Search Engine Optimization Harold Davis, 2006-05-23 SEO--short for Search Engine Optimization--is the art, craft, and science of driving web traffic to web sites. Web traffic is food, drink, and oxygen--in short, life itself--to any web-based business. Whether your web site depends on broad, general traffic, or high-quality, targeted traffic, this PDF has the tools and information you need to draw more traffic to your site. You'll learn how to effectively use PageRank (and Google itself); how to get listed, get links, and get syndicated; and much more. The field of SEO is expanding into all the possible ways of promoting web traffic. This breadth requires a range of understanding. In this PDF you'll find topics that cover that range, so you can use SEO to your benefit. Those topics include: Understanding how to best organize your web pages and websites. Understanding technologic and business tools available that you can use to achieve your SEO goals. Understanding how Google works. (Since Google is far and away the most important search engine, effectively using SEO means effectively using Google. This PDF covers how to boost placement in Google search results, how not to offend Google, how best to use paid Google programs, and more.) Understanding best SEO practices (whether your organization is small and entrepreneurial, or whether you have responsibility for a large web presence). When you approach SEO, you must take some time to understand the characteristics of the traffic that you need to drive your business. Then go out and use the techniques explained in this PDF to grab some traffic--and bring life to your business.

The Dao of SEO Kenneth Sproul,2008-04-01 Figuring out the SEO world is like trying to solve a great mystery with every truth having an exception and every exception being someone's truth. All too often, it is a world full of half-truths and urban myths. For those of you just looking for tips or step-by-step guidelines, these first few pages may be a hard read, unless you like philosophy. The reason is simple: I have to tell you why I have called this book The Dao of SEO. It concerns the number one mistake people make when trying to succeed on the Internet and it concerns the philosophical reasons for that mistake. I have to talk about the philosophy of Daoism and Yin/Yang theory. Don't worry; it will be fun! In my Book, you will learn industry-jargon, such as, Optimization, SEO, Spiders and Crawlers, Algorithm, Search Engine Ranking, SERP, On-Page Versus Off-Page Ranking Factors, Link Popularity, Page Rank, Toolbar Page Rank, White Hat SEO, Black Hat SEO, Source and Source Code, and much, much more.
