Prewriting Your Screenplay Michael Tabb,2018-07-16 Prewriting Your Screenplay cements all the bricks of a story's foundations together and forms a single, organic story-growing technique, starting with a blank slate. It shows writers how to design each element so that they perfectly interlock together like pieces of a puzzle, creating a stronger story foundation that does not leave gaps and holes for readers to find. This construction process is performed one piece at a time, one character at a time, building and incorporating each element into the whole. The book provides a clear-cut set of lessons that teaches how to construct that story base around concepts as individual as the writer's personal opinions, helping to foster an individual writer's voice. It also features end-of-chapter exercises that offer step-by-step guidance in applying each lesson, providing screenwriters with a concrete approach to building a strong foundation for a screenplay. This is the quintessential book for all writers taking their first steps towards developing a screenplay from nothing, getting them over that first monumental hump, resulting in a well-formulated story concept that is cohesive and professional.

Screenwriting Andrew Horton,Julian Hoxter,2014-08-23 Screenwriters often joke that "no one ever paid a dollar at a movie theater to watch a screenplay." Yet the screenplay is where a movie begins, determining whether a production gets the "green light" from its financial backers and wins approval from its audience. This innovative volume gives readers a comprehensive portrait of the art and business of screenwriting, while showing how the role of the screenwriter has evolved over the years. Reaching back to the early days of Hollywood, when moonlighting novelists, playwrights, and journalists were first hired to write scenarios and photoplays, Screenwriting illuminates the profound ways that screenwriters have contributed to the films we love. This book explores the social, political, and economic implications of the changing craft of American screenwriting from the silent screen through the classical Hollywood years, the rise of independent cinema, and on to the contemporary global multi-media marketplace. From *The Birth of a Nation* (1915), *Gone With the Wind* (1939), and *Gentleman's Agreement* (1947) to *Chinatown* (1974), *American Beauty* (1999), and *Lost in Translation* (2003), each project began as writers with pen and ink, typewriters, or computers captured the hopes and dreams, the nightmares and concerns of the periods in which they were writing. As the contributors take us behind the silver screen to chronicle the history of screenwriting, they spotlight a range of key screenplays that changed the game in Hollywood and beyond. With original essays from both distinguished film scholars and accomplished screenwriters, Screenwriting is sure to fascinate anyone with an interest in Hollywood, from movie buffs to industry professionals.
