THE TRIAL OF LESTER CHAN Martin Wilson, 2019-10-22 When Lester Chan, the 'Jewellery King' of Hong Kong, is charged with a banking fraud, Jonathan Savage, a middle-ranking QC who is used to a professional diet of murder and mayhem, and who has never before worked outside of England, is sent out to defend him. Also caught up in the defence case is Frank Grinder, a retired solicitor. For the Prosecution, Graham Trickett, a member of the Hong Kong Government Legal Department, has been put in charge and is completely out of his depth. The trial judge, Mr Justice O'Brien relishes his reputation for efficiency, but trouble at home keeps him preoccupied. In this light-hearted novel, a host of humorous characters reveal what it is like to be involved in a criminal case against a backdrop of life in Hong Kong.

Christian Sorcerers on Trial Kate Wildman Nakai, Mark Teeuwen, Fumiko Miyazaki, 2020-07-07 In 1829, three women and three men were paraded through Osaka and crucified. Placards set up at the execution ground proclaimed their crime: they were devotees of the "pernicious creed" of Christianity. Middle-aged widows, the women made a living as mediums, healers, and fortune-tellers. Two of the men dabbled in divination; the third was a doctor who collected books in Chinese on Western learning and Christianity. This was a startling development. No one in Japan

had been identified and punished as a Christian for more than a century, and now, avowed devotees of the proscribed sect had appeared in the very heart of the realm. Just decades before the arrival of Perry's black ships and the fall of the Tokugawa shogunate, the incident reignited fears of Christians as evil sorcerers, plotting to undermine society and overthrow the country. *Christian Sorcerers on Trial* offers annotated translations of a range of sources on this sensational event, from the 1827 arrest of the alleged Christians through the case's afterlife. The protagonists' testimonies relate with striking detail their life histories, practices, and motivations. The record of deliberations in Edo and communications between Osaka and Edo officials illuminate the operation of the Tokugawa system of criminal justice. Retellings of the incident show how the story was transmitted and received. Translated and put in context by Fumiko Miyazaki, Kate Wildman Nakai, and Mark Teeuwen, the sources provide students and scholars alike with an extraordinarily rich picture of late Edo social life, religious practices, and judicial procedures.

The Tokyo Trial Diaries of Mei Ju-ao Mei Ju-ao, 2019-06-15 Written by Chinese Jurist Mei Ju-ao, this significant book considers both the process and the impact of the International Military Tribunal for the Far East, otherwise known as the Tokyo Trial, which was convened in 1946 to try political military leaders accused of involvement in war crimes. Offering valuable research material on the establishment of the tribunal, it examines the background to the establishment of the International Military Tribunal and the lessons learned from earlier trials of World War One War Criminals. Written from the perspective of a Chinese prosecutor who was both jurist and witness, this unique text engages with the Tokyo Trial from an interdisciplinary perspective bringing in both international law and international relations, measuring over 7 decades later the significance and ongoing legacy of the Tokyo Trial for contemporary international criminal justice in Asia and beyond..

Neuroeconomics Peter Politser, 2008-03-12 As technology has opened new windows into the brain, it has clarified what happens there when people make decisions about money. This clarity has produced a new science called neuroeconomics, which addresses diverse questions, such as why people save, buy stocks, steal, and overspend. The many different methods used in neuroeconomics have, however, often yielded unclear findings about the quality of these decisions, primarily because the field has lacked both guidelines for categorizing the different aspects of quality, and guidelines for selecting methods to study these aspects. Before this book, in which Peter Politser guides the reader through the different regions of study, there was no scientific guide for those interested in neuroeconomics. Politser shows how to evaluate specific elements of choice, such as regret, expectation, risk, ambiguity, time preference, and learning, and surveys economic and behavioral models of decision making skills. He reviews the neural correlates of decisional impairments and inconsistenciesclarifying, for example, why we do not recall what we experience, experience what we expect, or like what we want, and provides detailed tables of decision-making skills, their neural correlates, and possible impairments. Politser also considers what the field of neuroeconomics may add to future conceptions of decision making, and outlines the limitations of various studies of different capacities. He then introduces a broader field for the design and interpretation of

neuroeconomic studies a neuroepidemiology of decision making. Everyone who wants to understand the research in neuroeconomics or use its methods should read this book. Its accessible text, along with an extensive glossary, will guide those with little economic or neuroscience background, and make the book an excellent supplement for courses on neuroscience and decision making.

Trial by Fire J.A. Jance, 2009-12-01 New York Times bestselling author J.A. Jance's sleuth Ali Reynolds is back for another thrilling adventure as she strives to grant a dying woman's last request—to find the people who nearly killed her. Ali Reynolds is back in the thick of it in the latest adventure in the New York Times bestselling suspense series. Taking on a media relations position with the Yavapai County Police Department, Ali puts her reporting (and crime solving) skills to good use—and her first time out on the job, it's trial by fire... When a subdivision-in-the-making goes up in flames, everyone hopes that the unfinished, unoccupied homes will yield no victims. But one woman is found barely alive and burned beyond recognition. She is taken to the ER, where for months she lies in a medically induced coma, unclaimed and unidentified. When she finally emerges from her coma, the life she awakens to is bleak and lonely. Badly disfigured and with no clue as to who she is or where she came from, she is brought to the nuns at a Sisters of Providence Convent. At the convent, she is nursed and cared for. But before she can begin her painful and difficult recovery, Jane Doe is diagnosed with a hopeless and swift-moving cancer. Now with sudden desperation, there are two things she must find out. Ali Reynolds is called upon to grant this dying woman's final wishes—to find the people who saved her life, and the people who tried to kill her.

American Visions: The United States, 1800-1860 Edward L. Ayers, 2023-10-24 A revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into dour critique or blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw

the expansion of slavery, Native dispossession, and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center; eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers's rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So, Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau who, speaking of John Brown, challenged a hostile crowd Is it not possible that an individual may be right and a government wrong? Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.

Justice at Trial James J Brosnahan,2023 From civil and criminal trials, all the way to the Supreme Court James Brosnahan saw it all in his career of suspenseful courtroom work--

The Guns of Lattimer ,1996-01-01 On September 10, 1897, in the hamlet of Lattimer Mines, Pennsylvania, an armed posse took aim and fired into a crowd of oncoming mine workers, who were marching in their corner of the coal-mining region to call their fellow miners out on strike. The marchers - Poles, Slovaks, Hungarians, most of whom could not yet speak English - were themselves armed only with an American flag and a timid, budding confidence in their new found rights as free men in their newly adopted country. The mine operators took another view of these rights and of the strange, alien men who claimed them. When the posse was done firing, nineteen of the demonstrators were dead and thirty-nine were seriously wounded. Some six months later a jury of their peers was to exonerate the deputies of any wrong-doing. This long-forgotten incident is here movingly retold by Michael Novak, himself the son of Slovak immigrants and one of our most gifted writers and social observers. In his hands, the so-called Lattimer Massacre becomes not only a powerful story in its own right (and an invaluable key to the history of the growth of the United Mine Workers), but an allegory of that peculiarly American experience undergone over and over again throughout the land, and down to this very day; the experience of new immigrants, still miserable with poverty and bewilderment and suffering the trauma of culture shock, being confronted by the hostility and blind contempt of the real Americans. In Michael Novak's uniquely vivid account, the incident at Lattimer is seen as a tragedy brought on not so much by inhumanity as by the profound failure of majority WASP society to understand the needs and responses of foreigners. The Guns ofLattimer is a gripping book that tells Americans, old and new, a great deal about themselves and the society they live in.
