When two curious kids embark on a wonder walk, they let their imaginations soar as they look at the world in a whole new light. They have thought-provoking questions for everything they see: Is the sun the world's light bulb? Is dirt the world's skin? Are rivers the earth's veins? Is the wind the world breathing? I wonder . . . Young readers will wonder too, as they ponder these gorgeous pages and make all kinds of new connections. What a wonderful world indeed!

How Not to Kill Yourself Set Sytes,2018-03-13 A highly imaginative and relatable guide for anyone who needs the reassurance that suicide is NEVER worth it. Are you inclined to escape the crumminess of everyday life into fantasy worlds? Are you smart and imaginative in a way that isn't really suited to your surroundings? Are you definitely misunderstood, likely angry, and almost certainly depressed? Set Sytes, hailing from the UK, would prefer you stay alive and sort things out rather than the alternative, thanks. He figures there are better opportunities for you out there and lays it all out in a way that's compelling, funny, sharp, and useful. This zine turned book (please don't call it a self-help guide, asks the author) is ultimately about how to be a person in the world. It can be done non-miserably, we promise.

All Or Nothing Ollie Ollerton, 2021-11-11 THE NEW THRILLER FROM THE NUMBER 1 BESTSELLING AUTHOR Revenge is a game you can't afford to lose... He turns the groaning Abbott over, puts the barrel of the gun to the back of his head. 'We're doing him a favour,' he says. 'I know a guy with a death-wish when I see one.' He pulls the trigger. They say blood is thicker than water. They never mention alcohol. Ex-special forces soldier Alex Abbott has a lead on the killer of his dead brother, if only he can stay off the booze long enough to hunt it down. But the skeletons in Abbott's closet are mounting up faster than the bodies in their bags, and Abbott needs to get his focus back if he's going to get his revenge. His pursuit takes him to the North of England, where Abbott infiltrates a local gang, forced to carry out jobs to maintain his cover. As he gains their trust he ventures deeper into the organisation uncovering a long-established international network of rich, depraved thrill-seekers, with a sadistic

side-hustle in child trafficking. Can Abbott stay ahead of his quarry and keep those who matter to him safe? The answer will take Abbott into Eastern Europe and a deadly game of cat and mouse, where he will face a terrible choice between his past and his future; it's winner takes all and Abbott has everything to lose. Rules of Play Katie Salen Tekinbas, Eric Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.
