A Garden to Save the Birds Wendy McClure,2021-04-01 ALA Top 10 Sustainability-themed Children's Books 2022 A brother and sister learn that small changes can make a big difference. When a bird flies into their window by accident, Callum and his sister, Emmy, learn that from the outside, the glass looks just like the sky. They also learn that the United States has lost a lot of birds in recent years—and that there are lots of things their family can do to help. First, they set out feeders and make the windows safe. Then, for the winter, they build a little shelter and put out a heated birdbath. By springtime, all kinds of birds are visiting their yard! But with such a big problem, is there more they can do to make a difference?

The Hat That Killed a Billion Birds Arthur G. Sharp,2024-02-16 During the late 1800s and early 1900s, it was common practice for milliners to decorate women's hats with birds' feathers and plumes--and sometimes with the birds themselves. As many as 300 million birds per year were killed for this fashionable enterprise, causing the extinction of some entire species and the endangerment of others. Lawmakers and bird aficionados were slow to react to the effects of this practice, which went on almost unabated for a quarter of a century. Then, noted naturalists like George Bird Grinnell, William T. Hornaday, and President Theodore Roosevelt, who recognized the economic benefits birds provided, banded together to pass meaningful legislation to protect them and to curb the production of murderous millinery. This book explores the troubled history of millinery and its complicated relationship to birds and conservation. It explores why it took so long for the slaughter to end and how the efforts of individuals and groups brought about change.
