America's Best Female Sharpshooter Julia Bricklin,2017-04-27 Today, most remember “California Girl” Lillian Frances Smith (1871–1930) as Annie Oakley’s chief competitor in the small world of the Wild West shows’ female shooters. But the two women were quite different: Oakley’s conservative “prairie beauty” persona clashed with Smith’s tendency to wear flashy clothes and keep company with the cowboys and American Indians she performed with. This lively first biography chronicles the Wild West showbiz life that Smith led and explores the talents that made her a star. Drawing on family records, press accounts, interviews, and numerous other sources, historian Julia Bricklin peels away the myths that enshroud Smith’s fifty-year career. Known as “The California Huntress” before she was ten years old, Smith was a professional sharpshooter by the time she reached her teens, shooting targets from the back of a galloping horse in Buffalo Bill Cody’s Wild West. Not only did Cody offer \$10,000 to anyone who could beat her, but he gave her top billing, setting the stage for her rivalry with Annie Oakley. Being the best female sharpshooter in the United States was not enough, however, to differentiate Lillian Smith from Oakley and a growing number of ladylike cowgirls. So Smith reinvented herself as “Princess Wenona,” a Sioux with a violent and romantic past. Performing with Cody and other showmen such as Pawnee Bill and the Miller brothers, Smith led a tumultuous private life, eventually taking up the shield of a forged Indian persona. The morals of the time encouraged public criticism of Smith’s lack of Victorian femininity, and the press’s tendency to play up her rivalry with Oakley eventually overshadowed Smith’s own legacy. In the end, as author Julia Bricklin shows, Smith cared more about living her life on her own terms than about her public image. Unlike her competitors who shot to make a living, Lillian Smith lived to shoot.

The 21st North Carolina Infantry Lee W. Sherrill, Jr.,2015-03-31 The 21st North Carolina Troops (11th North Carolina Volunteers) was one of only two Tar Heel Confederate regiments that in 1865 could boast From Manassas to Appomattox. The 21st was the only North Carolina regiment with Stonewall Jackson during his 1862 Valley Campaign and remained with the same division throughout the war. It participated in every major battle fought by the Army of Northern Virginia except the 1864 Overland Campaign, when General Lee sent it to fight its own intense battles near New Bern and Plymouth. This book is written from the perspective of the 1,942 men who served in the regiment and is filled with anecdotal material gleaned from more than 700 letters and memoirs. In several cases it sheds new light on accepted but often incorrect interpretations of events. Names such as Lee, Jackson, Hoke, Trimble, Hill, Early, Ramseur and Gordon charge through the pages as the Carolina regiment gains a name for itself. Suffering a 50 percent casualty rate over the four years, only 67 of the 920 young men and boys who began the war surrendered to Grant at its end.

Lessons Not Learned Roger Thompson,2013-07-10 Despite its reputation as the most impressive naval force in the world, the U.S. Navy is in trouble, according to the author of this book, and systemic weaknesses could be its undoing. Here, military sociologist Roger Thompson provides a compelling, often scathing, assessment of the U.S. Navy and its learning disabilities and then presents a convincing argument for reform. Thompson points to the U.S. Navy's up or out promotion system, massive personnel turnover, inexperienced crews, and drug and alcohol abuse as problems that make it difficult for the Navy to build cohesive, well-trained fighting units. In a review of the Navy's recent history, he finds that its ships, submarines, and aircraft are often outperformed in competitions and exercises with other navies—and its failures are either denied altogether or perfunctorily excused. Diesel submarines—so quiet that they are rarely detected until it's too late to prevent an attack—routinely surpass expensive U.S. nuclear subs and put U.S. aircraft carriers in danger. American naval pilots, whose weapons are often improperly tested, are frequently bested by military pilots from other countries. Because the U.S. Navy doesn't have enough surface ships to protect its capital ships, American carrier strike groups now use Canadian ships as escorts. Shortcomings like these, Thompson argues, undermine the Navy's potential and should be cause for national concern. In presenting a side of the U.S. Navy that's rarely discussed, this book spells out lessons the Navy must learn if it is going to succeed in an era of asymmetrical warfare—of David-versus-Goliath conflicts. In his conclusion, the author puts forth a twelve-step program that calls on the U.S. Navy to rethink its naval strategy, to lose some weight, and to focus on the fundamentals.

Three-Pointer! Łukasz Muniowski,2020-08-07 The three-point shot has been an NBA institution for more than 40 years, with the first long-distance bombs fired on October 12, 1979. The game has since changed dramatically. Critics today contend that three-pointers have gotten out of hand. Attempts rose from 2.8 per game in the 1979-1980 season to 18.4 in 2011-2012 to 32 in 2018-2019. Charting this development, this volume focuses on examples of 12 performances by 12 exceptional shooters--with mention of many more. Starting with Chris Ford and ending with Steph Curry, the author shows how these athletes have changed the NBA one shot at a time.
