**The Amazing Laws of Cosmic Mind Power** Joseph Murphy, 1965 This astounding book has already helped almost 100,000 people discover and apply the Laws of Cosmic Mind Power to their daily lives. **Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the

Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**The Grail Bird** Tim Gallagher, 2017-04-25 “The Grail Bird is an enjoyable read . . . A powerful call for conservation, and an exciting bird adventure” (The Boston Globe). What is it about the ivory-billed woodpecker? Why does this ghost of the southern swamps arouse such an obsessive level of passion in its devotees, who range from respected researchers to the flakiest Loch Ness monster fanatics and Elvis chasers? Since the early twentieth century, scientists have been trying their best to prove that the ivory-bill is extinct. But every time they think they’ve finally closed the door, the bird makes an unexpected appearance. To unravel the mystery, author Tim Gallagher heads south, deep into the eerie swamps and bayous of the vast Mississippi Delta, searching for people who claim to have seen this rarest of birds and following up—sometimes more than thirty years after the fact—on their sightings. What follows is his own Eureka moment with his buddy Bobby Harrison, a true son of the South from Alabama. A huge woodpecker flies in front of their canoe, and they both cry out, “Ivory-bill!” This sighting—the first time since 1944 that two qualified observers positively identify an ivory-billed

woodpecker in the United States—quickly leads to the largest search ever launched to find a rare bird, as researchers fan out across the bayou, hoping to document the existence of this most iconic of birds. “The Grail Bird is less an ecological study than a portrait of human obsession.” —The New York Times

**How to Use the Laws of Mind** Dr. Joseph Murphy, 2019-10-03 This is one of Dr. Murphy's best books, on a par with his classic *The Power of your Subconscious Mind*. It explains the difference between the conscious and subconscious mind, and how the two work together to create the reality of the individual. As in Murphy's other books, examples are given of how people overcame problems or manifested their desires by changing their minds through belief, affirmation, and visualization. The chapters deal with: HEALING PRAYER BECOMING SPIRITUAL-MINDED THE CREATIVITY OF THOUGHT THE MEANING OF EVIL THE MEANING OF LIFE CONTROLLING ONE'S FEAR THE POWER OF SUGGESTION MARRIAGE, SEX, AND DIVORCE In his very engaging style, the author teaches us how to use both phases of the mind synchronously, harmoniously, and peacefully in order to bring harmony, health, and abundance into our lives. He also explains that Biblical statements are parables, allegories, metaphors, similes, and cryptic statements, and are thus not to be taken literally. The main message is that we are all children of the infinite, born to win, and to live in the joyous

expectancy of the best. Exclusive to and approved by the estate of Joseph Murphy
