Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Leave It to Fate** Beth Corby,2020-11-26 When all else fails, you just have to leave it to Fate . . . Just as twenty-nine-year-old Ella loses her dream job after an unfortunate incident (it was just a bit of hot sauce, for goodness' sake - he totally overreacted!), her phone rings. Her aunt Gillian, who lives in a tiny mountain village, has had a fall and needs her help. Ella gives in to Fate and agrees to go, looking forward to a few quiet weeks to work out what to do with her car crash of a life But as soon as she gets there, she realises it's not going to be the idyllic break she had hoped for. With Gillian struggling after the recent loss of her partner, Mike, Ella promises herself that she will show Gillian that life is still worth living - and will certainly not be distracted from her new purpose by Joe, Mike's disconcertingly handsome nephew . . . Has Fate brought Ella and Gillian together at just the right time for them both? And do her plans extend to Ella's love life, as well? This funny, romantic and uplifting novel is perfect for fans of Jo Watson, Laura Jane Williams and Sophie Kinsella. Readers love Beth Corby! 'A great read for fans of Sophie Kinsella. I was drawn in instantly - 5 STARS' 'Enchanting . . . made me smile, laugh, wonder and want to experience more of life for myself - 5 STARS' 'This is a perfect read to take to the beach - 5 STARS' 'A hugely enjoyable, fresh, original read - 5 STARS' 'Fun, light-hearted and enjoyable . . . Love, love, love! - 5 STARS' 'I absolutely love this book - 5 STARS'

Images of Colonialism and Decolonisation in the Italian Media Paolo Bertella Farnetti,Cecilia Dau Novelli,2017-11-06 The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African “Other” across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

**Encounter Images in the Meetings Between Africa and Europe** Mai Palmberg,2001 Positive images of Africa contrast with negative images of misery, war and catastrophes often conveyed by the mass media. This selection of papers debate the images and stereotypes of Africa.

**Where There's a Will** Beth Corby,2020-06-02 Would you take the chance that could change everything? After leaving university at the age of twenty-five with no idea what to do with her life, Hannah is stunned when she is left a mystery bequest by her rich, estranged great-uncle Donald. But there's a catch: before she can find out what she's inherited, she must undertake a series of unknown tasks alongside Alec, Donald's reluctant (but rather gorgeous) PA. As the tasks progress and she and Alec grow closer, Hannah begins to think that Donald's real gift might have more to do with love than money . . . This funny, romantic and uplifting novel is perfect for fans of Sophie Kinsella, Cathy Hopkins and Anna Bell. Readers are loving WHERE THERE'S A WILL! 'A great read for fans of Sophie Kinsella. I was drawn in instantly - 5 STARS' 'Enchanting . . . made me smile, laugh, wonder and want to experience more of life for myself - 5 STARS' 'This is a perfect read to take to the beach - 5 STARS' 'A hugely enjoyable, fresh, original read - 5 STARS' 'Fun, light-hearted and enjoyable . . . Love, love, love! - 5 STARS' 'I absolutely love this book - 5 STARS'

**Birthday Suit** Lauren Blakely,2019-01-14 Ten years ago Leo Hennessey broke a major Man Code rule: do not-- under any circumstances-- fall in love with your best friend's woman. He's managed to keep it secret, and built up his career as an executive at a chocolate company named Heavenly. But now Lulu Diamond is divorced, starting a new life, and just opened up her own chocolate shop. And she's walked back into Leo's life In a big way... at a trade show, they are paired up for a riddle-filled, race-against-the-clock scavenger hunt across New York City. Temptation never tasted so good.... -- adapted from back cover and perusal of book

*A Naturalist's Guide to the Great Plains* Paul A. Johnsgard,2018 This book documents nearly 500 US and Canadian locations where wildlife refuges, nature preserves, and similar properties protect natural sites that lie within the North American Great Plains, from Canada's Prairie Provinces to the Texas-Mexico border. Information on site location, size, biological diversity, and the presence of especially rare or interesting flora and fauna are mentioned, as well as driving directions, mailing addresses, and phone numbers or internet addresses, as available. US federal sites include 11 national grasslands, 13 national parks, 16 national monuments, and more than 70 national wildlife refuges. State properties include nearly 100 state parks and wildlife management areas. Also included are about 60 national and provincial parks, national wildlife areas, and migratory bird sanctuaries in Canada's Prairie Provinces. Many public-access properties owned by counties, towns, and private

organizations are also described.

Zoo Animal Welfare Terry Maple,Bonnie M Perdue,2013-03-22 Zoo Animal Welfare thoroughly reviews the scientific literature on the welfare of zoo and aquarium animals. Maple and Perdue draw from the senior author's 24 years of experience as a zoo executive and international leader in the field of zoo biology. The authors' academic training in the interdisciplinary field of psychobiology provides a unique perspective for evaluating the ethics, practices, and standards of modern zoos and aquariums. The book offers a blueprint for the implementation of welfare measures and an objective rationale for their widespread use. Recognizing the great potential of zoos, the authors have written an inspirational book to guide the strategic vision of superior, welfare-oriented institutions. The authors speak directly to caretakers working on the front lines of zoo management, and to the decision-makers responsible for elevating the priority of animal welfare in their respective zoo. In great detail, Maple and Perdue demonstrate how zoos and aquariums can be designed to achieve optimal standards of welfare and wellness.

*Video Game Spaces* Michael Nitsche,2008-12-05 An exploration of how we see, use, and make sense of modern video game worlds. The move to 3D graphics represents a dramatic artistic and technical development in the history of video games that suggests an overall transformation of games as media. The experience of space has become a key element of how we understand games and how we play them. In *Video Game Spaces*, Michael Nitsche investigates what this shift means for video game design and analysis. Navigable 3D spaces allow us to crawl, jump, fly, or even teleport through fictional worlds that come to life in our imagination. We encounter these spaces through a combination of perception and interaction. Drawing on concepts from literary studies, architecture, and cinema, Nitsche argues that game spaces can evoke narratives because the player is interpreting them in order to engage with them. Consequently, Nitsche approaches game spaces not as pure visual spectacles but as meaningful virtual locations. His argument investigates what structures are at work in these locations, proceeds to an in-depth analysis of the audiovisual presentation of gameworlds, and ultimately explores how we use and comprehend their functionality. Nitsche introduces five analytical layers—rule-based space, mediated space, fictional space, play space, and social space—and uses them in the analyses of games that range from early classics to recent titles. He revisits current topics in game research, including narrative, rules, and play, from this new perspective. *Video Game Spaces* provides a range of necessary arguments and tools for media scholars, designers, and game researchers with an interest in 3D game worlds and the new challenges they pose.

*Wildlife Tourism* Karen Higginbottom,2004 This is a comprehensive volume on the subject of wildlife tourism, written by experts in the field and drawing on a wide range of disciplines. It covers the full scope of wildlife tourism, including zoos, wildlife watching, hunting and fishing. Also includes a up to date review of the issues of wildlife tourism.

*What Planet Can I Blame This On?* Ellie Pilcher,2021-06-03 Perfect job. Perfect boyfriend. Perfect life. But the universe had other ideas... The funniest book you'll read all year! Perfect for fans of Beth O'Leary, Mhairi McFarlane and Lucy Vine. 'Utterly swoon worthy' 'Just great fun' 'Fresh, funny and fascinating' 'A stunning debut' The stars are not in position - and Krystal Baker is determined to make them fall in line. It's Krystal's 29th birthday. This year: · Her boyfriend finally proposed after six years of dating (only for her to find out he cheated on her for five and a half of them) · She landed her dream job as a writer at Craze magazine (which swiftly fell into administration) · She moved into her dream flat overlooking the city (just for the pipes to explode making the place unliveable) As she mourns everything wrong in her life, her best friend mutters the dreaded words: Saturn Return. The time in a woman's life where Saturn returns to the position it was in on the day of their birth, 29.5 years ago, and, according to legend, everything falls apart. Krystal has never bought into astrology but maybe it's time to re-evaluate - because if the stars got her into this mess, they can get her out of it. And she only has six months to make things right. Loaded with crystals, horoscopes, tarot cards and a carefully aligned chakra or two, Krystal's determined to have her life back on track by the time Saturn returns. No longer shall she brand herself a 'human disaster' because this time it's not her fault, it's written in the treacherous stars. But can Krystal learn to follow her heart, not her horoscope? Praise for Ellie Pilcher: 'Laugh-out-loud funny, brilliantly written and utterly swoon worthy, What Planet Can I Blame This On? is the book we all need right now. Such a fun read!' - Holly Martin, author of Autumn Skies over Ruby Falls 'Perfect reading for twenty and thirty-somethings, written in the language of failed relationships and the hope for something better. Wry, witty, insightful, fast-paced and just great fun, this is a fabulous debut. It represents so much of what people go through on the pathway to finding out what they really want. It's going to be a hugely popular read.' - Helen Fields, author of the DI Callanach thrillers 'It's rare that a book really makes me laugh out loud, but this one did. Krystal's sassy, authentic narration carries the reader effortlessly as she prepares for her 'Saturn Return' and delves into its meaning. I felt as if I were living her problematic life with her! I think I fell in love with Ryan a little before she did . . . ' - Sue Moorcroft, author of One Summer in Italy 'A joyous romp into the highs and pitfalls of following your stars.' - Beth Corby, author of Leave It To Fate 'What a stunning debut this is! I loved the cast of Krystal and her friends. Throw in a new interest in horoscopes and an episode of Hoarders (I've watched the whole series during lockdown) then this is the perfect read, even if it isn't always written in the stars! An author to look out for!' - Catherine Miller, author of Waiting For You 'Fresh, fun and fascinating from an exciting new talent.' - Bella Osborne, author of Meet Me at Pebble Beach 'It's fresh, wise and hugely funny and real - a celebration of that tricky late twenties stage when you reckon you should have it all figured out - but definitely haven't. When neither your horoscopes - nor even your very best friends - have all the answers. I loved it!' - Fiona Gibson, author of The Dog Share 'Delightful, fun and full of laugh-out-loud moments' - Gillian Harvey, author of Perfect On Paper

Communicating Protected Areas Denise Hamú,Elisabeth Auchincloss,Wendy Goldstein,2004 Protected areas operate within complex ecological and social systems, presenting challenges that cannot be resolved by technical solution alone. Achieving the management objectives of protected areas requires a social approach in which strategic communication is a key instrument. This publication explores the often underestimated potential of communication, sharing valuable experiences from protected areas across the world, drawing on papers presented at the Vth IUCN World Parks Congress, 2003 and others.

**Producing Nature and Poverty in Africa** Vigdis Broch-Due,Richard A. Schroeder,2000 Drawing on case studies from eight different countries, the contributors to this

provocative collection of essays demonstrate quite clearly that environmental programmes often have direct and far-reaching consequences for the distribution of wealth and poverty and that they constitute one of the major forms of foreign and state intervention in contemporary African affairs.

**Invisible Sun** Charles Stross,2021-09-28 The alternate timelines of Charles Stross' Empire Games trilogy have never been so entangled than in Invisible Sun—the techno-thriller follow up to Dark State—as stakes escalate in a conflict that could spell extermination for humanity across all known timelines. An inter-timeline coup d'état gone awry. A renegade British monarch on the run through the streets of Berlin. And robotic alien invaders from a distant timeline flood through a wormhole, wreaking havoc in the USA. Can disgraced worldwalker Rita and her intertemporal extraordaire agent of a mother neutralize the livewire contention before it's too late? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Paleontological Collections of Germany, Austria and Switzerland Lothar A. Beck,Ulrich Joger,2018-11-19 This book is devoted to 250 years of collecting, organizing and preserving paleontological specimens by generations of scientists. Paleontological collections are a huge resource for modern research and should be available for national and international scientists and institutions, as well as prospective public and private customers. These collections are an important part of the scientific enterprise, supporting research, public education, and the documentation of past biodiversity. Much of what we are beginning to understand about our world, we owe to the collection, preservation, and ongoing study of natural specimens. Properly preserved collections of fossil marine or terrestrial plants and animals are archives of Earth's history and vital to our ability to learn about our place in its future. The approach employed by the editors involves not only an introduction to the paleontological collections in general, but also information on the international and national collection networks. Particular attention is given to new exhibition concepts and approaches of sorting, preserving and researching in paleontological collections and also their neglect and/or threat. In addition, the book provides information on all big public museums, on important state museums and regional Museums, and also on university collections. This is a highly informative and carefully presented book, providing scientific insight for readers with an interest in fossil record, biodiversity, taxonomy, or evolution, as well as natural history collections at large.
