Producing 24p Video John Skidgel,2012-09-10 Producing 24pP Video demystifies the emerging standards of film and video production and discusses the 24p video film format to help novice and experienced filmmakers alike learn how to better use the newly available DV cameras. Since the 24p frame rate closely approximates the look and feel of film, it is the speed of choice whenever a cinematic look is desired. 24p video also offers certain compression options that are advantageous to web and wireless delivery. This full-color book discusses the special techniques required by 24p productions - all the way through the production, from preproduction planning through post and output. Each chapter includes techniques, examples, tips, and case studies. The field techniques section features real-world setups presented as demonstrations or as tutorials. Case studies present profiles of people producing 24p projects, and the DVD includes step-by-step instructions that illustrate how to work with 24p material in NLE, compositor, DVD authoring, and audio applications.

Proceedings of the 2023 3rd International Conference on Education, Information Management and Service Science (EIMSS 2023) Guiyun Guan,Christian Kahl,Bootheina Majoul,Deepanjali Mishra,2023-10-29 This is an open access book.Amidst the advancement of modern science and technology, especially the development of information technology, our society has entered a stage of highly developed information technology. We should do our utmost to utilize the achievements yielded by scientific and technological innovation, vigorously promote the informatization of education management, and provide quality services for education and teaching. The importance of information technology education in educational management simply cannot be overstated. Educational management is closely related to college education and teaching. Only through good educational management can education and teaching proceed smoothly. The realization of education management information is conducive to the propulsion of high efficiency in school management, as well as to the smooth implementation of teaching objectives and better participation of students and parents in school management. Informationization is the mainstream of the world's economic development, while informationization of teaching management is the product of adapting to the demand of time development. We educational management workers should learn from the excellent educational managers at home and abroad, strive to improve their information level, and synchronize with the Times. In order to provide a more convenient and efficient communication platform for relevant academic researchers, we organized the 2023 3rd International Conference on Education, Information Management and Service Science (EIMSS 2023). 2023 3rd International Conference on Education, Information Management and Service Science (EIMSS 2023) will be held on July 21—23, 2023 in Qingdao, China. EIMSS 2023 aims to bring together innovative academics and industrial experts in the field of Education, Information Management and Service Science to a common forum. The primary goal of the conference is to stimulate research and developmental activities in Education, Information Management and Service Science, and another goal is to facilitate the scientific exchange of information between researchers, developers, engineers, students, and practitioners working all around the world. As an ideal platform for individuals to exchange views and experiences in Education, Information Management, Service Science, and related domains, the conference will convene annually. We warmly invite you to participate in EIMSS 2023 and look forward to seeing you in Qingdao!
