The Heebie-Jeebies at CBGB's Steven Lee Beeber,2007-04-01 Based in part on the recent interviews with more than 125 people –among them Tommy Ramone, Chris Stein (Blondie), Lenny Kaye (Patti Smith Group), Hilly Kristal (CBGBs owner), and John Zorn–this book focuses on punk's beginnings in New York City to show that punk was the most Jewish of rock movements, in both makeup and attitude. As it originated in Manhattan's Lower East Side in the early 1970s, punk rock was the apotheosis of a Jewish cultural tradition that found its ultimate expression in the generation born after the Holocaust. Beginning with Lenny Bruce, &“the patron saint of punk,&” and following pre-punk progenitors such as Lou Reed, Jonathan Richman, Suicide, and the Dictators, this fascinating mixture of biography, cultural studies, and musical analysis delves into the lives of these and other Jewish punks—including Richard Hell and Joey Ramone—to create a fascinating historical overview of the scene. Reflecting the irony, romanticism, and, above all, the humor of the Jewish experience, this tale of changing Jewish identity in America reveals the conscious and unconscious forces that drove New York Jewish rockers to reinvent themselves—and popular music.

Millions can't sleep; millions more sleep with those who can't sleep. This collection is ideal for both the casual light sleeper and the dedicated insomniac (as well as their bedmates), delighting and distracting night owls with irresistible fiction, articles, blogs, art, photographs, comics, and more. Fiction, including previously unpublished stories by Aimee Bender and Arthur Bradford; essays from Yale neurobiologists to Priscella Becker; the probably true fictions like Jonathan Ames's masturbation solution to insomnia; comic writing from Howard Cruse and Seth Tobocman; poetry from Charles Simic and Rebecca Wolff; Davy Rothbart of FOUND magazine chips in some found texts--all combine to offer a nighttime companion for the sleepless reader.

The Oxford Handbook of Religious Conversion Lewis R. Rambo,Charles E. Farhadian,2014-03-06 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion, which for centuries has profoundly shaped societies, cultures, and individuals throughout the world. Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon. This volume examines the experiences of individuals and communities who change religions, those who experience an intensification of their religion of origin, and those who encounter new religions through colonial intrusion, missionary work, and charismatic and revitalization movements. The thirty-two innovative essays provide overviews of the history of particular religions, including Hinduism, Buddhism, Confucianism, Taoism, Sikhism, Islam, Christianity, Judaism, indigenous religions, and new religious movements. The essays also offer a wide range of disciplinary perspectives—psychological, sociological, anthropological, legal, political, feminist, and geographical—on methods and theories deployed in understanding conversion, and insight into various forms of deconversion.

At the Gate of Christendom Nora Berend,Berend Nora,2001-05-17 Modern life in increasingly heterogeneous societies has directed attention to patterns of interaction, often using a framework of persecution and tolerance. This study of the economic, social, legal and religious position of three minorities (Jews, Muslims and pagan Turkic nomads) argues that different degrees of exclusion and integration characterized medieval non-Christian status in the medieval Christian kingdom of Hungary between 1000 and 1300. A complex explanation of non-Christian status emerges from the analysis of their economic, social, legal and religious positions and roles. Existence on the frontier with the nomadic world led to the formulation of a frontier ideology, and to anxiety about Hungary's detachment from Christendom, which affected policies towards non-Christians. The study also succeeds in integrating central European history with the study of the medieval world, while challenging such current concepts in medieval studies as frontier societies, persecution and tolerance, ethnicity and 'the other'.

The Black Sea Charles King,2005-07-21 The lands surrounding the Black Sea share a colourful past. Though in recent decades they have experienced ethnic conflict, economic collapse, and interstate rivalry, their common heritage and common interests go deep. Now, as a region at the meeting point of the Balkans, Central Asia, and the Middle East, the Black Sea is more important than ever. In this lively and entertaining book, which is based on extensive research in multiple languages, Charles King investigates the myriad connections that have made the Black Sea more of a bridge than a boundary, linking religious communities, linguistic groups, empires, and later, nations and states.

Medieval Islam Gustave E. von Grunebaum,2010-01-15 From the Preface: This book has grown out of a series of public lectures delivered in the spring of 1945 in the Division of the Humanities of the University of Chicago. It proposes to outline the cultural orientation of the Muslim Middle Ages, with eastern Islam as the center of attention. It attempts to characterize the medieval Muslim's view of himself and his peculiarly defined universe, the fundamental intellectual and emotional attitudes that governed his works, and the mood in which he lived his life. It strives to explain the structure of his universe in terms of inherited, borrowed, and original elements, the institutional framework within which it functioned, and its place in relation to the contemporary Christian world. A consideration of the various fields of cultural activity requires an analysis of the dominant interest, the intentions, and, to some extent, the methods of reasoning with which the Muslim approached his special subjects and to which achievement and limitations of achievement are due. Achievements referred to or personalities discussed will never be introduced for their own sake, let alone for the sake of listing the sum total of this civilization's major contributions. They are dealt with rather to evidence the peculiar ways in which the Muslim essayed to understand and to organize his world. The plan of the book thus rules out the narration of political history beyond the barest skeleton, but it requires the ascertaining of the exact position of Islam in the medieval world and its significance. This plan also excludes a study of Muslim economy, but it leads to an interpretation of the social structure as molded by the prime loyalties cherished by the Muslim.

Byzantium's Balkan Frontier Paul Stephenson,Professor of History and Head of the School of History and Heritage Paul Stephenson,Stephenson Paul,2000-06-29 Byzantium's Balkan Frontier is the first narrative history in English of the northern Balkans in the tenth to twelfth centuries. Where previous histories have been concerned principally with the medieval history of distinct and autonomous Balkan nations, this study regards Byzantine political authority as a unifying factor in the various lands which formed the empire's frontier in the north and west. It takes as its central concern Byzantine relations with all Slavic and non-Slavic peoples – including the Serbs, Croats, Bulgarians and Hungarians – in and beyond the Balkan Peninsula, and explores in detail imperial responses, first to the migrations of nomadic peoples, and subsequently to the expansion of Latin Christendom. It also examines the changing conception of the frontier in Byzantine thought and literature through the middle Byzantine period.

Ibn Fadlan and the Land of Darkness Ibn Fadlan,2012-07-26 In 922 AD, an Arab envoy from Baghdad named Ibn Fadlan encountered a party of Viking traders on the upper reaches of the Volga River. In his subsequent report on his mission he gave a meticulous and astonishingly objective description of Viking customs, dress, table manners, religion and sexual practices, as well as the only eyewitness account ever written of a Viking ship cremation. Between the ninth and fourteenth centuries, Arab travellers such as Ibn Fadlan journeyed widely and frequently into the far north, crossing territories that now include Russia, Uzbekistan and Kazakhstan. Their fascinating accounts describe how the numerous tribes and peoples they encountered traded furs, paid tribute and waged wars. This accessible new translation offers an illuminating insight into the world of the Arab geographers, and the medieval lands of the far north.

John Lewis Krimmel Milo M. Naeve,1987 John Lewis Krimmel was the first professional artist in the United States to base his reputation on the genre subject. The author's study documents the artist's career from three points of view: Krimmel's life in Europe and the United States from his birth in 1786 to his drowning in 1821; an analysis of his surviving works; and an interpretation of his relationship to contemporary American esthetic and intellectual movements. Historia Salonitanorum Atque Spalatinorum Pontificum Thomas (Spalatensis, Archdeacon),2006-01-01 This is the 4th volume of the series of Central European Medieval Texts, Latin and English bilingual editions of major historical documents. Ever since Thomas' Historia Salonitana was first published in 1666, it became a part of the corpus of European medieval literature. Thomas' aim was to write a history of the church of Split in order to prove that it was legally and justly the heir of the metropolitan rights of nearby Salona, an episcopal see from the 4th century. His reports on the fourth and fifth crusade and the Mongol invasion of 1241-2, are based on personal experience or on eyewitness reports.
