The Global Economic and Financial Crisis ,2009 What started as a financial crisis in the US has quickly unfolded into an economic crisis that now threatens to roll back the development gains of the last decade and may precipitate a human tragedy in many parts of the developing world. The analysis presented in this report provides a regional perspective on how this crisis is impacting the member states of the five regional commissions of the UN, and examines the types and adequacy of responses at the national and regional levels. It suggests ways in which the Regional Commissions can use their collective strengths to prevent the economic crisis from becoming a human crisis.

Dengue and Zika: Control and Antiviral Treatment Strategies Rolf Hilgenfeld,Subhash G. Vasudevan,2018-05-29 This contributed volume contains 25 chapters from leading international scientists working on dengue and Zika viruses, who came together in Praia do Tofo in Mozambique to discuss the latest developments in the fields of epidemiology, pathogenesis, structural virology, immunology, antiviral drug discovery and development, vaccine efficacy, and mosquito control programs. The meeting venue offered an opportunity to discuss current research on these flaviviruses in an idyllic setting, and also to develop first-hand appreciation of the issues in infectious diseases facing developing countries and of the research gaps in Africa. For readers, who should include basic and clinical researchers in the field and public health professionals, the chapters are organized to provide a comprehensive overview of the various topics in current dengue and Zika virus research. A unique feature of the proceedings of this meeting is the inclusion of the discussions that took place following presentations. These have been transcribed and appended to the end of the relevant chapters, and they form the “salt in the soup” of this book.

Integrated Uncertainty Management and Applications Van-Nam Huynh,Yoshiteru Nakamori,Jonathan Lawry,Masahiro Inuiguchi,2010-03-26 Solving practical problems often requires the integration of information and knowledge from many different sources, taking into account uncertainty and impreciseness. The 2010 International Symposium on Integrated Uncertainty Management and Applications (IUM'2010), which takes place at the Japan Advanced Institute of Science and Technology (JAIST), Ishikawa, Japan, between 9th-11th April, is therefore conceived as a forum for the discussion and exchange of research results, ideas for and experience of application among researchers and practitioners involved with all aspects of uncertainty modelling and management.

Illustrating the Past in Early Modern England James A. Knapp,2017-07-28 Illustrating the Past is a study of the status of visual and verbal media in early modern English representations of the past. It focuses on general attitudes towards visual and verbal representations of history as well as specific illustrated books produced during the period. Through a close examination of the relationship of image to text in light of contemporary discussions of poetic and aesthetic practice, the book demonstrates that the struggle between the image and the word played a profoundly important role in England's emergent historical self-awareness. The opposition between history and story, fact and fiction, often tenuous, provided a sounding board for deeper conflicts over the form in which representations might best yield truth from history. The ensuing schism between poets and historians over the proper venue for the lessons of the past manifested itself on the pages of early modern printed books. The discussion focuses on the word and image relationships in several important illustrated books printed during the second half of the sixteenth century-including Holinshed's Chronicles (1577) and Foxe's Book of Martyrs (1563, 1570)-in the context of contemporary works on history and poetics, such as Sir Philip Sidney's Apology for Poetry and Thomas Blundeville's The true order and Method of wryting and reading Hystories. Illustrating the Past specifically answers two important questions concerning the resultant production of literary and historical texts in the period: Why did the use of images in printed histories suddenly become unpopular at the end of the sixteenth century? and What impact did this publishing trend have on writers of literary and historical texts?

Indian Cities Kent Blansett,Cathleen D. Cahill,Andrew Needham,2022-02-17 From ancient metropolises like Pueblo Bonito and Tenochtitlán to the twenty-first century Oceti Sakowin encampment of NoDAPL water protectors, Native people have built and lived in cities—a fact little noted in either urban or Indigenous histories. By foregrounding Indigenous peoples as city makers and city dwellers, as agents and subjects of urbanization, the essays in this volume simultaneously highlight the impact of Indigenous people on urban places and the effects of urbanism on Indigenous people and politics. The authors—Native and non-Native, anthropologists and geographers as well as historians—use the term “Indian cities” to represent collective urban spaces established and regulated by a range of institutions, organizations, churches, and businesses. These urban institutions have strengthened tribal and intertribal identities, creating new forms of shared experience and giving rise to new practices of Indigeneity. Some of the essays in this volume explore Native participation in everyday economic activities, whether in the commerce of colonial Charleston or in the early development of New Orleans. Others show how Native Americans became entwined in the symbolism associated with Niagara Falls and Washington, D.C., with dramatically different consequences for Native and non-Native perspectives. Still others describe the roles local Indigenous community groups have played in building urban Native American communities, from Dallas to Winnipeg. All the contributions to this volume show how, from colonial times to the present day, Indigenous people have shaped and been shaped by urban spaces. Collectively they demonstrate that urban history and Indigenous history are incomplete without each other.
