Alex and his assistant, Chase Kolpath, return to investigate the provenance of the cup. Alex and Chase follow a deadly trail to the Seeker - strangely adrift in a system barren of habitable worlds. But their discovery raises more questions than it answers, drawing Alex and Chase into the very heart of danger.

The Seeker Harry Leon Wilson,2021-02-05 Harry Leon Wilson (May 1, 1867 - June 28, 1939) was an American novelist and dramatist best known for his novels *Ruggles of Red Gap* and *Merton of the Movies*. His novel *Bunker Bean* helped popularize the term flapper. Harry Leon Wilson was born in Oregon, Illinois, the son of Samuel and Adeline (née Kidder). Samuel was a newspaper publisher, and Harry learned to set type at an early age. He began work as a stenographer after leaving home at sixteen. He worked his way west through Topeka, Omaha, Denver, and eventually to California. He was a contributor to the histories of Hubert Howe Bancroft, and became the private secretary to Virgil Bogue.

Seeker Philip Dunn,Manuela Dunn-Mascetti,2003-05-13 A collection of fiction, poetry, essays, and memoirs celebrates the human search for spiritual meaning, accompanied by numerous modern illustrations and photographs.

Seeker Sharmaine Spencer,2010-01-30 In the early 1800's A Doctor Renaldo Freeman creates a race of 'Super Humans' a genetical remake of human beings. With added 'special abilities' used for the better of mankind. Half go wrong, turning into the Seekers, seeking to destroy the earth and all that inhabit it, the other half, the halo, swear to protect it. Riley, Grace, & Chelsea live in the small town of Woolensdale, the protective ring of the earth, where no Seeker can enter. And they all discover a secret, which can help them save the world. 3 teens discover their secret destinies, and the life they now have, protecting the world from the greatest Evil; but now they have found each other will they loose one of their own, forever?

The Seeker F. L. Holmes,2007-10-19 *The Seeker* is a book that will take you from the unknown to the light of self understanding, and the needed reality of setting goals and then making them happen. Here you will find hours of meditation accumulated over many different periods of time. *The Seeker* is a book that challenges the mind of the reader; it is the challenger of what you call truth. Open your heart and mind to the visions from within. *The Seeker* is a book of poetic reasoning to help each person enjoy and see the beauty from within.

The Seeker Mario Corradini,2007-06 *The Seeker* passes between illusion and reality, transporting the reader to an unknown dimension, unfathomable for most, but real and concrete for those who desire to begin a journey inward. Those who feel unsatisfied with their daily lives, even though it may not produce existential restlessness, may benefit from this book. The author, in a colloquial manner, suggests to us that reality is not only what we can touch with our own hands.

Everyone senses something undefinable within, something that grows stronger without interference. That presence can be called God, soul, superior being, spirit, vital energy, supreme light, divine essence... even though its name basically has no importance. *The Seeker* is a book for those who feel that presence and decide to take their first steps on a Path that leads them to themselves.

The Seeker Steve Koc,2020-12-07 By 1971, the hippie culture of peace and love had fallen short on its promise of utopia, and a new age of spiritual exploration was filling the void. When a young American leaves home at the height of this counterculture revolution, he has no idea of the spiritual revelations that await. *The Seeker* leads us on a trek through this period of uncharted transition, filled with cosmic characters who struggle to make sense of a rapidly changing world. It's the story of Jerry, a young man from Detroit caught between his familiar past and an enticing future as he journeys on an epic adventure from east to west, encountering gurus, sages, teachers and tricksters. And with a little help from his friends, both in this realm and beyond, he just might find his way.

The Seeker: Book Two: The Full Circle Trilogy Jeanne Selander Miller,2020-09-04 Fiona Dolan has felt misunderstood her entire life. It's not easy for a gifted student with a curious mind to endure life in rural America. When the stars align, she is awarded a scholarship to a prestigious college in Chicago and the means to escape the small-minded judgments of her parochial community. If this move is going to be her entrée into a new life, then Fiona has a secret she must protect-for she is a Seer and a Seeker. Triggered by recurring recollections of past traumas, Fiona now slips effortlessly between her past lives and her current life with greater regularity. The visions and memories leave her untethered as she questions what is real and what might be created by pure imagination. How will she adjust to life in a big city, the diversity of the people who live there, and ideas that challenge what she has been taught to believe? Trying to balance the joie de vivre of her new-found freedom with the rigor of academia Fiona gets caught in an ethical dilemma. When she falls in love with a man, who is deemed unacceptable by the standards of her provincial upbringing, Fiona must decide if she will let her traditional family dictate her choices and control her path or if she will follow her heart and pursue a life of her own choosing. Each visit to her past clarifies her vision and provides insight into the nature and character of the people in her life, including an evil nemesis who has stalked her from lifetime to lifetime and is hell-bent on teaching her a lesson. Just as life seems to be working out, all of Fiona's carefully laid plans are upended when chaos and drama erupt back home, leaving Fiona to seek answers to those questions that wake her in the night and demand explanations. Will Fiona allow her past to dictate her future?

Seekers: All That's Left Dayton Ward,Kevin Dilmore,2015-10-27 The fourth all-new Seekers novel in the acclaimed Star Trek: Vanguard spin-off series! Initially charted by Starfleet probes dispatched to survey the Taurus Reach, the planet Cantrel V now plays host to a budding Federation colony as well as a combined civilian/Starfleet exploration team. Ancient ruins of an unknown civilization scattered around the planet have raised the curiosity of archaeologists, anthropologists, historians, and other interested members of the Federation scientific community. Together, they are attempting to shed light on the beings that once called this world home. After a large, unidentified vessel arrives in orbit and launches a seemingly unprovoked orbital bombardment, the U.S.S. Endeavour responds to the colony's distress call. As they attempt to render assistance and investigate the mysterious ship, Captain Atish Khatami and her crew begin to unlock the astonishing secrets the

planet has harbored for centuries. Does the survival of a newly discovered yet endangered alien race pose a threat not only to Cantrel V, but to other inhabited worlds throughout the Taurus Reach and beyond? ™, ®, & © 2015 CBS Studios, Inc. He is involved in a traffic accident where he is misidentified as a privileged person and is given expensive medical care. When it is discovered that he does not deserve the treatment, he is Debt Bonded into an international military antiaEURterrorist force. He matures and becomes a famous warrior. The warrior goes into a violent combat assignment and is injured by a land mine which amputates both of his legs. The protagonist is used in the lunar orbit construction of the first spaceship ever launched from Earth. His great skill and luck causes him to be kidnapped and to be included in the chemicalaEURpreserved crew of the spaceship. Many years later the spaceship Seeker is attracted to an unaEURnamed planet. The protagonist is awakened and manages to safely land the spaceship which was never meant to land by highlyaEURimprobable means. The protagonist wakes the crew and defends the ship's invasion by huge insects. The protagonist is altered by the bugs, his missing legs are replaced and his immortal body is greatly modified. The protagonist is confronted by a planetary computer which had remained hidden in fear. The MegaComputer relates a history of the races killed on the planet. The computer controls the entire planet and gives a ring of preserved orbiting spaceships to the Seeker crew. The preserved spaceships in orbit are used in two separate fleets of 1440 connected ships, one to resettle the vacant planets of the dead sentients and the second to rescue the population of Earth for resettlement on new planets. The protagonist and all Seekers are cloned to 3500 clones by the computer to man the 2880 spaceships. The protagonist and the computer discovers the computer data representing 32 species of sentient beings and the method of their revival of each of them. The oldest race recorded the physical and mental computer data before a fatal ray killed all sentient life on the planet. The protagonist and the computer awake a percentage of the dead sentients for spaceship crews. After a long return flight, the protagonist finds that the glacial Earth is poisoned by radiation and all the few remaining people must be cloned to safely leave Earth. The protagonist has succeeded in the revival of the murdered species and the resettlement of the known Universe and great explorations. The protagonist has rescued the glacial and radioactive Earth. The protagonist has conquered death, distance, time and the future. The book pauses before the following books concerning the details and adventures of particular selected subjects.
