The Broken Heart of Arelium Alex Robins, 2021-03-18 Some Things Must Never Be Forgotten * Over 400 years ago, twelve great warriors united the beleaguered armies of men and scoured the war-torn lands of evil, pushing the enemy back into the underground pits and caverns from whence they came. To ensure their legacy, each of the Twelve founded fortress monasteries to impart their unique knowledge of war and politics to a select few, the Knights of the Twelve. But now the last of the Twelve have long since passed from history to legend and the Knights, their numbers dwindling, are harbouring a dark and terrible secret that must be protected at all costs. * Merad Reed has spent half his life guarding a great crater known as the Pit, yearning for some escape from the bleak monotony. Then the arrival of Aldarin, one of the few remaining Knights of the Twelve, sets off a chain of cataclysmic events that will change Reed forever. * To the north, Jelaïa del Arelium, heiress to the richest of the nine Baronies, must learn to navigate the swirling political currents of her father's court if she hopes one day to take his place. But the flickering flames of ambition hide the shadow of an even greater threat. * And deep within the earth, something is stirring.

Hatching Twitter Nick Bilton, 2014-09-30 The dramatic, unlikely story behind the founding of Twitter, by New York Times bestselling author and Vanity Fair special correspondent The San Francisco-based technology company Twitter has become a powerful force in less than ten years. Today it's everything from a tool for fighting political oppression in the Middle East to a marketing must-have to the world's living room during live TV events to President Trump's preferred method of communication. It has hundreds of millions of active users all over the world. But few people know that it nearly fell to pieces early on. In this rousing history that reads like a novel, *Hatching Twitter* takes readers behind the scenes of Twitter's early exponential growth, following the four hackers—Ev Williams, Jack Dorsey, Biz Stone, and Noah Glass, who created the cultural juggernaut practically by accident. It's a drama of betrayed friendships and high-stakes power struggles over money, influence, and control over a company that was growing faster than they could ever imagine. Drawing on hundreds of sources, documents, and internal e-mails, Bilton offers a rarely-seen glimpse of the inner workings of technology startups, venture capital, and Silicon Valley culture.

New Dark Age James Bridle, 2019-05-21 "New Dark Age is among the most unsettling and illuminating books I've read about the Internet, which is to say that it is among the most unsettling and illuminating books I've read about contemporary life." - New Yorker As the world around us increases in technological complexity, our understanding of it diminishes. Underlying this trend is a single idea: the belief that our existence is

understandable through computation, and more data is enough to help us build a better world. In reality, we are lost in a sea of information, increasingly divided by fundamentalism, simplistic narratives, conspiracy theories, and post-factual politics. Meanwhile, those in power use our lack of understanding to further their own interests. Despite the apparent accessibility of information, we're living in a new Dark Age. From rogue financial systems to shopping algorithms, from artificial intelligence to state secrecy, we no longer understand how our world is governed or presented to us. The media is filled with unverifiable speculation, much of it generated by anonymous software, while companies dominate their employees through surveillance and the threat of automation. In his brilliant new work, leading artist and writer James Bridle surveys the history of art, technology, and information systems, and reveals the dark clouds that gather over our dreams of the digital sublime.

Artificial Unintelligence Meredith Broussard, 2019-01-29 A guide to understanding the inner workings and outer limits of technology and why we should never assume that computers always get it right. In *Artificial Unintelligence*, Meredith Broussard argues that our collective enthusiasm for applying computer technology to every aspect of life has resulted in a tremendous amount of poorly designed systems. We are so eager to do everything digitally—hiring, driving, paying bills, even choosing romantic partners—that we have stopped demanding that our technology actually work. Broussard, a software developer and journalist, reminds us that there are fundamental limits to what we can (and should) do with technology. With this book, she offers a guide to understanding the inner workings and outer limits of technology—and issues a warning that we should never

assume that computers always get things right. Making a case against technochauvinism—the belief that technology is always the solution—Broussard argues that it's just not true that social problems would inevitably retreat before a digitally enabled Utopia. To prove her point, she undertakes a series of adventures in computer programming. She goes for an alarming ride in a driverless car, concluding “the cyborg future is not coming any time soon”; uses artificial intelligence to investigate why students can't pass standardized tests; deploys machine learning to predict which passengers survived the Titanic disaster; and attempts to repair the U.S. campaign finance system by building AI software. If we understand the limits of what we can do with technology, Broussard tells us, we can make better choices about what we should do with it to make the world better for everyone.

The Story of Inc (Premium Edition) Neil Blevins, Bill Zahn, Stephan Bugaj, 2017-11 Inc is a sci-fi story that centers around a man and his robot trying to survive on an almost waterless desert planet. Assume Nothing Tanya Selvaratnam, 2021-02-23 “Selvaratnam very bravely and compellingly uses her personal experience to shine a light on the global crisis of violence against women. An important book for the women’s rights movement, Assume Nothing demonstrates that violence against women exists across race, class, economic status and education levels, and may be perpetrated by those we think of as allies! It dispels the myth that there are certain types of victims and perpetrators. It will help a lot of people, and

particularly those who hesitate to identify as a victim/survivor for fear of losing their grounding both publicly and privately.”—Yasmeen Hassan, Global Executive Director, Equality Now “This courageous and terrifying book charts the author’s descent into an abusive relationship and also her emergence from it in taut, seductive prose. Selvaratnam explains how—even as an educated, sophisticated, liberal feminist—she was enthralled by her lover’s fame and tolerated escalating personal violence. Her narrative is vivid and bracingly frank, a tour-de-force of self-revelation and, ultimately, of redemption.”—Andrew Solomon, National Book Award-winning author of *Far from the Tree* and *The Noonday Demon* Award-winning filmmaker Tanya Selvaratnam bravely recounts the intimate abuse she suffered from former New York State Attorney General Eric Schneiderman, using her story as a prism to examine the domestic violence crisis plaguing America. When Tanya Selvaratnam met then New York State Attorney General Eric Schneiderman at the Democratic National Convention in July 2016, they seemed like the perfect match. Both were Harvard alumni; both studied Chinese; both were interested in spirituality and meditation, both were well-connected rising stars in their professions—Selvaratnam in entertainment and the art world; Schneiderman in law and politics. Behind closed doors, however, Tanya’s life was anything but ideal. Schneiderman became controlling, mean, and manipulative. He drank heavily and used sedatives. Sex turned violent, and he called Tanya—who was born in Sri Lanka and grew up in Southern California—his “brown slave.” He isolated and manipulated her, even threatening to kill her if she tried to leave. Twenty-five percent of women in America are victims of domestic abuse. Tanya never thought she would be a part of this statistic. Growing up, she witnessed her father physically and

emotionally abuse her mother. Tanya knew the patterns and signs of domestic violence, and did not see herself as remotely vulnerable. Yet what seemed impossible was suddenly a terrifying reality: she was trapped in a violent relationship with one of the most powerful men in New York. Sensitive and nuanced, written with the gripping power of a dark psychological thriller, *Assume Nothing* details how Tanya's relationship devolved into abuse, how she found the strength to leave—risking her career, reputation, and life—and how she reclaimed her freedom and her voice. In sharing her story, Tanya analyzes the insidious way women from all walks of life learn to accept abuse, and redefines what it means to be a victim of intimate violence.

Bike Snob BikeSnobNYC,2011-04-29 “Equal parts critical manifesto and tender mini-memoir about a boy and his bikes” from Eben Weiss, blogger and author of *The Enlightened Cyclist* (GQ). Cycling is exploding in a good way. Urbanites everywhere, from ironic hipsters to earth-conscious commuters, are taking to the bike like aquatic mammals to water. BikeSnobNYC—cycling’s most prolific, well-known, hilarious, and anonymous blogger—brings a fresh and humorous perspective to the most important vehicle to hit personal transportation since the horse. Bike Snob treats readers to a laugh-out-loud rant and rave about the world of bikes and their riders and offers a unique look at the ins and outs of cycling, from its history and hallmarks to its wide range of bizarre practitioners. Throughout, the author lampoons the missteps, pretensions, and absurdities of bike culture while maintaining a contagious enthusiasm for cycling itself. Bike Snob is an essential volume for anyone who knows, is, or wants to become a cyclist. “This is a social manual that should be bundled with every bike shipped in America.” —Christian Lander, author of *Stuff White People Like* “I like to think I know a thing or two (or three) about being ruthless and relentless—either trying to win the Tour or fighting cancer. The Snob knows it too. Keeping us dorks in line is tough work. I take pleasure in getting picked on by the Snob, slightly more pleasure in reading his writing, but take the most pleasure punishing his ass (my payback) on the bike either in Central Park or on 9W/River Road. Long live the Snob.” —Lance Armstrong
