**The Airbus A380** Graham Simons, 2014-08-13 Every 7 minutes, an A380 takes off or lands somewhere in the world...??The Airbus was initially designed and developed in order to provide a contender to the Boeing's growing monopoly of the skies in the biggest large-aircraft market in the world. Ambitious in design, the undertaking seemed mammoth. Yet scores of aviation engineers and pilots worked to get the design off the ground and the Airbus in our skies. This double-decker, wide-body, 4 engine jet airliner promised to redefine expectations when it came to commercial flight. Five years on from its launch, Graham Simons provides us with this, an impressively illustrated narrative history of the craft, its achievements, and the legacy it looks set to provide to a new generation of aviation engineers, enthusiasts and passengers.??Operated by airlines such as Emirates, Singapore Airlines, Qantas and Lufthansa, the story of the A380 could be said to represent the story of modern-day travel itself, characterised by major technological advances across the world that constantly push the boundaries of expectation. ??Sure to appeal broadly across the market, this is very much a commemorative volume, preserving the history of this iconic craft in words and images.

**Contract Law in South Africa** Louis F. van Huyssteen, Catherine J. Maxwell, 2021-02-22 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of the law of contracts in South Africa covers every aspect of the subject-definition and classification of contracts, contractual liability, relation to the law of property, good faith, burden of proof, defects, penalty clauses, arbitration clauses, remedies in case of non-performance, damages, power of attorney, and much more. Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology, application, and procedure from one legal system to another, as well as the international aspects of contract law. Throughout the book, the treatment emphasizes drafting considerations. An introduction in which contracts are defined and contrasted to torts, quasi-

contracts, and property is followed by a discussion of the concepts of 'consideration' or 'cause' and other underlying principles of the formation of contract. Subsequent chapters cover the doctrines of 'relative effect', termination of contract, and remedies for non-performance. The second part of the book, recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it, describes the nature of agency, sale, lease, building contracts, and other types of contract. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in South Africa will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative contract law.

A Passion for Poetry Maril Ozanne Garrison,2013-06 A PASSION FOR POETRY Why poetry? Why has this ancient craft existed throughout time, continuing even into our fast-paced age of moderncy and technology? Perhaps two reasons: 1) The human condition still demands we ask who we are, what we are and why we are; and 2) space is limited in this form of writing requiring the poet reduce his thoughts into a quick-read format. Puns, pundits, quotes, poetry and prose capsule 90% of everything the human race believes to be important and true Poets are avatars who define the nature and meaning of our roles. They reduce the fabric of our existence to the simplest ingredients of mind, soul, bones, sinew and desire. It is the forum that speaks to all, reaches all, touches all,

teaches all, questions all, answers all.

*Globalization, Neo-conservative Policies, and Democratic Alternatives* John Loxley,2005 Over the course of the last two decades, governments around the world implemented a fundamental shift in the mainstream economic policy and ushered in a period of globalization. These changes, which are commonly known as neo-conservative, were resisted by a range of social forces, from workers to farmers, in the universities and on the streets. With its diverse international perspectives of globalization and formulations of alternative economic policies, this volume of essays responds to and posits alternatives for the uncreative and unjust policy decisions of world governments that negatively affect the welfare of the world's indigent people. This book's unifying theme is the principle of social justice that motivates Loxley's life and work. Loxley, an economist, is perhaps best known for his work in South Africa (as an advisor to Nelson Mandela during the transition from apartheid) and with First Nations communities in his native Canada. Many of the 19 essays explore the impact of globalization on the developing world, particularly Africa. A comprehensive and expansive exploration of the global impact of neo-conservative economic policies from an internationally diverse group of scholarly voices.
