Clive Cussler The Sea Wolves Jack Du Brul,2023-11-28 Detective Isaac Bell battles foreign spies, German U-boats, and an old nemesis to capture a secret technology that could alter the outcome of World War I in the latest adventure in the #1 New York Times bestselling series from Clive Cussler. As New England swelters in the summer of 1914, Detective Isaac Bell is asked to investigate a cache of missing rifles—only to discover something much more sinister. Whoever broke into this Winchester Factory wasn't looking to take weapons, they wanted to leave something in the shipping crates: a radio transmitter, set to summon a fleet of dreaded German U-boats. Someone is trying to keep American supplies from reaching British shores, and if Bell doesn't crack the conspiracy in time, the Atlantic Ocean will run red with blood. Bell must hunt down a new piece of technology that is allowing the Germans to rule the seas from New York to England. With the outcome of the war at stake and Franklin Roosevelt's orders on the line, Bell will risk everything to stop the U-Boats before they strike again.

The Sea-Wolf Jack London,2000-11-14 A thrilling epic of a sea voyage and a complex novel of ideas, The Sea-Wolf is a standard-bearer of its genre. It is the vivid story of a gentleman scholar, Humphrey Van Weyden, who is rescued by a seal-hunting schooner after a ferryboat accident in San Francisco Bay. London uses Van Weyden's ordeal at the hands of a schooner's devious crew to explore powerful themes of ambition, courage, and the innate will to survive. The Sea-Wolf also introduces Jack London's most memorable, fully realized character, Wolf Larsen, the schooner's brutal captain, who ruthlessly crushes anyone standing in his way. As Gary Kinder states in his Introduction, Wolf Larsen is one of the most carefully carved characters in American literature....London, himself, seems as fascinated as the reader with his own creation.

The Sea Wolves Nicholas Read,2013-07-15 The Sea Wolves sets out to disprove the notion of the Big Bad Wolf, especially as it is applied to coastal wolves—a unique strain of wolf that lives in the rainforest along the Pacific coast of Canada. Genetically distinct from their inland cousins and from wolves in any other part of the world, coastal wolves can swim like otters and fish like the bears with whom they share the rainforest. Smaller than the gray wolves that live on the other side of the Coast Mountains, these wolves are highly social and fiercely intelligent creatures. Living in the isolated wilderness of the Great Bear Rainforest, coastal wolves have also enjoyed a unique relationship with man. The First Nations people, who have shared their territory for thousands of years, do not see them as a nuisance species but instead have long offered the wolf a place of respect and admiration within their culture. Illustrated with almost one hundred of Ian McAllister's magnificent photographs, The Sea Wolves presents a strong case for the importance of preserving the Great Bear Rainforest for the wolves, the bears and the other unique creatures that live there.

Chronicling Trauma Doug Underwood,2011-09-01 To attract readers, journalists have long trafficked in the causes of trauma--crime, violence, warfare--as well as psychological profiling of deviance and aberrational personalities. Novelists, in turn, have explored these same subjects in developing their characters and by borrowing from their own traumatic life stories to shape the themes and psychological terrain of their fiction. In this book, Doug Underwood offers a conceptual and historical framework for comprehending the impact of trauma and violence in the careers and the writings of important journalist-literary figures in the United States and British Isles from the early 1700s to today. Grounded in the latest research in the fields of trauma studies, literary biography, and the history of journalism, this study draws upon the lively and sometimes breathtaking accounts of popular writers such as Charles Dickens, Ernest Hemingway, Dorothy Parker, Graham Greene, and Truman Capote, exploring the role that trauma has played in shaping their literary works. Underwood notes that the influence of traumatic experience upon journalistic literature is being reshaped by a number of factors, including news media trends, the advance of the Internet, the changing nature of the journalism profession, the proliferation of psychoactive drugs, and journalists' greater self-awareness of the impact of trauma in their work. The most extensive scholarly examination of the role that trauma has played in the shaping of our journalistic and literary heritage, *Chronicling Trauma: Journalists and Writers on Violence and Loss* discusses more than a hundred writers whose works have won them fame, even at the price of their health, their families, and their lives.

U.S.Navy Seawolves Daniel E. Kelly,2008-12-10 There were no dry runs for Seawolves in Vietnam. They put their lives on the line—every time. In the Viet Cong-infested Mekong Delta, where small SEAL teams were always outgunned and outnumbered, discovery brought swift, deadly consequences— and a radio call for backup from the United States Navy's very best: the Seawolves. The whirl of approaching rotor blades signaled their arrival as they tore through the jungle at treetop level, gunners hanging off the skids, shooting M-60s, raining down their lethal mix of high explosives and incendiary death. Seawolf Dan Kelly describes the origins of this extraordinary outfit. Put through a training program unlike any other, these men emerged to perform unparalleled feats of courage. The stories of these elite warriors capture America's real heroes in all their guts and glory, and demonstrate why the Seawolves are known as the most successful and most decorated unit in the Vietnam War.

Author Under Sail Jay Williams,2021-02 In Author Under Sail: The Imagination of Jack London, 1902–1907, Jay Williams explores Jack London’s necessity to illustrate the inner workings of his vast imagination. In this second installment of a three-volume biography, Williams captures the life of a great writer expressed through his many creative works, such as *The Call of the Wild* and *White Fang*, as well as his first autobiographical memoir, *The Road*, some of his most significant contributions to the socialist cause, and notable uncompleted works. During this time, London became one of the most famous authors in America, perhaps even the author with the highest earnings, as he prepared to become an equally famous international writer. *Author Under Sail* documents London’s life in both a biographical and writerly fashion, depicting the importance of his writing experiences as his career followed a trajectory similar to America’s from 1876 to 1916. The underground forces of London’s narratives were shaped by a changing capitalist society, media outlets, racial issues, increases in women’s rights, and advancements in national power. Williams factors in these elements while exploring London’s deeply conflicted relationship with his own authorial inner life. In London’s work, the imagination is figured as a ghost or as a ghostlike presence, and the author’s personas, who form a dense population among his characters, are portrayed as haunted or troubled in some way. Along with examining the functions and works of London’s exhaustive imagination, Williams takes a critical look at London’s ability to tell his stories to wide arrays of audiences, stitching incidents together into coherent wholes so they became part of a raconteur’s repertoire. *Author Under Sail* provides a multidimensional examination of the life of a crucial American storyteller and essayist.

The Mammals, Reptiles, and Fishes of Essex Henry Laver,1898

Captain Alex MacLean Don MacGillivray,2008-11-01 Alex MacLean was the inspiration for the title character in Jack London's bestselling novel *The Sea-Wolf*. Originally from Cape Breton, MacLean sailed to the Pacific side of North America when he was twenty-one and worked there for thirty-five years as a sailor and sealer. His achievements and escapades while in the Victoria fleet in the 1880s laid the foundation for his status as a folk hero. But this biography reveals more than the construction of a legend. Don MacGillivray opens a window onto the sealing dispute brought the United States and Britain to the brink of war, with Canadian sealing interests frequently enmeshed in espionage, scientific debate, diplomatic negotiations, and vexing questions of maritime and environmental law.

The Eastern Fleet and the Indian Ocean, 1942–1944 Charles Stephenson,2022-04-06 The story of the British Eastern Fleet, which operated in the Indian Ocean against Japan, has rarely been told. Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theater it was sent to protect, it has no place in the popular consciousness of the naval history of the Second World War. So Charles Stephenson’s deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves. British prewar naval planning for the Far East is part of the story, as is the disastrous loss of the battleship *Prince of Wales* and battlecruiser *Repulse* in 1941, but the body of the book focuses on the new fleet, commanded by Admiral Sir James Somerville, and its operations against the Japanese navy and aircraft as well as Japanese and German submarines. Later in the war, once the fleet had been reinforced with an American aircraft carrier, it was strong enough to take more aggressive actions against the Japanese, and these are described in vivid detail. Charles Stephenson’s authoritative study should appeal to readers who have a special interest in the war with Japan, in naval history more generally and Royal Navy in particular.
