**Information Security and Cryptology** Zhe Liu,Moti Yung,2020-04-03 This book constitutes the post-conference proceedings of the 15th International Conference on Information Security and Cryptology, Inscrypt 2019, held in Nanjing, China, in December 2019. The 23 full papers presented together with 8 short papers and 2 invited papers were carefully reviewed and selected from 94 submissions. The papers cover topics in the fields of post-quantum cryptology; AI security; systems security; side channel attacks; identity-based cryptography; signatures; cryptanalysis; authentication; and mathematical foundations.

**ASEAN Resistance to Sovereignty Violation** Southgate, Laura,2019-05-08 Available Open Access under CC-BY-NC licence. Examining how the Association of Southeast Asian Nations' (ASEAN) has responded to external threats over the past 50 years, this book provides a compelling account of regional state actions and foreign policy in the face of potential sovereignty violation. The author draws on a large amount of previously unanalysed material, including declassified government documents and WikiLeaks cables, to examine four key cases since 1975. Taking into account state interests and the role of external powers, the author develops the 'vanguard state theory' to explain ASEAN state responses to sovereignty violation, which, it is argued, has universal applicability and explanatory power.

**Progress in Cryptology – AFRICACRYPT 2018** Antoine Joux,Abderrahmane Nitaj,Tajjeeddine Rachidi,2018-04-16 This book constitutes the refereed proceedings of the 10th International Conference on the Theory and Application of Cryptographic Techniques in Africa, AFRICACRYPT 2018, held in Marrakesh, Morocco, in May 2018. The 19 papers presented in this book were carefully reviewed and selected from 54 submissions. AFRICACRYPT is a major scientific event that seeks to advance and promote the field of cryptology on the African continent. The conference has systematically drawn some excellent contributions to the field. The conference has always been organized in cooperation with the International Association for Cryptologic Research (IACR).

**Dealing with Dictators** László Borhi,2016-06-27 Dealing with Dictators explores America's Cold War efforts to make the dictatorships of Eastern Europe less tyrannical and more responsive to the country's international interests. During this period, US policies were a mix of economic and psychological warfare, subversion, cultural and economic penetration, and coercive diplomacy. Through careful examination of American and Hungarian sources, László Borhi assesses why some policies toward Hungary achieved their goals while others were not successful. When George H. W. Bush exclaimed to Mikhail Gorbachev on the day the Soviet Union collapsed, Together we liberated Eastern Europe and unified Germany, he was hardly doing justice to the complicated history of the era. The story of the process by which the transition from Soviet satellite to independent state occurred in Hungary sheds light on the dynamics of systemic change in international politics at the end of the Cold War.

**Cryptographic Hardware and Embedded Systems – CHES 2017** Wieland Fischer, Naofumi Homma, 2017-09-18 This book constitutes the proceedings of the 19th International Conference on Cryptographic Hardware and Embedded Systems, CHES 2017, held in Taipei, Taiwan, in September 2017. The 33 full papers presented in this volume were carefully reviewed and selected from 130 submissions. The annual CHES conference highlights new results in the design and analysis of cryptographic hardware and software implementations. The workshop builds a valuable bridge between the research and cryptographic engineering communities and attracts participants from industry, academia, and government organizations.

**The China Problem in Postwar Japan** Robert Hoppens, 2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People's Republic of China (PRC). The two countries established diplomatic relations for the first time, forged close economic ties and reached political agreements that still guide and constrain relations today. This book delivers a history of this foundational period in Sino-Japanese relations. It presents an up-to-date diplomatic history of the relationship but also goes beyond this to argue that Japan's relations with China must be understood in the context of a larger "China problem" that was inseparable from a domestic contest to define Japanese national identity. The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino-Japanese relations, showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity, not its weakness.

*The Power of Memory and Violence in Central America* Rachel Hatcher, 2018-05-11 This book explores the power of words in post-Peace El Salvador and Guatemala—their violent and equally liberating power. The volume explores the

entire post-Peace Accords era in both Central American countries. In “post-conflict” settings, denying or forgetting the repressive past and its many victims does violence to those victims, while remembering and giving testimony about the past can be cathartic for survivors, relatives, and even for perpetrators. This project will appeal to readers interested in development, societies in transition, global peace studies, and Central American studies.
