World War II Sea War, Volume 12: Anzio, Kwajalein, Eniwetok and the Admiralty Islands Donald A. Bertke, Gordon Smith, Don Kendell, 2009

World War II Sea War, Volume 13: New Guinea, Normandy and Saipan Don Kindell, Donald A. Bertke, Gordon Smith, 2018-12-08 In April, May and June 1944, there were three major areas of naval conflict: In New Guinea: United States (US) and Australian forces landed at Aitape and Hollandia, then at Arare, Wakde and Biak Island. In Europe: The battle for the control of the English Channel heated up. The German navy attacked what they thought was an Allied convoy along the English southwestern coast. They had actually stumbled upon Operation TIGER, the Allied training exercise for the upcoming Normandy landing. RAF Bomber Command mined Biscay, Bretagne, La Pallice, Lorient, Brest, Cherbourg, Le Havre, Den Helder, Texel, the Friesian Islands, the German Bay, Kattegat, Kiel, Swinemünde, Gotenhafen, and Pillau. The Allies initiated Operation NEPTUNE to conceal the real Allied landing location from the Germans. All this culminated in the Allied landing in Normandy, France,

in Operation OVERLORD. In the Pacific: The US landed on Saipan, considered Japanese territory, in Operation FORAGER, which caused the Battle of the Philippine Sea.

World War II Sea War, Vol 7: The Allies Strike Back Donald A Bertke,Gordon Smith,Don Kindell,2014-12-23 From September through November 1942, the Allies defeated the Axis forces on all active fronts. On land, the British defeated Rommel in Operation SUPERCHARGE, the US Marines defeated the Japanese on Guadalcanal, and the Russians trapped the German Sixth Army at Stalingrad and disrupted the entire Axis southern front in Russia. At sea, the Royal Navy landed desperately needed supplies on Malta in Operations PEDESTAL and STONEAGE; the USN defended the US Marines on Guadalcanal from a Japanese attack in the Battle of Cape Esperance; the Allies landed troops at Morocco and Algeria in Operation TORCH; USN cruisers sank a Japanese battleship in the 1st Battle of Savo Island; the 2nd Battle of Savo Island was the only battleship-to-battleship engagement of the war in the Pacific; the Battle of the North Atlantic increased in intensity; and the Germans tried to capture the French Fleet at Toulon, France, in Operation ANTON, only to arrive as

the ships sank beneath the sea.

World War II Sea War, Vol 4: Germany Sends Russia to the Allies Donald A Bertke,Don Kindell,Gordon Smith,2012-12-15 Day-to-day naval actions June 1941 through November 1941.

World War II Sea War, Vol 9: Wolfpacks Muzzled Gordon Smith,Don Kindell,Donald A. Bertke,2016-04-10 This volume covers day-to-day naval actions during March-June 1943. The Allies attacked German U-boats day and night, forcing their withdrawal from the vital North Atlantic convoy routes, clearing the way for the eventual invasion of Europe from Britain. In the Bismarck Sea, Allied aircraft destroyed an entire Japanese troop convoy bound for New Guinea. In the Komandorski Islands, the U.S. Navy engaged a superior Japanese force and out fought them. After this loss, the Japanese commander was fired in disgrace. The Allies isolated the German and Italian troops fighting in Tunisia with an air and sea blockade. Without support from Italy, Tunisia fell. U.S. aircraft ambushed Japanese Admiral Yamamoto while he was en route to an inspection visit in the Solomon Islands. The U.S. 7th Infantry Division liberated Attu Island in the Aleutian Islands.

World War II Sea War, Vol 5: Air Raid Pearl Harbor. This Is Not a Drill Donald A Bertke,Gordon Smith,Don Kindell,2013-08-31 In Volume 5, the United States officially enters the war. Highlights of this action-filled volume include: Minute-by-minute detail of Japanese attack on Pearl Harbor; Japanese attacks on Wake Island, Luzon, Hong Kong, Malaya, Burma, etc., early attacks by US Navy subs in the Pacific; Russian Black Sea Fleet landing troops in the Crimea; continuing naval struggle in the Mediterranean; German U-boat attacks along the US Atlantic coast; Japanese attacks on US Pacific coast; American-British-Dutch-Australian Command battles the superior forces of the Imperial Japanese Navy; and the Battle of the Java Sea and the Battle of Sunda Strait.

World War II Sea War, Vol 10: Il Duce Deposed Gordon Smith,Don Kindell,Donald A. Bertke,2009 Comprehensive list of day-to-day naval actions from July 1943 through September 1943. Major events include Allied invasions of Sicily and Italy, plus continued action in the Solomon and New Guinea Islands, and the US liberation of Kiska Island.

World War II Sea War, Vol 6: The Allies Halt the Axis Advance Donald A Bertke,Gordon Smith,Don

Kindell,2014-05-17 Major Pacific actions from April through August 1942 include the Japanese attack on Ceylon, the Doolittle Raid on Japan, the battle of the Coral Sea, the battle of Midway Island, the U.S. landing on Guadalcanal, the battle of Savo Island, and the battle of the eastern Solomon Islands. Arctic actions include battle for convoy PQ.17. In Mediterranean, the Royal Navy interdicts Axis supply lines along Libyan and Egyptian coasts. In the Atlantic, the U.S. implements convoys along the East Coast.

WORLD WAR II SEA WAR: FRANCE FALLS, BRITAIN STANDS ALONE: Day-to-Day Naval Actions from April 1940 through September 1940 Donald A. Bertke,Don Kindell,Gordon Smith,2011-07-31
Day-to-Day Naval Actions April 1940 through September 1940

World War II Sea War, Vol 8: Guadalcanal Secured Donald A Bertke,Gordon Smith,Don Kindell,2015-09 Volume 8 documents the swing of battle from the Axis to the Allies from December 1942 thru February 1943 as naval actions forced the Japanese to begin their retreat and their efforts to forestall the inevitable. Meanwhile, naval actions slowly strangled the Axis nations in Europe and led

them to the road of defeat. Specific events include: * The last naval battles for Guadalcanal. * The IJN's secret evacuation of the Japanese Army from Guadalcanal. * The Russian encirclement and destruction of the German Sixth Army at Stalingrad. * The German counterattacks against the much larger Russian Army in the Ukraine. * The Battle of the North Atlantic between Allied convoy escorts and German U-boats. * The Allies' advance to trap German and Italian troops in Tunisia. * Intense actions in the Arctic Ocean as the German surface fleet tried to destroy the Arctic Convoys. * Increased attacks by USN submarines on Japanese shipping.

WORLD WAR TWO SEA WAR Donald A. Bertke, Gordon Smith, Don Kindell, 2011-03-01 Dag til dag begivenheder, primært til søs, august 1939 til om med marts 1940, opført i tabelform for forskellige farvandsafsnit. Indeholder også opsummeringer.

World War II Sea War, Volume 3: The Royal Navy is Bloodied in the Mediterranean Donald A Bertke, Gordon Smith, Don Kindell, 2012-05-15 Day-to-day naval actions from October 1940 through May 1941. Provides detailed information on movements of all identifiable vessels of Allied, Axis, and

neutral countries, plus convoy movements and minefields. Information is broken down by month, then by geographical area, date, and time. This series is an invaluable source for historians, students, and anyone interested in the naval history of World War II.

Servants of Evil Bob Carruthers,2004-12 History, they say, is written by the victors, and to date that has certainly been true of World War II. What few German accounts do exist are, furthermore, generally written by those in positions of authority, not by the soldiers and airmen who fought in the front line. *Servants of Evil* shows us, for the first time, the Second World War as seen from the other side – by the boys and men who went to war believing in the Reich and in victory, only to see the myth of German invincibility crumble in the face of supposed impossibilities: the fighting ability and determination of the Russians; the strength of the Royal Air Force; the defeat of the U-boats by improved radar technology; the might and remarkable manufacturing capability of the USA – and, finally, the fall of Berlin.

How the War Was Won Phillips Payson O'Brien,2015-02-12 World War II is usually seen as a

titanic land battle, decided by mass armies, most importantly those on the Eastern Front. Phillips Payson O'Brien shows us the war in a completely different light. In this compelling new history of the Allied path to victory, he argues that in terms of production, technology and economic power, the war was far more a contest of air and sea than land supremacy. He shows how the Allies developed a predominance of air and sea power which put unbearable pressure on Germany and Japan's entire war-fighting machine from Europe and the Mediterranean to the Pacific. Air and sea power dramatically expanded the area of battle and allowed the Allies to destroy over half the Axis' equipment before it had even reached the traditional 'battlefield'. Battles such as El Alamein, Stalingrad and Kursk did not win World War II; air and sea power did.

Coral and Brass Holland M. Smith, Percy Finch, 2017-06-29 Coral and Brass is the biography of

General Holland McTyeire Howlin' Mad Smith, known as the father of modern U.S. amphibious warfare. His book is a riveting first-hand account of key battles fought in the Pacific between the U.S. Army and Canadian troops against the Japanese, including assaults on the Gilbert Islands, the Marshall Islands, the island of Saipan, Tinian in the Marianas and Iwo Jimo.

Winning a Future War Norman Friedman, Naval History and Heritage Command, U. S. Department Of The Navy, 2019-02 To win in the Pacific during World War II, the U.S. Navy had to transform itself technically, tactically, and strategically. It had to create a fleet capable of the unprecedented feat of fighting and winning far from home, without existing bases, in the face of an enemy with numerous bases fighting in his own waters. Much of the credit for the transformation should go to the war gaming conducted at the U.S. Naval War College. Conversely, as we face further demands for transformation, the inter-war experience at the War College offers valuable guidance as to what works, and why, and how.
