Healthy Beauty Samuel S. Epstein,Randall Fitzgerald,2011-01-04 Anti-aging products are the fastest growing sector of the cosmetics industry as women and men are becoming rapidly more obsessed with looking and feeling young. Splashy ads and commercials are everywhere we turn, promising to keep our appearances fresh and our partners satisfied. But do consumers really know what they're applying to their faces and bodies in their quests for youth and beauty? Do they know the health risks they're taking by simply applying lipstick, face moisturizer or deodorant? Toxic beauty products clutter the shelves at retail stores everywhere, and consumers don't know the avoidable risks they're taking by following a simple beauty regimen. Written by Dr. Samuel S. Epstein, a founder and chairperson of the Cancer Prevention Coalition, Healthy Beauty gives the lowdown on salon safety, health risks hiding in everyday products, how we put our children in danger and more. Healthy Beauty will also educate you and your family on easily implemented solutions through the use of a variety of positive alternatives. In Healthy Beauty, you will learn: • How beauty products can affect your children before they're born • The brutal carelessness producers use when creating products for women and children • The risks taken when you step into a salon • Toxins in men's products such as deodorant, cologne and aftershave • How to protect yourself and your family by reading labels and identifying

potentially hazardous ingredients Through the help of Dr. Epstein and Healthy Beauty, you can protect yourself from the possible long-term effects of a simple beauty product.

Not Just a Pretty Face Stacy Malkan,2007-10-01 Lead in lipstick? 1,4 dioxane in baby soap? Coal tar in shampoo? How is this possible? Simple. The $35 billion cosmetics industry is so powerful that they've kept themselves unregulated for decades. Not one cosmetic product has to be approved by the US Food and Drug Administration before hitting the market. Incredible? Consider this: The European Union has banned more than 1,100 chemicals from cosmetics. The United States has banned just 10. Only 11% of chemicals used in cosmetics in the US have been assessed for health and safety - leaving a staggering 89% with unknown or undisclosed effects. More than 70% of all personal care products may contain phthalates, which are linked to birth defects and infertility. Many baby soaps are contaminated with the cancer-causing chemical 1,4 dioxane. It's not just women who are affected by this chemists' brew. Shampoo, deodorant, face lotion and other products used daily by men, women and children contain hazardous chemicals that the industry claims are within acceptable limits. But there's nothing acceptable about daily multiple exposures to carcinogenic chemicals -- from products that are supposed to make us feel healthy and beautiful. Not Just a Pretty Face delves deeply into the dark side of the beauty industry, and looks to hopeful solutions for a healthier future. This scathing investigation peels away less-than-lovely layers to expose an industry in dire need of an extreme makeover. 15 percent of the purchase price of each book sold benefits the national Campaign for Safe Cosmetics, administered by the Breast Cancer Fund, through December 31, 2012.

Safecracker Dave McOmie,2021-07-01 Like a character in a Hitchcock movie, Dave

McOmie travels the country breaking into bank vaults, cracking jewelry store safes, and decoding unbreakable codes secured deep in government facilities. He's never been arrested or charged with a crime—because it's his job! Safecracker reveals a shadowy world where tumblers are twirled, skeletons are exposed, and longstanding mysteries are solved. You'll ride shotgun with Dave for one crazy week, beginning with an impenetrable vault in Vegas with a midnight deadline, and ending with Prince's ultra-secure music vault in the basement of Paisley Park. In between are factual stories that read like fiction: drilling the same model ATM from the notorious episode of Breaking Bad, meeting a mystery man from the Department of Defense at a remote location to crack two high-security safes, chronicling the corruption and ineptitude that dogged efforts to develop the first electronic safe lock to guard our national secrets, tackling a hundred-year-old antique bank vault in downtown Salt Lake City, and more. What's in all these safes and vaults? Gold and silver, drugs and cash, guns and ammo, family heirlooms and X-rated paraphernalia . . . and a few secrets that should have remained secret. Shhhhh!
