*Data Protection in the Financial Services Industry* Mandy Webster,2017-03-02 Privacy and data protection are now important issues for companies across the financial services industry. Financial records are amongst the most sensitive for many consumers and the regulator is keen to promote good data handling practices in an industry that is looking towards increased customer profiling, for both risk management and opportunity spotting. Mandy Webster's *Data Protection in the Financial Services Industry* explains how to manage privacy and data protection issues throughout the customer cycle; from making contact to seeking additional business from current customers. She also looks at the precise role of the Financial Services Authority and its response to compliance or non-compliance. Each of the Eight Principles of the Data Protection Act are reviewed and explained.

**Directory Services** Nancy Cox,2001-12-19 To optimally design and manage a directory service, IS architects and managers must understand current state-of-the-art products. *Directory Services* covers Novell's NDS eDirectory, Microsoft's Active Directory, UNIX directories and products by NEXOR, MaxWare, Siemens, Critical Path and others. Directory design fundamentals and products are woven into case studies of large enterprise deployments. Cox thoroughly explores replication, security, migration and legacy system integration and interoperability. Business issues such as how to cost justify, plan, budget and manage a directory project are also included. The book culminates in a visionary discussion of future trends and emerging directory technologies including the strategic direction of the top directory products, the impact of wireless technology on directory enabled applications and using directories to customize content delivery from the Enterprise Portal. *Directory Services* is a comprehensive and practical guide that provides organizations and consultants with a roadmap used to create the directory enabled global enterprise. To provide the reader with the core knowledge required for designing directory services, the book discusses directory fundamentals including X.500, X.509 and LDAP as well as how to cost justify, plan, budget and manage a directory project Provides critical info for design, integration, or migration for multiple messaging platforms Covers all major directories Provides case studies and guidelines for deployment and integration issues

Health Services Assistance Kathryn Austin,2020-06-18 Achieve high standards in patient-focused care. Health Services Assistance provides complete coverage of core and elective units for assisting in nursing work in acute care. Exercises throughout the text provide students with the means to self-assess and extend their skills and knowledge. Foundation skills are developed early, underpinning understanding of the specialist acute care chapters that follow. Students are encouraged to reflect and contextualise their learning and to practise techniques in small groups. Activities break up the material so information is easier to retain. Self-check, extension activities and discussion questions can be incorporated into an institution's assessment strategy. Health Services Assistance is structured by competency for HLT33115 Certificate III in Health Services Assistance, supporting nursing in acute care, and is packed with specific cases and examples, as well as including additional content on palliative care and mental health. Each chapter addresses a competency, with a volume of learning that underpins the assessment requirements. The book is structured so that elements and criteria are communicated by the section headings. Teach following the qualification structure, using the print book, eBook or LMS integration.
