravings, and containing the most complete listings of all known Science pertaining to Nature from that time period. The second is that he soon meets and is able to speak with a group representing Nature and its many dozens of different species. The T.C. of 1835 is in the hands of a Naturalist living on a houseboat in Florida, who has contacted our narrator-translator in the Scilly Isles, a man who is himself a famous Scientist/ Naturalist/ Linguist named Dr. Carlton Lyme, of Cornwall, England. He is related to both Charles Darwin and Carl Linneaus, and he arrives in the States to review the authenticity of the T.C. of 1835. While there, he explores the wildlife in the nearby swampy marshland by rowboat, (he is at heart a Naturalist), and makes the startling discovery that

his linguistic research specialty, that of the ancient Cornish language is spoken by a Community of Inhabitants, as he refers to them.

Advancing Democracy Amilcar Shabazz,2005-11-16 As we approach the fiftieth anniversary of *Brown v. Board of Education* (1954), it is important to consider the historical struggles that led to this groundbreaking decision. Four years earlier in Texas, the *Sweatt v. Painter* decision allowed blacks access to the University of Texas's law school for the first time. Amilcar Shabazz shows that the development of black higher education in Texas--which has historically had one of the largest state college and university systems in the South--played a pivotal role in the challenge to Jim Crow education. Shabazz begins with the creation of the Texas University Movement in the 1880s to lobby for equal access to the full range of graduate and professional education through a first-class university for African Americans. He traces the philosophical, legal, and grassroots components of the later campaign to open all Texas colleges and universities to black students, showing the complex range of strategies and the diversity of ideology and methodology on the part of black activists and intellectuals working to promote educational equality. Shabazz credits the efforts of blacks who fought for change by demanding better resources for segregated black colleges in the years before *Brown*, showing how crucial groundwork for nationwide desegregation was laid in the state of Texas.
