Julia Carolyn Guernsey

The Reconceptualization of Curriculum Studies Mary

Aswell Doll, 2016-06-23 In this volume scholars from around the world consider the influential work of William F. Pinar from a variety of conversations his ideas have generated. The major focus is on the What, Why, and How of the word reconceptualization, which involves engaging critically and ethically as public intellectuals with gender, class, and race issues theorized in a variety of disciplines. The book introduces Pinar's seminal argument for curriculum to return to its root in the word *currere* (the running of the course of study) and its key concepts: autobiography as alternative to the denial of subjectivity in traditional curriculum studies, study, and place. Issues addressed include the ethics of study both of self and of the discipline of curriculum studies, the politics of presence, the curricular importance of entering the public sphere, the openness to complicating simple solutions, and the ethical dealing with alterity (the state of being other or different; otherness).

Textual Intimacy Wesley A. Kort, 2012-05-23 Given its affinity with questions of identity, autobiography offers a way into the interior space between author and reader, especially when writers define themselves in terms of religion. In his exploration of this textual intimacy, Wesley Kort begins with a theorization of what it means to say who one is and how one's self-account as a religious person stands in relation to other forms of self-identification. He then provides a critical analysis of autobiographical texts by nine contemporary American writers—including Maya Angelou, Philip Roth, and Anne Lamott—who give religion a positive place in their accounts of who they are. Finally, in disclosing his own religious identity, Kort concludes with a meditation on several meanings of the word assumption.

Private Goes Public: Self-Narrativisation in Brian Friel's Plays

Gaby Frey, 2015-11-25 In Brian Friel's writing, the distinction between public and private is closely linked to the concepts of

home, family, identity and truth. This study examines the characters' excessive introspection and their deep-seated need to disclose their most intimate knowledge and private truths to define who they are and, thus, to oppose dominant discourse or avoid heteronomy. This study begins by investigating how a number of Anglo-Irish writers publicised their characters' private versions of truth thereby illustrating what they perceived to be the space of 'Irishness'. The book then focuses on Friel's techniques of sharing his character's private views to demonstrate how he adopted and adapted these practices in his own oeuvre. As the characters' superficial inarticulateness and their vivid inner selves are repeatedly juxtaposed in Friel's texts, his oeuvre, quintessentially, displays a great unease with the concepts of communication and absolute truth.

Step By Step Database Programming using Python GUI & MySQL Hamzan Wadi, This book provides a practical explanation of database programming using Python GUI & MySQL. The discussion in this book is presented in step by step so that it will help readers understand each material and also will make it easier for the readers to follow all of the instructions. This book is very suitable for students, programmers, and anyone who want to learn database programming using Python GUI & MySQL from scratch. This book is divided into two parts: The first part of this book will discuss about the fundamentals of database programming using Python GUI & MySQL. This part will discuss in detail about how to setup your working environment and how to understand GUI programming using Python. This part will also discuss in detail about how to start your database programming using Python GUI & MySQL. This part will discuss in detail about the basic of database programming using Python GUI & MySQL. The second part of this book will discuss about how to build database application using Python GUI & MySQL. This part will discuss in detail about how to build Multiple Document Interface (MDI) database application through real project-based example.

This part will discuss in detail about how to design and create database for Library Management System application, and how to create all forms for the application. The final objective of this book is that the readers are able to create real database application using Python GUI & MySQL. Here are the materials that you will learn in this book.

PART I: THE FUNDAMENTAL OF DATABASE PROGRAMMING USING PYTHON GUI & MySQL

CHAPTER 1: The discussion in this chapter will guide you in preparing what software are needed to start your database programming using Python GUI. This chapter will guide you to install all software including Python, MySQL, and Qt Designer. In addition, this chapter also will discuss about how to understand and use Qt Designer for user interface design, and how to create a GUI application using Python and Qt Designer.

CHAPTER 2: The discussion in this chapter will guide you to start your database programming using Python GUI & MySQL. This chapter will discuss in detail about the basic of database programming using Python GUI & MySQL. The discussion in this chapter will talk about how to create and drop database, how to create and drop table, how to insert data into table, how to display data from table, how to update data in table, and how to delete data in table. All discussions in this chapter will give you deep understanding of database programming using Python GUI & MySQL.

PART II: BUILDING DATABASE APPLICATION USING PYTHON GUI & MySQL, CASE STUDY: LIBRARY MANAGEMENT SYSTEM APPLICATION

CHAPTER 3: The discussion in this chapter will guide you to design and create database for library management system application. This is the first step that must be taken to create database application using Python GUI & MySQL. This chapter will discuss in detail about how to design the Entity Relationship Diagram (ERD) for library management system application. The discussion in this chapter will also talk about how to create database and its tables based on the ERD design using MySQL server.

CHAPTER 4: The discussion in this chapter will guide you to create main form and

login form for the application. This chapter will discuss in detail about how to create these two forms. These forms are the first two forms that we will create in building library management system application. This chapter will also discuss about how to run the application. CHAPTER 5: The discussion in this chapter will guide you to create user accounts form and members form for Library Management System application. This chapter will discuss in detail about how to create these two forms. This chapter will also discuss about how to add these two forms as MDI sub windows of the main form. And the final discussion of this chapter will guide you to use the forms to manage user accounts and members data of Library Management System application. CHAPTER 6: The discussion in this chapter will guide you to create authors form, genres form, and books form for Library Management System application. This chapter will discuss in detail about how to create these three forms. This chapter will also discuss about how to add books form as MDI sub window of the main form. And the final discussion of this chapter will guide you to use the forms to manage authors, genres, and books data in Library Management System application. CHAPTER 7: The discussion in this chapter will guide you to create member search form, book search form, and loan transaction form for Library Management System application. This chapter will discuss in detail about how to create these three forms. This chapter will also discuss about how to add loan transaction form as MDI sub window of the main form. And the final discussion of this chapter will guide you to use the forms to manage loan transactions in Library Management System application. CHAPTER 8: The discussion in this chapter will guide you to create members statistic form, books statistic form, and loan statistic form for Library Management System application. This chapter will discuss in detail about how to create these three forms. This chapter will also discuss about how to add all of the forms as MDI sub windows of the main form. And the final discussion of this chapter will guide you to use all of the forms to

display the statistics in the library.

The Social Self in Zen and American Pragmatism Steve Odin,1996-01-01 The thesis of this work is that in both modern Japanese philosophy and American pragmatism there has been a paradigm shift from a monological concept of self as an isolated I to a dialogical concept of the social self as an I-Thou relation, including a communication model of self as individual-society interaction. It is also shown for both traditions all aesthetic, moral, and religious values are a function of the social self arising through communicative interaction between the individual and society. However, at the same time this work critically examines major ideological conflicts arising between the social self theories of modern Japanese philosophy and American pragmatism with respect to such problems as individualism versus collectivism, freedom versus determinism, liberalism versus communitarianism, and relativism versus objectivism.

The Self in Neuroscience and Psychiatry Tilo Kircher,Anthony S. David,Anthony David,2003-08-07 In recent years the clinical and cognitive sciences and neuroscience have contributed important insights to understanding the self. The neuroscientific study of the self and self-consciousness is in its infancy in terms of established models, available data and even vocabulary. However, there are neuropsychiatric conditions, such as schizophrenia, in which the self becomes disordered and this aspect can be studied against healthy controls through experiment, building cognitive models of how the mind works, and imaging brain states. In this 2003 book, the first to address the scientific contribution to an understanding of the self, an eminent, international team focuses on current models of self-consciousness from the neurosciences and psychiatry. These are set against introductory essays describing the philosophical, historical and psychological approaches, making this a uniquely inclusive overview. It will appeal to a wide audience of scientists, clinicians and scholars concerned with the phenomenology and

psychopathology of the self.

Revisionary Interventions into the Americanist Canon Donald E. Pease, 1994-06-17 Throughout the era of the Cold War a consensus reigned as to what constituted the great works of American literature. Yet as scholars have increasingly shown, and as this volume unmistakably demonstrates, that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves, works both outside and within the traditional canon. This book is an effort to recover those lost voices. Engaging New Historicist, neo-Marxist, poststructuralist, and other literary practices, this volume marks important shifts in the organizing principles and self-understanding of the field of American Studies. Originally published as a special issue of *boundary 2*, the essays gathered here discuss writers as diverse as Kate Chopin, Frederick Douglass, Emerson, Melville, W. D. Howells, Henry James, W. E. B. DuBois, and Mark Twain, plus the historical figure John Brown. Two major sections devoted to the theory of romance and to cultural-historical analyses emphasize the political perspective of New Americanist literary and cultural study. Contributors. William E. Cain, Wai-chee Dimock, Howard Horwitz, Gregory S. Jay, Steven Mailloux, John McWilliams, Susan Mizruchi, Donald E. Pease, Ivy Schweitzer, Priscilla Wald, Michael Warner, Robert Weimann

Constructing Identities Mike Michael, 1996-01-28 This volume provides a distinctive overview and analysis of the place of social constructionism in social psychology. The author's arguments revolve around two key questions: How can social constructionism account for changes in human identities? In what ways might social constructionism accommodate a role for nonhumans - whether technological or 'natural' - in the constitution of identity? Michael locates these questions between recent innovations in social psychology and the highly influential contributions of actor-network theory, which has come to dominate the sociology of scientific knowledge.

When Art Disrupts Religion Philip S. Francis, 2017-02-01 The stories gathered in these pages lay bare the power of the arts to unsettle and rework deeply ingrained religious beliefs and practices. This book grounds its narrative in the accounts of 82 Evangelicals who underwent a sea-change of religious identity through the intervention of the arts. There never would have been an undoing of my conservative Evangelical worldview confides one young man, without my encounter with the transcendent work of Mark Rothko on that rainy afternoon in London's Tate Modern. The characters in *The Brothers Karamazov* began to feel like family to me, reports another individual, and the doubts of Ivan Karamazov slowly saturated my soul. As their stories unfold, the subjects of the study describe the arts as sources of, by turns, defamiliarization, comfort in uncertainty, a stand-in for faith and a surrogate transcendence. Drawing on memoirs, interviews, and field notes, Philip Salim Francis explores the complex interrelationship of religion and art in the modern West, and offers an important new resource for on-going debates about the role of the arts in education and social life.

The Collective and the Individual in Russia Oleg Kharkhordin, 2023-04-28 Oleg Kharkhordin has constructed a compelling, subtle, and complex genealogy of the Soviet individual that is as much about Michel Foucault as it is about Russia. Examining the period from the Russian Revolution to the fall of Gorbachev, Kharkhordin demonstrates that Party rituals—which forced each Communist to reflect intensely and repeatedly on his or her self, an entirely novel experience for many of them—had their antecedents in the Orthodox Christian practices of doing penance in the public gaze. Individualization in Soviet Russia occurred through the intensification of these public penitential practices rather than the private confessional practices that are characteristic of Western Christianity. He also finds that objectification of the individual in Russia relied on practices of mutual surveillance among peers, rather than on the hierarchical

surveillance of subordinates by superiors that characterized the West. The implications of this book expand well beyond its brilliant analysis of the connection between Bolshevism and Eastern Orthodoxy to shed light on many questions about the nature of Russian society and culture.

When "I" was Born Jing M. Wang, 2008 In the period between the 1920s and 1940s, a genre emerged in Chinese literature that would reveal crucial contradictions in Chinese culture that still exist today. At a time of intense political conflict, Chinese women began to write autobiography, a genre that focused on personal identity and self-exploration rather than the national, collective identity that the country was championing. *When I Was Born: Women's Autobiography in Modern China* reclaims the voices of these particular writers, voices that have been misinterpreted and overlooked for decades. Tracing women writers as they move from autobiographical fiction, often self-revelatory and personal, to explicit autobiographies that focused on women's roles in public life, Jing M. Wang reveals the factors that propelled this literary movement, the roles that liberal translators and their renditions of Western life stories played, and the way in which these women writers redefined writing and gender in the stories they told. But Wang reveals another story as well: the evolving history and identity of women in modern Chinese society. *When I Was Born* adds to a growing body of important work in Chinese history and culture, women's studies, and autobiography in a global context. Writers discussed include Xie Bingying, Zhang Ailing, Yu Yinzi, Fei Pu, Lu Meiyan, Feng Heyi, Ye Qian, Bai Wei, Shi Wen, Fan Xiulin, Su Xuelin, and Lu Yin.

Using Mental Imagery in Counselling and Psychotherapy Valerie Thomas, 2015-12-14 The therapeutic potential of working with clients' mental images is widely acknowledged, yet there is still little in the counselling and psychotherapy literature on more inclusive approaches to the clinical applications of mental imagery. *Using Mental Imagery in*

Counselling and Psychotherapy is a unique, accessible guide for counsellors and psychotherapists who wish to develop their expertise in this important therapeutic practice. Contemporary practitioners have at their disposal a large repertoire of imagery methods and procedures comprising the contributions from different therapeutic schools and clinical innovators. Valerie Thomas identifies some of the common features in these approaches and offers a transtheoretical framework that supports integrative practitioners in understanding and using mental imagery to enhance therapeutic processes. The book: Examines the development of the theory and practice of mental imagery within a wider context of the history of imagination as a healing modality; Describes the different ways that mental imagery has been incorporated into therapeutic practice and evaluates recent developments; Reviews explanations of the therapeutic efficacy of mental imagery and considers how recent theoretical concepts provide a means of understanding the role that mental images play in processing experience; Includes reflections on ways to develop more inclusive theory and proposes a model that can inform integrative practice. Using a wide range of clinical vignettes to illustrate theory and cutting-edge research, Valerie Thomas proposes a new integrated model of practice. Providing clear and detailed guidance on applying the model to clinical practice, the book will be essential reading for psychotherapists and counsellors, both in practice and training, who wish to harness the therapeutic efficacy of mental imagery.

The Trinity H.E. Baber, 2019-06-30 the doctrine of the Trinity developed in response to a range of theological interests—among them the project of reconciling claims about the divinity of Christ with monotheism and massaging Christian doctrine into the ambient (largely Platonic) philosophical framework of the period. More recently the Trinity doctrine has been deployed to promote normative claims concerning human nature, human relationships and social justice. During the past two decades analytic

philosophers of religion have increasingly engaged with the doctrine. There are, however, a number of foundational questions that have not been addressed in the philosophical literature. The *Trinity: A Philosophical Investigation* considers the competing accounts of the Trinity doctrine, whether orthodox or heterodox, and aims to respond to objections and explicate their motivations and entailments.

Self and Identity--psychosocial Perspectives Krysia M. Yardley-Matwiejczuk, Krysia Yardley, Terry Honess, 1987 This study of self is a growing concern within psychology, and related disciplines, particularly in social and clinical psychology, psychiatry and personality studies.

South Urals industry in 20—30s of the XX century.

Scientific research Andrey Tikhomirov, 2021-03-25 Industrial development of the South Urals in the years of the new economic policy and pre-war five-year plans is a topic of topical importance for modern Russia. Regardless of political preferences, the problem of the country's modernization and its accelerated transformation into an industrially developed power comes to the foreground. In this regard, the search for fundamental trends and regularities of historical experience will help to better illuminate ways to solve modern problems.

The Blackwell Guide to Hume's Treatise Saul

Traiger, 2008-04-15 This Guide provides students with the scholarly and interpretive tools they need to understand Hume's *A Treatise of Human Nature* and its influence on modern philosophy. A student guide to Hume's *A Treatise of Human Nature*. Focuses on recent developments in Hume scholarship. Covers topics such as the formulation, reception and scope of the *Treatise*, imagination and memory, the passions, moral sentiments, and the role of sympathy. All the chapters are newly written by Hume scholars. Each chapter guides the reader through a portion of the *Treatise*, explaining the central arguments and key contemporary interpretations of those arguments.

The Pulse of Praise Julia Carolyn Guernsey, 1999 Guernsey draws on D. W. Winnicott's object relations model, which focuses on self-development in a relational context, to illuminate various senses of self and Other that Herbert's poems express discursively and formally. The book will appeal not only to Herbert scholars and other Renaissance critics but also to audiences interested in psychoanalysis and how it relates to literature, religion, culture, and poetics.--BOOK JACKET.

Practitioner Research at Doctoral Level Pat Drake, Linda Heath, 2010-09-13 The authors of this book explore in detail the challenges faced by doctoral researchers conducting practitioner research today. As a guide to this often neglected aspect of doctoral research, the authors of this book explore in detail the challenges faced by doctoral researchers conducting practitioner research today.

Buddhism, Cognitive Science, and the Doctrine of Selflessness Hugh Nicholson, 2022-09-30 This book examines the relationship between Buddhist philosophy and scientific psychology by focusing on the doctrine of No-self. The hypothesis is that No-self can function as an instrument of counter-induction, that is, an alternative conceptual scheme that exposes by contrast the intuitive or folk theoretical presuppositions sedimented in our perception of ourselves and others. When incorporated into regimens of meditative and ritual practice, the No-self doctrine works to challenge and disrupt our naïve folk psychology. The author argues that there is a fruitful parallel between the No-self doctrine and anti-Cartesian trends in the cognitive sciences. The No-self doctrine was the product of philosophical speculation undertaken in the context of hegemonic struggles with both Buddhist and non-Buddhist rivals, and the classic No-self doctrine, accordingly, is a somewhat schematic and largely accidental anticipation of the current scientific understanding of the mind and consciousness. Nevertheless, inasmuch as it challenges and unsettles the seemingly self-evident certitudes of folk psychology,

it prepares the ground for the revolution in our self-conception promised by the emerging cognitive scientific concept of mind. A novel contribution to the study of Buddhist Philosophy, the book will also be of interest to scholars of Buddhist Studies and Asian Religions.

Selfaccounts 20 Introduction

Selfaccounts 20 Offers over 60,000

Selfaccounts 20, might be challenging as they're often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Selfaccounts 20, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Selfaccounts 20 books or magazines might include. Look for these in online stores or libraries. Remember that while Selfaccounts 20, sharing copyrighted material without permission is not legal. Always ensure

you're either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Selfaccounts 20 eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites.

While this might not be the Selfaccounts 20 full book, it can give you a taste of the author's writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Selfaccounts 20 eBooks, including some popular titles.
