### **Machinations of the Space Princess (Monochrome)**

James Desborough, 2018-06-29 Machinations of the Space Princess is a Science-Fantasy role-playing game. That means it's very much about style over substance, mixing science-fiction, magic and psionics in a game world that owes much more to Metal Hurlant and Star Wars than it does to 2001 or Bova's Grand Tour. This is a game of strangeness and fun, of space pirates and beautiful alien princesses, of living planets and robot hordes, of blasters at noon. This is... Sexy, sleazy, swords and sci-fi! A full game combining old and new school thinking, packed with GM and player advice and with simple tools for creating your own monsters, adversaries, weapons, armour, ships and alien races.

**The Book of the Goons** Spike Milligan, Peter Sellers, Harry Secombe, 1984 A volume of genuine correspondence between the Goons, which also includes a selection of faithfully reproduced Goon Show scripts.

Ripping England! Roger Rawlings, 2017-12-04 Examines an all too often neglected period of postwar British cinema and popular culture. Ripping England! investigates a fertile moment for British satire—the period between 1947 and 1953, which produced the films Passport to Pimlico, Kind Hearts and Coronets, and The Lavender Hill Mob, as well as the seminal radio program The Goon Show. Against the postwar background of fading empire, universal rationing, and the implementation of a welfare state, these satires laid the foundation for a new British cultural identity later fleshed

out by the Angry Young Men, the Movement poets, the Social Realists, and those involved in the satire boom of the 1960s, which lives on even to this day. The peculiarity of these satires and the British identity they shaped is better understood when seen in relief against postwar cinematic cultures of Italy, France, and the United States. Roger Rawlings places postwar British film in the context of contemporaneous European national film movements and contrasts it with Hollywood's comedies and satires of the same period. British satires of the late forties and early fifties held up a mirror to a nation that was in the throes of change, moving from a colonial empire to an inward-turning island culture. *Ripping England!* looks at the all too often neglected miracle of postwar British cinema and popular culture.

**A Visit from the Goon Squad** Jennifer

Egan, 2011-03-22 NATIONAL BESTSELLER • NATIONAL BOOK CRITICS CIRCLE WINNER • With music pulsing on every page, this startling, exhilarating novel of self-destruction and redemption features characters about whom you come to care deeply as you watch them doing things they shouldn't, acting gloriously, infuriatingly human (*The Chicago Tribune*). Bennie is an aging former punk rocker and record executive. Sasha is the passionate, troubled young woman he employs. Here Jennifer Egan brilliantly reveals their pasts, along with the inner lives of a host of other characters whose paths intersect with theirs. "Pitch perfect.... Darkly, rippingly funny.... Egan possesses a satirist's eye and a romance novelist's heart." —*The New York Times Book Review*

**Cepheus Light** Omer Golan-Joel, Josh

Peters, 2018-11-12 Cepheus Light is a set of rules for playing classic science fiction games. It includes rules on creating characters, resolving actions, fighting other creatures, and engaging in space battles, generating worlds, handling the risks of interstellar speculative trading, exploring new worlds, and many other activities. While rules-light and designed for fast, action-packed play rather than an accurate simulation of reality, Cepheus Light encompasses a wide variety of rules and materials for building a science-fiction universe and playing in it. Cepheus Light draws its inspiration from old-school science-fiction roleplaying games. It shares a lot of similarities with these games. Material from older rules sets and those created with Cepheus Light, the Cepheus Engine Core, and old-school sci-fi

roleplaying games are easily compatible with only a moderate amount of adjustment. The future awaits! Compatible with the Cepheus Engine System Reference Document and other OGL 2D6 Sci Fi games.

**In the Valley of Historical Time** Abhinav Sinha, 2024-04-25 The descent of working class movements that began with neoliberal globalization is nearing completion. However, the ascent is yet to begin. This period is witnessing novel forms of organization and resistance. For students, activists and academics, it is imperative to understand changes in the modus operandi of capital since the 1970s to explain the crisis of conventional trade unionism, as well as the

spontaneous outbursts of creativity in movements of informal workers in recent times. Delhi has been a centre of such innovative experiments. In the Valley of Historical Time attempts to understand these new forms and strategies and possibilities of resurgence of working class movements.

### **Saving the Gray Whale** Serge Dedina, 2000-01-01

Once hunted by whalers and now the darling of

ecotourists, the gray whale has become part of the culture, history, politics, and geography of Mexico's most isolated region. After the harvesting of gray whales was banned by international law in 1946, their populations rebounded; but while they are no longer hunted for their oil, these creatures are now chased up and down the lagoons of southern Baja California by whalewatchers. This book uses the biology and politics associated with gray whales in Mexican waters to present an unusual case study in conservation and politics. It provides an inside look at how gray whale conservation decisions are made in Mexico City and examines how those policies and programs are carried out in the calving grounds of San Ignacio Lagoon and Magdalena Bay, where catering to ecotourists is now an integral part of the local economy. More than a study of conservation politics, Dedina's book puts a human face on wildlife conservation. The author lived for two years with residents of Baja communities to understand their attitudes about wildlife conservation and Mexican politics, and he accompanied many in daily activities to show the extent to which the local economy depends on whalewatching. It is ironic, observes Dedina, that residents of some of the most isolated fishing villages in North America are helping to redefine our relationship with wild animals. Americans and Europeans brought the gray whale population to the brink of extinction. The inhabitants of San Ignacio Lagoon and Magdalena Bay are helping us to celebrate the whales' survival. By showing us how these animals have

helped shape the lifeways of the people with whom they share the lagoons, *Saving the Gray Whale* demonstrates that gray whales represent both a destructive past and a future with hope.
