Perversion for Profit Whitney Strub,2011 Whitney Strub illustrates the crucial function of pornography in constructing the New Right agenda, which emphasized social issues over racial & economic inequality. He situates the fight over obscenity within the politics of 1950s pop culture & the pivotal events that followed, including the sexual revolution & feminist activism.

Multimedia Security Kaiser J. Giri,Shabir Ahmad Parah,Rumaan Bashir,Khan Muhammad,2021-01-11 This book is a collection of outstanding content written by experts working in the field of multimedia security. It provides an insight about various techniques used in multimedia security and identifies its progress in both technological and algorithmic perspectives. In

the contemporary world, digitization offers an effective mechanism to process, preserve and transfer all types of information. The incredible progresses in computing and communication technologies augmented by economic feasibility have revolutionized the world. The availability of efficient algorithms together with inexpensive digital recording and storage peripherals have created a multimedia era bringing conveniences to people in sharing the digital data that includes images, audio and video. The ever-increasing pace, at which the multimedia and communication technology is growing, has also made it possible to combine, replicate and distribute the content faster and easier, thereby empowering mankind by having a wealth of information at their disposal. However, security of multimedia is giving tough time to the research community around the globe, due to ever-increasing and efficient attacks carried out on multimedia data by intruders, eves-droppers and hackers. Further, duplication, unauthorized use and mal-distribution of digital content have become a serious challenge as it leads to copyright violation and is considered to be the principal reason that refrains the information providers in freely sharing their proprietary digital content. The book is useful for students, researchers and professionals to advance their study.

Data Hiding Michael T. Raggo,Chet Hosmer,2012-12-31 As data hiding detection and forensic techniques have matured, people are creating more advanced stealth methods for spying, corporate espionage, terrorism, and cyber warfare all to avoid detection. Data Hiding provides an exploration into the present day and next generation of tools and techniques used in covert communications, advanced malware methods and data concealment tactics. The hiding techniques outlined include the latest technologies including mobile devices, multimedia, virtualization and others. These concepts provide corporate, goverment and military personnel with the knowledge to investigate and defend against insider threats, spy techniques,

espionage, advanced malware and secret communications. By understanding the plethora of threats, you will gain an understanding of the methods to defend oneself from these threats through detection, investigation, mitigation and prevention. Provides many real-world examples of data concealment on the latest technologies including iOS, Android, VMware, MacOS X, Linux and Windows 7 Dives deep into the less known approaches to data hiding, covert communications, and advanced malware Includes never before published information about next generation methods of data hiding Outlines a well-defined methodology for countering threats Looks ahead at future predictions for data hiding

Windows 8: The Missing Manual David Pogue,2013-02-27 With Windows 8, Microsoft completely reimagined the graphical user interface for its operating system, and designed it to run on tablets as well as PCs. It's a big change that calls for a trustworthy guide—Windows 8: The Missing Manual. New York Times columnist David Pogue provides technical insight, lots of wit, and hardnosed objectivity to help you hit the ground running with Microsoft's new OS. This jargon-free book explains Windows 8 features so clearly—revealing which work well and which don't—that it should have been in the box in the first place.

Over-the-Road Wireless For Dummies E. Phil Haley,2006-08-07 Do you roam the road making a living, or are you enjoying the nomadic life of a retiree with a motor home? Either way, life goes on no matter where you're hanging your hat tonight. Bills still need to be paid, grandchildren grow up way too fast, and you've gotten pretty dependent on your e-mail. How do you stay connected to the rest of the world while you're on the road? For a growing number of over-the-road drivers, business travelers, and RV enthusiasts, the answer is a wireless Internet connection. With a laptop and wireless access, you can Pay bills, check accounts, and handle banking online Send and receive e-mail Surf the Web Access your home PC Make inexpensive phone

calls with VoIP Watch TV, download movies, and listen to satellite radio So, you say, I see people in movies popping open their laptops and getting online wherever they happen to be. It looks awfully easy—why do I need a book? Well, lots of things are easy once you know how. Over-the-Road Wireless For Dummies tells you how in plain English, so you can take advantage of all those cool opportunities safely and easily. You'll discover how to Choose the best Wi-Fi access service for your needs and locate hotspots Assess cellular data services and satellite access to make informed choices about service Adapt your laptop or PDA for wireless, set up an external antenna, and install an external amplifier Use your cell phone as a modem Identify security threats, protect your data with strong passwords and encryption, and set up a personal firewall Install and use Skype and make phone calls with your laptop Make your truck or RV your office with online freight-finding services, a GPS receiver, a travel printer, and software to keep logs and expense records Access streaming TV and radio on the road With Over-the-Road Wireless For Dummies to help, you can send online birthday cards, watch video of the grandchildren, do your banking, pay bills, keep records, connect to your home PC, and even file your taxes, no matter how far away you roam!

Forces of Habit David T. Courtwright,2002-10-30 What drives the drug trade, and how has it come to be what it is today? A global history of the acquisition of progressively more potent means of altering ordinary waking consciousness, this book is the first to provide the big picture of the discovery, interchange, and exploitation of the planet's psychoactive resources, from tea and kola to opiates and amphetamines.

Teach Yourself VISUALLY Mac Mini Guy Hart-Davis,2012-08-13 The perfect how-to guide for visual learners Apple?s Mac Mini packs a powerful punch is in a small package, including both HDMI and Thunderbolt ports plus the acclaimed OS X. But if you want to get the very most from all this power and

versatility, be sure to get this practical visual guide. With full-color, step-by-step instructions as well as screenshots and illustrations on every page, it clearly shows you how to accomplish tasks rather than burying you in pages of text. Discover helpful visuals and how-tos on the OS, hardware specs, Launchpad, the App Store, multimedia capabilities (such as connecting your Mac Mini to your HDTV and using it as a media center) and more. Helps Mac Mini users get up to speed quickly on the latest and best features, including the major features of the OS X operating system and the new Thunderbolt and HDMI ports Teaches practical techniques using easy-to-follow, step-by-step visuals and brief explanations Features full-color screen shots on every page Covers OS and hardware basics as well as the Launchpad, the App Store, media center capabilities, maintenance, and troubleshooting Helps you surf the web with Safari, organize movies and music in iTunes, take advantage of home theater capabilities, and configure your system for optimum use. Teach Yourself VISUALLY Mac Mini helps you get big results out of your Mac Mini.

Windows 7 Secrets Paul Thurrott,Rafael Rivera,2009-08-31 Tips, tricks, treats, and secrets revealed on the latest operating system from Microsoft: Windows 7 You already know the ups and downs of Windows Vista-now it's time to learn the ins and outs of Windows 7! Internationally recognized Windows experts, Microsoft insiders, and authors Paul Thurrott and Rafael Rivera cut through the hype to pull away the curtain and reveal useful information not found anywhere else. A witty, conversational tone tells you what you need to know to go from Windows user to Windows expert and doesn't waste time with basic computer topics while point-by-point comparisons demonstrate the difference between Windows 7 features and functionality to those in Windows XP and

Vista. Windows 7 is the exciting update to Microsoft's operating system Authors are internationally known Windows experts and Microsoft insiders Exposes tips, tricks, and secrets on the new features and functionality of Windows 7 Reveals best practices for customizing the system to work for you Investigates the differences between Windows 7 and previous versions of Windows No need to whisper! Window 7 Secrets is the ultimate insider's guide to Microsoft's most exciting Windows version in years.

Government Secrecy Jan Goldman Ph.D.,Susan Maret,2008-12-30 Government Secrecy presents the best that has been thought and written on the subject, including history and philosophy, theory and practice, justification and critique. Through readings, which range from Georg Simmel on secrecy and Max Weber on bureaucracy and secret-keeping, to post-9/11 concerns regarding freedom of information and presidential secrecy, it enables readers to explore the issues and questions that surround the government's right to keep necessary secrets—or not. This collection, and the diverse perspectives it represents, will engage students and other interested parties in a discussion of the benefits—and dangers—of government secrecy. The collection is designed to generate questions regarding historical accuracy of government information, information ethics, professional neutrality, ownership of information, public right to information, national security, and transparency. The essays explore the criteria and conditions for government secret-keeping, as well as contributing to public and academic discussion of the role of secrets in democracies.

Official Secrets Richard Breitman,2022-12-13 Richard Breitman's Official Secrets is an important work based on newly declassified archives. As defeat loomed over the Third Reich in 1945, its officials tried to destroy the physical and documentary evidence about the Nazis' monstrous crimes, about their murder of millions. Great Britain already had some of the evidence,

however, for its intelligence services had for years been intercepting, decoding, and analyzing German police radio messages and SS ones, too. Yet these important papers were sealed away as Most Secret, Never to Be Removed from This Office-and they have only now reappeared. Integrating this new evidence with other sources, Richard Breitman reconsiders how Germany's leaders brought about the Holocaust-and when-and reassesses Britain's and America's suppression of information about the Nazi killings. His absorbing account of the tensions between the two powers and the consequences of keeping this information secret for so long shows us the danger of continued government secrecy, which serves none of us well, and the failure to punish many known war criminals.

The Peasant Robbers of Kedah, 1900-1929 Cheah Boon Kheng,2014-08-15 In the early twentieth century, social banditry was endemic in the countryside near the border between the northern Malaysian state of Kedah and Siam, and some outlaws became local heroes. Cheah Boon Kheng's account of peasant banditry and the society where it flourished draws on colonial records, literary sources and interviews to examine the circumstances that led the Governor, Sir Laurence Guillemard, to call the border area one of the most lawless and insecure districts in British Malaya during the 1920s. Considering banditry from the perspective of the peasant community, Cheah concludes that it grew out of lax government, weak policing, the geography of the border region and underdevelopment, and suggests that bandit heroes might be seen as symbols of rural protest. His discussion of the details of rural life in the early twentieth century and the conditions that underlay rural crime provide a unique social history of rural society in Malaya. This innovative volume broke new ground in Malaysian studies when it first appeared in 1988. This second edition is intended for the work to reach a new audience.

Safe for Democracy John Prados,2006-09-14 From its

founding in the aftermath of World War II, the Central Intelligence Agency has been discovered in the midst of some of the most crucial-and most embarrassing-episodes in United States relations with the world. Safe for Democracy for the first time places the story of the CIA's covert operations squarely in the context of America's global quest for democratic values and institutions. National security historian John Prados offers a comprehensive history of the CIA's secret wars that is as close to a definitive account as is possible today.

Continuity of Government: How the U.S. Government Functions After All Hell Breaks Loose Douglas E. Campbell,2016-12-16 The term Continuity of Government, or COG, runs from the dubious duck and cover method of personal protection against the effects of a nuclear explosion to the more serious measures of continual government inventories of grain silos, the Strategic National Stockpile, the uncapping of the Strategic Petroleum Reserve, the dispersal of transportable bridges, water purification, mobile refineries, mobile de-contamination facilities, mobile general and special purpose disaster mortuary facilities. For anyone researching in the field of COG - from Civil Defense to Presidential succession to the various U.S.-based COG operations (Operations OPAL, ALERT, BUSTER, JANGLE. DESERT ROCK, UPSHOT, KEYHOLE, etc.), this book reflects two years of research by the author within the National Archives and Records Administration (NARA). Of interest may be the first 100 pages on the history of COG and also the listing of thousands of COG-related titles that rest on the shelves in NARA for your additional scrutiny.

Internet Secrets John R. Levine,Carol Baroudi,1995 Internet Secrets addresses Windows and DOS/UNIX Internet users who know how to get connected and now want to know how to optimize their connections. Levine has compiled tips and tricks for the Top Ten Applications, including Mosaic (for Windows and UNIX users), Gopher, ftp, WAIS, and more. Includes two disks--one for Windows users and one for UNIX users.

Winning Armageddon Trevor Albertson,2019-05-15 Winning Armageddon provides definition to an all-too-long misunderstood figure of the Cold War, General Curtis E. LeMay, and tells the story of his advocacy for preemptive nuclear strikes while leading the U.S. Air Force's Strategic Air Command. In telling this story, Trevor Albertson builds for the reader a world that, while not in the distant past, has been forgotten by many; the lessons of that past, however, are as applicable today as they were 65 years ago. This work brings to life the challenges, fears, and responses of a Cold War United States that grappled with a problem that did not have a clear solution: nuclear war. LeMay argued for striking first in a potential nuclear conflict--but only if and when it was clear that the enemy was preparing to launch their own surprise attack. This approach, commonly referred to as preemption, was designed to catch an attacker off-guard and prevent the destruction of one's own nation. LeMay hoped that rather than plunging the world into a fruitless nuclear exchange he could

diffuse the conflict at its outset.

Racing for the Bomb Robert S. Norris,2014-10-21 In
September 1942, Colonel Leslie R. Groves was given the job of
building the atomic bomb. As a career officer in the Army Corps
of Engineers, Groves had overseen hundreds of military
construction projects, including the Pentagon. Until now,
scientists have received the credit for the Manhattan Project's
remarkable achievements. And yet, it was Leslie R. Groves who
made things happen. It was Groves who drove manufacturers,
construction crews, scientists, industrialists, and military and
civilian officials to come up with the money, the materials, and
the plans to solve thousands of problems and build the bomb in
only two years. It was his operation, and in Racing for the Bomb
he emerges as a take-charge, can-do figure who succeeds in the
face of formidable odds. Revealed for the first time in Racing for
the Bomb, Groves played a crucial and decisive role in the
planning, timing, and targeting of the Hiroshima and Nagasaki
missions. Norris offers new insights into the complex and
controversial questions surrounding the decision to drop the
bomb in Japan and Groves's actions during World War II, which
had a lasting imprint on the nuclear age and the Cold War that
followed. Grove's extensive influence on key institutions of
postwar America has been overlooked for too long. In this full-
scale biography, which includes archival material and family
letters and documents and features several previously
unpublished photographs, Norris places Groves at the center of
the amazing Manhattan Project story. Skyhorse Publishing, along
with our Arcade, Good Books, Sports Publishing, and Yucca
imprints, is proud to publish a broad range of biographies,
autobiographies, and memoirs. Our list includes biographies on
well-known historical figures like Benjamin Franklin, Nelson
Mandela, and Alexander Graham Bell, as well as villains from
history, such as Heinrich Himmler, John Wayne Gacy, and O. J.
Simpson. We have also published survivor stories of World War II,

memoirs about overcoming adversity, first-hand tales of adventure, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Fuel your quest for knowledge with Authored by is thought-provoking masterpiece, Dive into the World of **Secrecy File And Folder Hider 25** . Secrecy File And Folder Hider 25 Introduction

In todays digital age, the availability of Secrecy File And Folder Hider 25 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just

a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Secrecy File And Folder Hider 25 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Secrecy File And Folder Hider 25 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Secrecy

File And Folder Hider 25 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Secrecy File And Folder Hider 25 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or

someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for

studying or referencing. When it comes to accessing Secrecy File And Folder Hider 25 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Secrecy File And Folder Hider 25 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Secrecy File And Folder Hider 25 books and manuals for download have transformed the way we access information. They

provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Secrecy File And Folder Hider 25 books and manuals for download and embark on your journey of knowledge?

FAQs About Secrecy File And Folder Hider 25 Books

1. Where can I buy Secrecy File And Folder Hider 25 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
