The Protector: A Woman's Journey from the Secret Service to Guarding VIPs and Working in Some of the World's Most Dangerous Places Mary Beth Wilkas

Janke,2020-06-30 Considered a unicorn in the dangerous and predominantly male world of international executive protection, Mary Beth Wilkas acquired a unique skill set over the course of her career that made her one of the most sought-after professionals in the field. But the road from bright-eyed trainee to top operator was anything but straight and narrow. In 1991, Mary Beth landed her dream job as a United States Secret Service agent. Ever level-headed, she thrived in the high-pressure position, conducting investigations, traveling with advance teams, and working protection details. But when the career path Mary Beth trained for took a radical turn, she was forced to carve out a new identity as a freelance protective agent. As a contractor, she was freed from the red tape of a federal agency but also, sometimes to her chagrin, its standards and resources. Working for clients that ranged from foreign diplomats to the wildly wealthy, Mary Beth jetted between conflict zones and lavish destinations, ensuring the safety of VIPs and their families and eventually training others to do the same. Never let them see you sweat became her credo. The Protector tells the exciting and inspiring story of how Mary Beth learned to navigate a male-dominated field with grit, integrity, and courage, and reveals how the ability to bounce back from adversity can transform even the worst setbacks into epic growth.

Protector of Conscience, Proponent of Service Nicholas A. Krehbiel,2009 The primary figure in the creation and administration of alternative service for conscientious objectors

(COs) during World War II was General Lewis B. Hershey, Director of the Selective Service. With an executive order by President Franklin D. Roosevelt placing the responsibility for alternative service on the shoulders of Hershey, any program within Civilian Public Service (the alternative service program for COs) desired by the Historic Peace Churches (Brethren, Mennonite, Society of Friends) needed Hershey's approval before it could commence. As a product of the National Guard, Hershey possessed a strong belief in the duty of the citizen to the state in a time of national emergency. However, Hershey also had Mennonite ancestry and a strong belief in minority rights. Though not personally religious, all of his beliefs towards religion, duty, minority rights, and service contributed to a much more liberal policy for COs during World War II, compared to the insensitive treatment of them during the First World War. In short, Protector of Conscience, Proponent of Service argues that Lewis Hershey held the primary authority for constructing policy concerning conscientious objection during World War II, and his personal beliefs and actions in shaping alternative service during that time established precedent for the remaining years of conscription in the United States. From the initial peacetime draft in 1940 to the end of conscription in 1973, alternative service remained as the central form of a CO's duty to the state in lieu of serving in the military. Hershey's beliefs and actions during World War II resulted in a concept of alternative service that remained for the following years of conscription in the United States, providing an illuminating example of how the concept of the citizen soldier evolved in American military history and extended even to those who refused to serve in the military.

Introduction to Executive Protection Dale L. June, Elijah Shaw, 2021-08-29 Since its original publication in 1998, *Introduction to Executive Protection* has been considered the bible of the executive security industry. Now in its 4th edition, this new volume, conceived and developed by Dale L. June, drawing from

his experiences in the United States Secret Service, law enforcement & the private sector, has been reworked and revised with new content, chapters, and input with over 60% new material. Much more than simply an introduction, this book is a powerful learning tool, with the author now joined by Elijah Shaw, one of the foremost experts in working globally with celebrities and other high net-worth VIP's. The authors include real world examples of bodyguards working with politicians and religious figures, and dealing with everything from stalking to assassination attempts. This volume further digs into the tactics and the mindset necessary for protectors to mitigate the risk of it happening to their clients. Packed with tips for successfully navigating the corporate, celebrity & dignitary sectors, the reader will find in-depth discussions on a variety of topics, ranging from setting up estate security plans, to working in and around private jets. The world is changing daily, and as both an educational and resource tool, this book is sure to provide new outlooks for both the experienced and the newcomer alike. ** What the Industry is Saying about the New Edition ** A comprehensive look at executive protection, the profession, and methods of practice. This 4th edition is worth the read. Monica Duperon Rodriguez Sr. Manager, Global Corporate Security and Risk Management (Executive Protection & Solutions) LinkedIn It is important we don't forget the basic principals & foundations. This book is a great reminder. Charles Randolph LTC (RET) President, International Protective Security Board (IPSB) Dale and Elijah have forgotten more about the business of Protective Services than most will ever learn. Mark 'SIX' James Author, Defensive Handgun II This is absolutely one of the top books I point to for people who are interested in getting into the profession.
