Homesick Blues Scott W. Aalgaard,2023-11-30 *Homesick Blues* explores how artists, fans, amateur practitioners, and others have used music to tell stories of everyday life in Japan from the late 1940s to 2018, a practice that author Scott Aalgaard calls “musical storytelling.” At its core, musical storytelling is a political practice, presenting world-producing potentials as social actors generate and share stories of themselves and others in ways that intersect with and inform social and political life. Sometimes, musical storytelling is used by powerful entities to reinforce dominant geopolitical, cultural, or economic visions. More often, it is deployed as a means of interfering in or redirecting those visions.

In all cases, attending to musical storytelling helps reveal the complex and unexpected ways that everyday life has been imagined and critiqued across disparate moments in modern Japanese history. Aalgaard pushes beyond the upheavals of the 1960s and early 1970s, challenging well-established characterizations of these years as fleeting moments when critical politics in Japan reached an apex, and an end. Instead, he asserts that musical storytelling is robust and ongoing, and proposes more nuanced and comprehensive understandings of critical political and cultural engagement in modern Japan. *Homesick Blues* is comprised of five chapters, each of which addresses specific instances of musical storytelling in the contexts of their own political, economic, and social histories. From postwar jazz to contemporary rock, from 1960s “anti-war folk” to Japanese pops (enka) and the “girls’ rock” of the 1980s, the book explores the political uses of music, reassesses “protest music,” and grapples with the complex political-ness of artists, many of whom have continued to interrogate conditions of everyday life well into the contemporary moment. *Homesick Blues* assembles a diverse ensemble of voices, some of whom appear in English-language scholarship for the first time, including industry stakeholders, rock stars, fans, newscasters, Kyoto-based folk singers, jazz singers, karaoke enthusiasts, and even US military personnel. An equally diverse selection of scholarship and methodology, from ethnomusicology to literary studies, from philosophy to history, creates a richly interdisciplinary and accessible analysis of musical modes of politics.

Blue Nippon E. Taylor Atkins,2001-09-06 Japan's jazz community—both musicians and audience—has been begrudgingly recognized in the United States for its talent, knowledge, and level of appreciation. Underpinning this tentative admiration, however, has been a tacit agreement that, for cultural reasons, Japanese jazz “can’t swing.” In *Blue Nippon* E. Taylor Atkins shows how, strangely, Japan's own attitude toward jazz is founded on this same ambivalence about its authenticity. Engagingly told through the voices of many musicians, *Blue Nippon* explores the true and legitimate nature of Japanese jazz. Atkins peers into 1920s dancehalls to examine the Japanese Jazz Age and reveal the origins of urban modernism with its new set of social mores, gender relations, and consumer practices. He shows how the interwar jazz period then became a troubling symbol of Japan's intimacy with the West—but how, even during the Pacific war, the roots of jazz had taken hold too deeply for the “total jazz ban” that some nationalists desired. While the allied occupation was a setback in the search for an indigenous jazz sound, Japanese musicians again sought American validation. Atkins closes out his cultural history with an examination of the contemporary jazz scene that rose up out of Japan's spectacular economic prominence in the 1960s and 1970s but then leveled off by the

while addressing an undertheorized space of racial and ethnic performance. In so doing, she advances our knowledge of the cultural-historical formation of the timbral politics of difference and the ways that comprehending voice remains central to understanding human experience, all the while advocating for a form of listening that would allow us to hear singers in a self-reflexive, denaturalized way.
