Patterns of Economic Change by State and Area 2022 Hannah Anderson Krog,2022-09-15 Patterns of Economic Change by State and Area: Income , Employment, & Gross Domestic Product presents data on personal income, employment, and gross domestic product for the United States as a whole, the seven regions, each state, and over 350 metropolitan statistical areas.

County and City Extra 2018 Deirdre A. Gaquin,Mary Meghan Ryan,2019-01-04 Find out how your county or city measures up with others across the United States! Updated annually to guarantee convenient access to current statistical information, County and City Extra is a single-volume source of data for every U.S. state, county, metropolitan area, Congressional district, and all cities with populations above 25,000.

Patterns of Economic Change by State and Area 2014 Mary Meghan Ryan,2014-12-10 Patterns of Economic Change by State and Area: Income, Employment, and Gross Domestic Product is a special edition of Business Statistics of the United States and a new addition to the Bernan Press library of reference titles. This title presents data on personal income, employment, and gross domestic product for the United States as a whole, and by region, state, and metropolitan statistical area (MSA). Data on personal income and employment extends back to 1958 for the states and regions and to 1969 for the MSAs. Patterns of Economic Change complements other Bernan Press titles such as the State and Metropolitan Area Data Book and County and City Extra. In contrast to their predominantly current and detailed cross-section data on states and metropolitan areas, this book contributes historical time-series measurements of key aggregates that show how the economies of regions, states, and metropolitan areas have responded over time to cyclical currents and long-term trends. Statistics at the state level provide a framework for analyzing current economic conditions in each state and can serve as a basis for decision making. For example: Federal government agencies use the statistics as a basis for allocating funds and determining matching grants to states. The statistics are also used in forecasting models to project energy and water use. State governments use the statistics to project tax revenues and the need for public services. Academic regional economists use the statistics for applied research. Businesses, trade associations, and labor organizations use the statistics for market research. The second edition includes information on 381 MSAs—more than in the previous edition and new figures on income and poverty.

County and City Extra 2020 Deirdre A. Gaquin,Mary Meghan Ryan,2021-01-05 When you want only one source of information about your city or county, turn to County and City Extra. This trusted reference compiles information from many sources to provide all the key demographic and economic data for every state, county, metropolitan area, congressional district, and for all cities in the United States with a 2010 population of 25,000 or more. In one volume , you can conveniently find data from 1990 to 2019 in easy-to-read tables. The annual updating of County and City Extra for 28 years ensures its stature as a reliable and authoritative source for information. No other resource compiles this amount of detailed information into one place. Subjects covered in County and City Extra include: Population by age and race Government finances Income and poverty Manufacturing, trade, and services Crime Housing Education Immigration and migration Labor force and employment Agriculture, land, and water Residential construction Health resources Voting and elections The main body of this volume contains five basic parts and covers the following areas: Part A-States Part B-Counties Part C-Metropolitan areas Part D-Cities with a 2010 census population of 25,000 or more Part E-Congressional districts In addition, this publication includes: Figures and text in each section that highlight pertinent data and provide analysis Ranking tables which present each geography type by various subjects including population, land area, population density, educational attainment, housing values, race, unemployment, and crime Multiple color maps of the United States on various topics including median household income, poverty, voting, and race Furthermore, this volume contains several appendixes which include: Notes and explanations for further reference Definitions of geographic concepts A listing of metropolitan and micropolitan areas and their component counties A list of cities by county Maps showing congressional districts, counties, and selected places within each state

The Who, What, and Where of America Shana Hertz Hattis,2024-05-21 The Who, What, and Where of America is designed to provide a sampling of key demographic information. It covers the United States, every state, each metropolitan statistical area, and all the counties and cities with a population of 20,000 or more. Who: Age, Race and Ethnicity, and Household Structure What: Education, Employment, and Income Where: Migration, Housing, and Transportation Each part is preceded by highlights and ranking tables that show how areas diverge from the national norm. These research aids are invaluable for understanding data from the ACS and for highlighting what it tells us about who we are, what we do, and where we live. Each topic is divided into four tables revealing the results of the data collected from different types of geographic areas in the United States, generally with populations greater than 20,000. Table A. States Table B. Counties Table C. Metropolitan Areas Table D. Cities

Race and Employment in America 2013 Deirdre A. Gaquin,Gwenavere W. Dunn,2013-12-17 Race and Employment in America: 2013, First Edition This Bernan Press first edition contains a convenient selection of information from the Census Bureau's Equal Employment Opportunity (EEO) tabulation. Based on the American Community Survey, the EEO tabulation highlights the diversity of the labor force and serves as the primary external benchmark for comparing the race, ethnicity, and sex composition of an organization's internal workforce, and the analogous external labor market, within a specified geography and job category. Essential for any economic development official, EEO specialist, regional planner, urban researcher, or college student, Race and Employment in America answers questions about the direction of the workforce in America by race and the professions that America's races are choosing. Occupations are displayed by individual states and metropolitan areas. Race and Employment in America is one of the most comprehensive printed publications on the civilian labor force by race. Researchers, college students, and data users can easily see the trends of the job market that are affecting the nation today. This edition includes: A complete listing of detailed occupation data for the nation, by race, sex, and Hispanic origin Listings of job categories by race, sex, and Hispanic origin for all states and metropolitan areas Detailed list of the EEO tabulation's occupations, including job descriptions and SOC occupation codes Occupation profiles for each race and Hispanic origin group, showing fifteen occupation groups ranked by the number of workers and the ten most selected detailed occupations of each sex, race, and Hispanic origin group figures showing visual images of the civilian labor force, by race Educational attainment data by race, sex, Hispanic origin, and selected age groups Educational attainment level by race, sex, and Hispanic origin for detailed occupations Race and Employment in America is a valuable addition for all academic and public libraries. Race and Employment in America: 2013 is great companion to Employment, Hours, and Earnings, and the Occupational Outlook Handbook available from Bernan Press.
