Lori Mestre

The Screenplay Business Peter Bloore,2013 The development of a film script is a long and complex process, initially creatively driven by the writer, but managed by a producer or development executive. This text examines the process and considers how to create the best processes and environments for developing stories and concepts for film.

Beowulf's Popular Afterlife in Literature, Comic Books, and Film Kathleen Forni,2018-06-12

Beowulf's presence on the popular cultural radar has increased in the past two decades, coincident with cultural crisis and change. Why? By way of a fusion of cultural studies, adaptation theory, and monster theory, *Beowulf's Popular Afterlife* examines a wide range of Anglo-American retellings and appropriations found in literary texts, comic books, and film. The most remarkable feature of popular adaptations of the poem is that its monsters, frequently victims of organized militarism, male aggression, or social injustice, are provided with strong motives for their retaliatory brutality. Popular adaptations invert the heroic ideology of the poem, and monsters are not only created by powerful men but are projections of their own pathological behavior. At the same time there is no question that the monsters created by human malfeasance must be eradicated.

Designing Effective Library Tutorials Lori Mestre,2012-10-23 Learning styles are highly relevant for students in the online environment. *Designing Effective Library Tutorials* provides

examples of, and steps for, how to create tutorials that match learning styles, based on usability studies of students from various cultural groups and styles of learning. The book presents studies, practical suggestions, and examples to assist librarians and faculty as they develop online programs for students from diverse learning styles. Research on learning style preferences in the online environment emphasizes the need to provide a variety of methods that include text, aural, visual, and kinesthetic examples. Geared for the practitioner working in online learning, the book summarizes current literature, and presents best practices for designing effective online tools for diverse learners, including suggestions for assessment of learning objects. This title is structured into twelve chapters, covering: The learning style debate: do we need to match up learning styles with presentation styles? Overview of learning style theories and learning style results from various studies; The intersection of culture and learning styles; The need for learning object development; Current practice: categories and features of library tutorials; Effective design of learning objects; Pedagogical considerations for tutorials; Interactivity options for tutorials; Assessment of learning objects; The value and process of usability studies; Marketing learning objects for broad visibility; and a section on resources. Provides results from usability studies conducted with students that assess learning style and the resulting effectiveness of tutorials based on their preferred style Compares approaches and

software used by librarians and educators to create tutorials, along with examples of pitfalls and benefits of each for various learning styles. Incorporates examples of ways to use software while including learning objects to match learning style.

The Screen of Change Peter Hopkinson, 2008. The account of a life spanning almost sixty years of work in the film industry in England, Hollywood, India, and throughout the world. Peter Hopkinson joined Denham Studios as a clapper loader at 16 and quickly became a camera assistant, working with directors like King Vidor and Michael Powell, and stars such as Marlene Dietrich and Robert Donat. In 1940 he joined the army and, working for the British Army Film and Photographic Unit, helped to film the Battle of Alamein, allied landings in Italy, partisan actions in Yugoslavia and Greece and the Japanese surrender in Siam (Thailand), among many other assignments. After the war he became a director-cameraman, mainly for the March of Time newsreels, continuing to film from war zones and trouble spots, but also creating documentaries (many of them award-winning) that analysed life in peacetime: politics, scientific advance, social upheaval in the developing world and changing lifestyles at home. In later life he was hired by UNESCO to pass on his mastery of documentary film-making to a new generation of international youth at the Film Institute of India. In this book Peter Hopkinson presents not just an account of his own amazing life and work but a lucid and comprehensive history of the moving image itself, the supreme

popular art form of our time. Includes more than 100 photographs. 'A history of the moving image told from the perspective of somebody who has experienced many of the major developments in the industry at first hand.' Melvyn Bragg (Controller Arts, London Weekend Television) A real contribution to the literature of film in the 20th century. Raymond Fielding (Dean and Professor School of Motion Picture Television and Recording Arts Florida State University)

A History of the Screenplay S. Price, 2013-11-26 The screenplay is currently the focus of extensive critical re-evaluation, however, as yet there has been no comprehensive study of its historical development. International in scope and placing emphasis on the development and variety of screenplay texts themselves, this book will be an important and innovative addition to the current literature.

Europe On-screen Dominique Chansel, Council of Europe. Council for Cultural Co-operation, 2001-01-01 Comprised of fact sheets on 50 films, illustrating 4 themes - nationalism, women, immigration and human rights -, it encourages teachers to exploit cinema as a source of 20th-century history and provides a pedagogical basis to do so. (from CoE website)

Macworld , 2004

Screenplay Keri Facer, John Furlong, Rosamund Sutherland, Ruth Furlong, 2003 It has been argued that we are witnessing the birth of a new digital generation. This fascinating book provides a thoroughly researched insight into how young people today are growing up with, learning from and using

computers in the home.

Inside the Hollywood Fan Magazine Anthony Slide, 2010-02-26 The fan magazine has often been viewed simply as a publicity tool, a fluffy exercise in self-promotion by the film industry. But as an arbiter of good and bad taste, as a source of knowledge, and as a gateway to the fabled land of Hollywood and its stars, the American fan magazine represents a fascinating and indispensable chapter in journalism and popular culture. Anthony Slide's *Inside the Hollywood Fan Magazine* provides the definitive history of this artifact. It charts the development of the fan magazine from the golden years when *Motion Picture Story Magazine* and *Photoplay* first appeared in 1911 to its decline into provocative headlines and titillation in the 1960s and afterward. Slide discusses how the fan magazines dealt with gossip and innuendo, and how they handled nationwide issues such as Hollywood scandals of the 1920s, World War II, the blacklist, and the death of President Kennedy. Fan magazines thrived in the twentieth century, and they presented the history of an industry in a unique, sometimes accurate, and always entertaining style. This major cultural history includes a new interview with 1970s media personality Rona Barrett, as well as original commentary from a dozen editors and writers. Also included is a chapter on contributions to the fan magazines from well-known writers such as Theodore Dreiser and e. e. cummings. The book is enhanced by an appendix documenting some 268 American fan magazines and includes detailed publication histories.

Apart Type Screenplay Everett C.

Borders, 2010-09-03 Apart Type a book screenplay An extreme close looks at the real origins of mankind & that path of conveyance. The story & content is extremely revealing & enlightening to some and controversial to others. This story borders on the crest of biblical & factual reality.

Screen International EuroGuide ,1996 The definitive guide to film television and video in Europe.

The Guerilla Film Makers Pocketbook Chris Jones, Genevieve Jolliffe, Andrew Zinnes, 2015-10-22 IF YOU'VE NEVER MADE A FILM BEFORE, THIS AMAZING BOOK WILL TELL YOU: * How other young film makers made their first movie and found massive success * How to take your great ideas and turn them into great films * How to build a team to make your movie now * How to harness cheap technology to make expensive looking films * How to avoid hundreds of pitfalls many other film makers will fall into * How to find audiences and even make money from your movie Veterans of the indie film scene, the authors have produced numerous low budget feature films, sold projects to Hollywood studios, come perilously close to an Oscar nomination, and even ended up in prison! They're also the team behind the best selling Guerilla Film Makers Handbooks series, selling over 100,000 copies around the world and they've taught thousands of emerging film makers the key skills needed to make their own great movies to launch a career. Their offices are at Ealing Studios in London and in Los Angeles.

Interviews with B Science Fiction and Horror

Movie Makers Tom Weaver, 2006-09-27 For fans of SF and horror films, will there ever be a decade to compare with the 1950s? Actors, directors, producers, and crews prevailed over microbudgets and four-day shooting schedules to create enduring films. This book turns a long-overdue spotlight on many who made memorable contributions to that crowded, exhilarating filmmaking scene. John Agar, Beverly Garland, Samuel Z. Arkoff, Gene Corman, and two dozen more reminisce about the most popular genre titles of the era. Lengthy, in-depth interviews feature canny questions, pointed observations, rare photos, and good fun.

Guide to the Silent Years of American Cinema
Christophe P. Jacobs, Donald McCaffrey, 1999-09-30
The latest offering from the Reference Guides to the World's Cinema series, this critical survey of key films, actors, directors, and screenwriters during the silent era of the American cinema offers a broad-ranging portrait of the motion picture production of silent film. Detailed but

concise alphabetical entries include over 100 film titles and 150 personnel. An introductory chapter explores the early growth of the new silent medium while the final chapter of this encyclopedic study examines the sophistication of the silent cinema. These two chapters outline film history from its beginnings until the perfection of synchronized sound, and reflect upon the themes and techniques established with the silent cinema that continued into the sound era through modern times. The annotated entries, alphabetically arranged by film title or personnel, include brief bibliographies and filmographies. An appendix lists secondary but important movies and their creators. Film and popular culture scholars will appreciate the vast amount of information that has been culled from various sources and that builds upon the increased studies and research of the past ten years.
