On Video Roy Armes, 2006-05-23 Though video systems are now growing ever more accessible, and practical video work is undertaken at every level of education, this is the first book-length historical and theoretical study of the medium. *On Video* explores video on two levels: first, it examines the relationship between technology and society; and second, it probes the connection between production methods and the communication of meaning.

*Behind the Motion-picture Screen* Austin Celestin Lescarboua, 1919

*Screen Time* Richard Rinehart, 2022-01-21 Published on the occasion of the art exhibition *Screen Time: Photography and Video Art in the Internet Age*, this catalog features a selection of leading international artists who engage with and critique the role of media in contemporary society. Their work demonstrates what has become known as post-internet artistic practices—art that may or may not be made for the internet but nevertheless acknowledges online culture as an omnipresent influence, inseparable from contemporary social conditions. They ask what it means to be a photographer when everyone is an Instagram influencer; what it means to make video art when everyone is a TikTok video star; and how to deliver meaningful social commentary in the age of the meme. The exhibition and accompanying catalog showcase artwork by N. Dash, Nathalie Djurberg, Marcel Dzama, Peter Funch, Cyrus Kabiru, William Kentridge, Christian Marclay, Marilyn Minter, Vik Muniz, Otobong Nkanga, Erwin Olaf, Robin Rhode, Vee Speers, Mary Sue, Puck Verkade, Huang Yan. Published by Bucknell University Press for the Samek Art Museum. Distributed worldwide by Rutgers University Press.

*Digital Video Hacks* Joshua Paul, 2005-05-27 Since the dawn of film, novices and experts have used quick-and-dirty workarounds and audiovisual tricks to improve their motion pictures, from home movies to feature films. Today, the tools have certainly changed, as have the quality and scope of the results. With digital video, the hacking possibilities are now limitless, for both amateurs and professional artists. From acquiring footage, mixing, editing, and adding effects to final distribution, *Digital Video Hacks* provides unique tips, tools, and techniques for every stage of video production. You'll learn how to: Get your projects started right using creative preparation tools and techniques, from making your own steadicam, boom, or dolly to effective storyboarding, timecoding, and tape labeling Troubleshoot common shooting problems, including using stop-motion and time-lapse techniques, lighting effects, colored screens and gels, and household objects to establish mood or otherwise wow an audience Create stunning visual effects, such as satellite zooming, surreal scenes, Matrix-like bullet-time, and green screen illusions Fool your audience with audio tricks, replacing flubbed dialogue, smoothing over cuts, and covering missing audio with room tone Add professional features with post-production tricks, including color correction, soundtrack cleanup, opening sequences, and DVD bookmarks Distribute final content in a variety of creative ways, from exporting to basic videotape or DVD to streaming over the internet or even via cell phone Use the web to provide interactivity and dynamic content, attend a remote conference, or vlog your life. Whether you're looking for a new technique to include in your next project, a solution to a common problem, or just a little inspiration, this book reintroduces you to the digital video you only thought you knew.

*Screens Producing & Media Operations* Laura Frank, 2019-10-22 Media servers have established themselves as the dominant video playback tool for live events; however, the practice of delivering content to these systems and the structure of the media operations team is still evolving. This book outlines a workflow for video content delivery and describes team communication that can be applied to any entertainment production including: television specials, concert touring, corporate events, theater, as well as special events, film, large audience marketing events, and multi-screen permanent installations. This workflow is hardware and software independent, designed to evolve with future technologies as they become established in the field of multi-screen production, and has been proven professionally by the author and her peers over a decade of productions. The methodology presented will provide insights beneficial to students and current practitioners of media server technology, screens producers, and video content developers. Using real world examples of internationally recognized productions, a foundation is laid for best practices in Media Operations. Additional content, including full-color versions of the images inside the book, is available online.

**How Video Works** Diana Weynand, Vance Piccin, 2015-08-14 *How Video Works* raises the curtain on how video is created, scanned, transmitted, stored, compressed, encoded, delivered and streamed to its multitude of destinations. In today's digital world, every content creator—individual as well as network or corporation—must understand the process of how video works in order to deliver not only the best quality video, but a digital video file with the most appropriate specifications for each particular use. This complete guide covers key stages of video development, from image capture to the final stages of delivery and archiving, as well as workflows and new technologies, including Ultra High Definition, metadata, signal monitoring, streaming and managing video files – all presented in an easy to understand way. Whether you are a professional or new video technician discovering the ins and outs of digital distribution, this book has the information you need to succeed. The updated third edition contains: • New sections on image capture as well as streaming and video workflows • A hands-on approach to using digital scopes and monitoring the video signal • Thorough explanations of managing video files, including codecs and wrappers • In-depth coverage of compression, encoding, and metadata • A complete explanation of video and audio standards, including Ultra HD • An overview of video recording and storage formats • A complete glossary of terms for video, audio and broadcast

**Video Production** James C Foust, Edward J Fink, Lynne S Gross, 2017-05-12 This popular book introduces readers to the operations underlying video production. It provides thorough coverage of the theory readers need to know, balancing complexity with practical how-to information about detailed subjects, and it does so in a concise, conversational style. The authors have incorporated the major changes that have occurred in recent years; further increased the emphasis on digital, non-linear video production; updated and expanded information on mobile technologies; and added more than 25 new or updated figures. The subtitle remains *disciplines and techniques* because the book's focus continues to be on the fact that students need those foundations in order to be successful in video production, no matter where they may end up. Its affordable, student-friendly price, companion website, and print book and ebook options add to this book's practical nature.

**Silver Screen**, 2015 Using her iPhone, Tama Hochbaum (born 1953) grabs TV screenshots of classic movies favored by her mother, who died in February of 2012. *Silver Screen* traces her mother's legacy in a blend of visual technologies: celluloid transmitted via broadcast and rendered digitally, the TV screen and the ubiquitous iPhone. Tama Hochbaum is an artist/photographer living in Chapel Hill. Originally from New York, she received her BA from Brandeis University in Fine Arts and was awarded upon graduation a Thomas J. Watson Foundation Fellowship to study printmaking at Atelier 17 in Paris. She received her MFA in Painting from Queens College in NYC. She worked as a painter for 20 years before turning to photography. She has exhibited extensively in the Triangle including an exhibition entitled *Silver Screen* in July and August of 2014 at Daylight Project Space in Hillsborough, NC. A solo exhibition of her work entitled *Silver Screen: Dancers* was mounted in February of 2015 in San Francisco at George Lawson Gallery. Her work was included at the Miami/Basel Art Fair in December of 2014 and 2012 and was included at the PhotoLA fair in January of 2014, all with George Lawson Gallery.

Out of Order Ross Hockrow, 2014-06-25 Most video and film editors understand that the story is central to their work and that editing choices need to serve the telling of that story in the best way possible. What they may not know, however, are all the valuable techniques to making this craft

appear seamless and part of the busy editor’s normal workflow. This book takes an approach to editing that both beginners and intermediate editors will find refreshing. While other books approach the topic of editing by teaching the functions of the editing software, this book explains how you can make smart choices and use those functions to affect the story. In the book you’ll learn workflow tips, time saving techniques, linear and non-linear theory, cutting techniques, enhancing emotion through music and sound effects, leveling and mastering audio, color correction, and most importantly, the role editing can have on the telling of the story. Additional techniques are shown through multiple step-by-step videos available on the author’s site as well as clips from a documentary the author created on editing.

**Shoot, Edit, Share** Kirsten Johnson,Jodi Radosh,2016-09-13 Shoot, Edit, Share is an interactive, accessible introduction to video production techniques, concepts, and terminology. With the increasing availability of affordable video equipment, many students and professionals need to learn the basics of video production without being overwhelmed by technical details and equipment lists. Covering preproduction, production, editing in post, and distribution, this book shows you how to produce video quickly and effectively for a range of clients, from commercial firms to community service organizations. Key features include: A companion website including video interviews with professionals that demonstrate and reinforce techniques covered in the book; Service-learning exercises that engage readers in real-world learning experiences, encouraging them to interact with their communities and new clients; Clear, easy to follow and heavily illustrated guides for all of the equipment and processes that go into video production; Focus on creating stories for a target audience, and building convincing and engrossing narrative through videos; A thorough breakdown of all the techniques needed in post-production, through editing, well-designed graphics, and quality sound; A best-practices guide to viral videos, sharing video content online and increasing its exposure on social media sites; QR codes throughout the book, that when scanned, demonstrate video techniques and concepts related to what was read.

**Screen Mutations** Louisa Zahareas,2015-06-29 A photo book of my thesis project: We are now living in a time when the most dominant means of communication is the screen. This project explores a speculative scenario where our objects have mutated in reality but look normal on the screen to imagine a future where the virtual representation of things has become more significant than their actual use or experience.

The Portal Lawman Gail Daley, A fast-paced Sci-Fi novel of adventure, suspense and romance on a post-apocalyptic earth. Trapped in a web of deceit and danger, two young women make dangerous alliances. The end of the world had come and gone. Those who remained after the apocalypse did whatever it took to keep themselves alive, and to preserve what civilization survived. Sometimes they broke laws and defied the will of the draconian government agencies who were supposed to keep anarchy at bay. Lacey Delaney, head of Laughing Mountain's Portal committee, flouted government edicts by helping Portal Runners smuggle desperately needed goods, services, and people to the Forbidden Colonies. Joyce Higgins has a stalker who is terrorizing her and her young sisters. When she and her sisters are accused of being clones by the Parallel Genetic Agency, they take refuge in Laughing Mountain. A Clone isn't considered a human being with rights under the law, but the property of whoever created it. Deputy Mark Connors says he can protect them, but can he? Malachi Sullivan, sub-commander of the free militia, is one of those who hold the line against the tyranny of an overbearing government aided and abetted by powerful industrial giants. Lacey and Malachi had been in love once, but a treacherous woman broke them apart. Now they must put the past behind them and work together to save their town and preserve the secret of the Portal to the Forbidden Colonies.
