A Dictionary of the Underworld Eric Partridge,2015-06-12 First published in 1949 (this edition in 1968), this book is a dictionary of the past, exploring the language of the criminal and near-criminal worlds. It includes entries from Australia, New Zealand, Canada and South Africa, as well as from Britain and America and offers a fascinating and unique study of language. The book provides an invaluable insight into social history, with the British vocabulary dating back to the 16th century and the American to the late 18th century. Each entry comes complete with the approximate date of origin, the etymology for each word, and a note of the milieu in which the expression arose.

Multiple Arts Jean-Luc Nancy,Simon Sparks,2006 This collection of writings by the renowned French critic and poet Jean-Luc Nancy delves into the history of philosophy in order to locate a fundamentally poetic modus operandi, representing a mix of philosophical essays, writings about artworks and the author's own artistic creations.

Lewis Mumford Shuxue Li,2009 Lewis Mumford's achievements as an architectural critic, literary critic and urbanist are well known. However, his contribution to the American studies movement and to cultural studies in general has almost been forgotten in recent years. By situating Mumford's work in its contemporary intellectual context and by considering some of its legacies for the study of 'culture and civilization' - especially in the nascent field of American studies - this book considers Mumford as an 'author', drawing out some of the expressive, political and methodological significance of this term. In an attempt to counter frequent arguments that Mumford's works are inconsistent, repetitive and derivative, the author argues that, taken as a whole, they demonstrate a consistent inter-disciplinary or trans-disciplinary critical project, and that Mumford's thought is comparable with that of Marx and Weber. The book traces this critical project through Mumford's works from the early twentieth century and also through his formal process of writing. The author aims to show that Mumford's project was neither provincial nor reactionary, as some have argued, but was instead a dynamic juxtaposition of past and present that enabled him to imagine a future where humans might fulfil their potential in a more perfectly republican, even utopian, urban space.
