The Complete Idiot's Guide to Search Engine

Optimization Michael Miller, 2009 Most businesses depend on their rankings on Google, Yahoo!, and other search engines to drive traffic to their websites. The higher a business's ranking, the more traffic its site gets. Where does a webmaster or online market manager go for advice and instruction on optimizing a business's website for higher search engine rankings? The few search engine optimization (SEO) books currently on the market are dated and do not cover the latest local, mobile, and social marketing techniques. The Complete Idiot's Guide® to Search Engine Optimization is a comprehensive, up-to-date, easy-to-use guide for SEO. It starts with a general overview of how search engines and SEO work and then flows into specific techniques for basic website optimization. It addresses the analysis and ongoing maintenance of a site's optimization and finishes with a look at how search engine marketing fits within a company's overall online marketing plan. In The Complete Idiot's Guide® to Search Engine Optimization, readers learn- How search engines and SEO work. How to optimize your site's keywords, tags, and design. How to optimize the links to your site, local and mobile searches, and social media. How to apply the strategies to a blog and web videos for search engines. How to use third-party SEO tools. How search engine marketing fits within a company's overall online marketing plan.

The Routledge Handbook of Halal Hospitality and Islamic Tourism C. Michael Hall, Girish Prayag, 2019-05-20 The Routledge Handbook of Halal Hospitality and Islamic Tourism provides a greater understanding of the current debates associated with Islamic tourism and halal hospitality in the context of businesses, communities, destinations, and the wider socio-political context. It

therefore sheds substantial light on one of the most significant travel and consumer markets in the world today and the important role of religion in contemporary hospitality and tourism. The book examines halal hospitality and lodging, Islamic markets, product developments, heritage, certification, and emerging and future trends and issues. It integrates case studies from a range of countries and destinations and in doing so emphasises the significant differences that exist with respect to regulating and commodifying halal, as well as stressing that the Islamic market is not monolithic. Written by highly regarded international academics, it offers a range of perspectives and enables a comprehensive discussion of this integral part of Islam and contemporary society. This handbook will be of significant interest to upper level students, researchers, and academics in the various disciplines of Tourism, Hospitality, Food Studies, Marketing, Religious Studies, Geography, Sociology, and Islamic Studies.
