**How to SEO - The definitive guide after 10 years of SEO** Federico Magni,2019-12-10 This innovative guide will take you on a journey through SEO (Search Engine Optimization) from A to Z. The text is based on updated examples faithfully reported from the experiences with the 100 sites built by the Italian author Federico Magni, Senior SEO Specialist for about 10 years, and now founder of the SEOProf.it platform. Failures and successes on Google are told by analyzing not only the keyword and link building concepts, but also by focusing on the latest SEO strategies to place your site on search engines for a given keyword. In addition to practical suggestions and a bit of theory, you will find the experiences, the case studies verified in the European market, and the situations experienced by the author during his daily work in SEO, with concrete numbers and data. Written in a very clear and simple way, this SEO course is ideal for those who already know the subject, but also for those who have recently approached it. Recommended for the beginner who wants to start in the best way, but also for those who have a more advanced level and want to improve their skills for a professional growth. It's not a cold reading of false myths, tricks, or outdated content about SEO, but it's a book that gets straight to the point.

Competitive keywords, buyer persona, link juice, responsiveness and 10 SEO Keys to power your SERPs positions are also explained. SEO Audit Report Sample This second work included inside of this book, is a Sample for a SEO Audit Report. You will discover how to make an easy to understand Audit report for your customers and will give you several advices in order to fix SEO website issues. So then, this is not a SEO Audit report of a real website, is neither a service. Is an example of how to create a well organized and easy to understand SEO Audit report, in other words, a template that can inspire you in your works. This example will show you how making a presentation of your SEO work and will be a handy way to fit your Website Analytic Content in an easy to approach view. The SEO Audit Report Sample is an example of an External Website Analysis that explains the basic concepts of SEO Audit Reports and how to understand them. Remember that a SEO Report is like a photography of your entire website, and depends on the accurated timing of analysis that such report will be more or less exhaustive. The sample offered is for a short-term based report (one week analysis) made by means of external tool devices. In the report are explained the 4 basic points of review for any SEO report: Performance and Speed, SEO On-Page, SEO Off-Page and Good SEO Practices. Of course, is a sample and has to be understood in such way. Hope will be useful to you.

SEO 2016 and Beyond Andy Williams, 2015-09-04 Google is on the SEO warpath. Anyone that is seen to be breaking the rules or trying to manipulate their own rankings through aggressive SEO techniques, will find their website dropping out of the top 10, top 100, or even out of the search results altogether. Search engine optimization will never be the same again... Not only has Google released a whole menagerie of animals (Panda, Penguin, Pigeon, etc) on unsuspecting webmasters, it

also employs humans to rate content. That means you cannot fly under the radar any more. Gone are the days when it was easy to game the system and rank in the top 10 by using a few SEO loopholes. Today, SEO can be a very dangerous game if you follow the wrong advice, and let me tell you something...Most SEO advice you read for free on the internet is just plain wrong. In fact not just wrong. It's Dangerous! Most search engine optimization advice is out of date, or written by someone that has never really tested their own theories. SEO 2016 & Beyond is a book that will teach you the safe, white-hat strategies I personally use as an SEO to get my web pages (and those of my clients) to rank high in Google. These are battle tested, white hat techniques that I've developed over the last decade. On-site optimization techniques that I was teaching my newsletter readers back in 2008, is only now becoming mainstream in SEO. I play by Google's rules, meaning I never have to wake up after a major update and wonder if my sites have been hit. I am always looking forward and asking myself what Google wants, and how I can deliver. With so many algorithm changes taking place at Google, you might be wondering how it is possible to stay up to date with all the changes. The good news is that it is easy once you acquire the right mind set. Understand what Google is trying to do, and give it to them. That is what this book teaches. You will not find any strategies to beat the system. You will not find any loopholes to beat Google. You WILL find solid strategies, solutions & advice to give Google what it wants, while pleasing your on-site visitors. Happy visitor means happy Google. You also won't be learning any black hat backlinking techniques. These would only serve to get your site penalized. I only want to teach you a future-proofed strategy. You'll learn the truth about anchor text links and why everything changed when Penguin was released. You'll also learn what makes a backlink valuable in Google's eye, and what makes a backlink spammy. I'll tell you about the Holy Grail of backlinks, and how to find them. They take more work, but one of these links is priceless when it comes to ranking. You'll also learn why it is important to focus on building your site authority. I'll go through some of the older backlinking techniques. These have been heavily abused by spammers in the past, so most no longer work very well. However, I will show you how you can still get some ranking power out of some of these techniques, if done properly. This book is now in it's 5th major edition - SEO 2016. In it, you also get the comprehensive SEO Checklist. The SEO Checklist is actually a stand alone book to help you troubleshoot a website. Use it to find and fix SEO problems on your site, and reverse Google penalties. SEO 2016 & Beyond was written by search engine veteran Andy Williams of ezSEONews.com. He has been teaching this stuff since 2003 in his free weekly newsletter. If you want to really understand what the search engines want, get higher rankings, more traffic AND have Google's blessing, then you should read this SEO book.
